Waller not as demurrer, that the charges, of course, but should be amended to specifications as to drawing public money from the First National bank of Erie. The court-martial adjourned until tomorrow.

EAST LIBERTY STATION WILL BE REMOVED

New Location Near Roup Planned by Pennsylvania Railroad.

ENGINEERS ARE AT WORK ON PLANS

Ground Necessary for Improvement Being Secured at Cost of $500,000.

A HEAVY CURVE WILL BE STRAIGHTENED OUT

A change of the line of the Pennsylvania railroad, between the Negley avenue and Spahr street bridges, and a new passenger station for East Liberty are contemplated in plans now under consideration. The site for the station will be just east of Roup station, near College avenue and Parker street. In the expense of changing the line and purchasing real estate the cost is expected to run close to $1,000,000.

In the present line of the road, from Shadyside to East Liberty, there is near Roup station a sharp curve, which will be eliminated by this plan. It is reported also that the change involves the removal of the cross-over switches now at East Liberty to Shadyside, and those at Wilkinsburg to Fifth avenue, where the new line, connecting with the Allegheny Valley and the West Penn division, will intersect the main line.

Engineers at Work.

Engineers in the employ of the Pennsylvania railroad have been engaged in making surveys over the ground for this purpose for about a week. Owners of real estate have been asked to sell the land to be occupied by the contemplated improvements.

One of the principal owners of the land included in the plan is J. P. Malone, who conducts a carpet-cleaning establishment at No. 5814 Center avenue. The land he owns faces on the tracks of the railroad, College street, and a lane running east from a point opposite the end of Parker street. The plot is about 350x220 feet in size, and is occupied by four residences. This land was bought by Mr. Malone only a month ago for a site for a new cleaning establishment.

Are After His Land.

"I have it direct from an official of the railroad who knows what he is talking about that the Pennsylvania railroad will very soon take this property," he said last night. "I hold it at $35,000 value. The company needs it for a new site for the East Liberty station. The present station, as is well known, does not give the room required. Much of the adjoining property has already been bought."

A. W. Mellon is the owner of 58 two-story brick houses lying along Parker street between College and Maryland. These houses rent for from $12 to $20 a month and their aggregate values would amount to at least $150,000. There is also a row of six larger brick houses along the north side of Parker street just west of Maryland avenue of which the value would be close to $25,000. Along both sides of this street are many frame houses owned by various persons and estates, adding $120,000 to the cost of this property. Much of this has already been bought and more is under option.

Bought Some Long Ago.

Some years ago the Pennsylvania bought from E. H. Myers of South Negley avenue a large lot lying between the Negley avenue bridge and Summerlea street, just south of the tracks. This would be part of the land used in the change of line.

With this land counted out and with the Parker street land, the Malone property and perhaps a few more lots along Ellsworth avenue, near the Spahr street bridge, a clear right of way would cost about $330,000, making the total real estate cost about $500,000.

Some time ago an effort was made by the Pennsylvania to secure the property of the Sacred Heart Catholic church, between Center avenue and the present tracks, as well as some other properties on the north side of the present line. The church would not sell, and now the attention of the railroad management seems turned to the other side of the tracks for the land.

Site Is Convenient.

As a site for the main East End station of the Pennsylvania it is very convenient. Practically all of the street car lines come within a block, making it very accessible from any point. The plot is large enough to furnish not only room for a larger station than the present inadequate one, but also for storage yards.

The greatest interest is being taken by property holders along this line in the matter and as a consequence a few are holding out for a price so high that it will probably be taken by condemnation. The new plan of the Pennsylvania will result in the abandonment of the old East Liberty and Roup stations.

CHOKED TO DEATH ON MANY ARTICLES.

If Willie Blacka's mouth had been larger he probably would have put more hardware in it yesterday, but he could not have died much sooner than he did.

Willie was 8 years of age. He was a son of Samuel J. Blacka, a meat dealer at No. 1307 West street, Homestead. The shop is across the street from his home. While Willie was playing with some boys about his age he put in his mouth two jackstones, a large pearl button and the cap to the spout of a gallop oil can with a couple of inches of chain to it. Something frightened Willie, and he swallowed all except one of the jacks.

Every physician in Homestead was summoned. Two of them first cut open his throat and then had to go to his stomach. The boy died about 5 o'clock just as the last article was reached.

SHIP BUILDERS' GREAT COMBINE IS NOW REALITY

Its Formal Organization Takes Place in Office of Lewis Nixon.

READY TO COMPETE WITH WHOLE WORLD

[SPECIAL TELEGRAM TO THE GAZETTE.]

Elizabeth, N. J., Aug. 11.—The giant ship combination known as the United States Ship Building Company, capitalized at $45,000,000, was formally organized today in the office of Lawyer P. H. Gilhooly by the absorbing of the Crescent ship yards, of which Lewis Nixon was owner, and the foundry of the S. L. Moore Sons Company, both of Elizabethport.

In the deal Mr. Nixon received something over $10,000,000 and the S. L. Moore Sons about one-third as much. In addition to the two Elizabeth concerns the company absorbs the following plants: The Union Iron Works of San Francisco, the Bath Iron works of Bath, the Hyde Windlass Company of Hyde, Me.; Harlan & Hollingsworth, of Wilmington, Del.

The company as originally established two months ago was capitalized at $20,000,000, and later bonded at $10,000,000 more. Just after this Mr. Nixon, it is said, purchased the Bethlehem Steel works, one of the largest independent works in the United States, a special product of the concern being armor for warships. It is also explained that the most friendly relations will exist between the new combination and the United States Steel Corporation.

Among the other companies announced today as being included in the trust are: The Eastern Ship Building Company of New London, Conn., and the Canada Manufacturing Company of Cartaret, N. J.

The acquisition of the Bethlehem Steel Company will give the ship combine a chance to build warships, complete with armor, armament and all equipment. No such company exists anywhere in the world.

More important, however, is the fact that the new combination can build ships in competition with any European shipyard, and will not lose in the price of steel. The new ship company has contracts amounting to $3,000,000, and the local yards will be filled to their utmost capacity with ships of all classes for domestic and foreign orders. The Crescent Ship Yards and the Moore foundry will be enlarged and more capital applied, and many hundreds more hands employed. Mr. Nixon will manage the Crescent Ship Yard.

A number of capitalists gathered in the lawyers' office today and all the papers necessary were signed and handed over to the proper holders.

TWO MEN ARE KILLED BY TRAIN COLLISION

Four are Also Injured by Freight Wreck in West Virginia.

[SPECIAL TELEGRAM TO THE GAZETTE.]

HUNTINGTON, W. VA., Aug. 11.—A disastrous wreck occurred on the Norfolk & Western railroad one mile east of Genoah, Wayne county, this morning. Two men were instantly killed and four were injured, some of whom may die. The dead:

LOUIS LITTEL, fireman.

FISHER FERGUSON of the bridge force.

The injured:

GUY OSBORNE, engineer, bruised head, side and shoulders.

J. ANDERSON, engineer, leg and side injured.

W. C. RICE, fireman, seriously injured internally.

OLLIE BOOTH, brakeman, fatally injured.

The wreck was caused by a head-end collision of two heavy freight trains, one loaded with coal and coke and the other with salt, lumber, etc. It is said the wreck was caused by one of the engineers overlooking his orders, which provided that he should have stopped at a siding a short distance from where the accident occurred. There were 18 cars wrecked, as well as both engines.

Physicians were hurried from Wayne and everything was done to alleviate the injured men. The killed and wounded are well known along the road, and several of them reside in Wayne county.

MARIETTA, O., Aug. 11.—(Special.)—A bad freight wreck occurred on the Ohio and Little Kanawha division of the Baltimore & Ohio railroad. Heavy rains caused a landslide near Relief, 30 miles north of Marietta. The engine was ditched and seven cars were wrecked. The engineer and fireman jumped. Brakeman Callahan received a broken ankle and Fireman Shaner painful burns.

MANY ROYAL HONORS BESTOWED BY KING

Archbishop of Canterbury Receives Victorian Chain—Medals from Queen for War Heroes.

LONDON, Aug. 11.—King Edward held a privy council today at Buckingham palace, at which the newly-appointed ministers were sworn in. Later he officiated at an investiture of the Victorian order.

The king gave an audience this afternoon to Sir Joseph C. Dimsdale, lord mayor of London, who presented the city's coronation gift, $575,000, toward the king's hospital fund. The gift included more than 20,000 penny donations from the poorest quarters of London.

The court circular announces that their majesties granted an audience to the archbishop of Canterbury and bestowed upon him the Royal Victorian chain, founded by King Edward to be bestowed upon special occasions.

Queen Alexandra presented war medals this afternoon on the grounds of Devonshire house to doctors, nurses and others in the Imperial Yeomanry hospital service. Her majesty was conducted to a stand where, under a canopy of blue and yellow silk, she handed the medals to the recipients, some dressed in khaki, some in policemen's and firemen's uniforms, and others in frock coats.

WORK BEGUN ON STEEL PLANT.

New Industry at Clearfield in Course of Construction.

CLEARFIELD, PA., Aug. 11.—(Special.)—Work was begun today on Clearfield's $300,000 steel plant. Eighty men are putting in a siding.

Five hundred lots were sold to secure the plant. The advance in the price of real estate was enough to subscribe for the amount of stock asked to be taken. The management will be under Hyde Brothers of Pittsburgh, operating in West Virginia and Pittsburgh.

TWO MEN WERE SHOT BY A NEGRO IN M'KEESPORT

One of the Victims Will Probably Die of His Wounds.

ANGRY MOB HOWLED FOR LIFE OF NEGRO

John Williams, a colored man, made an unprovoked assault on the members of a musical quartet who were on their way to a rehearsal in McKeesport last night and shot two men, one of whom will probably die of his wounds. The injured men are:

GEORGE ADKINS, No. 1200 Packer street, McKeesport, shot between the eyes; now in a critical condition at McKeesport hospital.

DENT HARRIS, shot in the foot, not serious. At his home.

Adkins and Harris, in company with James Lee and Charles Bishop, were on their way home from a rehearsal of a musical club to which they belong.

Shortly before midnight they were walking along Twelfth street, when they were accosted by John Williams, a negro, who asked them where they were going. Angry at his impertinence, one of the four told him that it was none of his business.

Without a word further Williams pulled a revolver from his pocket and fired several shots into the crowd. The first went wild and the second struck Adkins fairly between the eyes and he dropped to the pavement with blood streaming down his face.

Williams, evidently frightened at the consequence of his act, fled, with the other members of the party in hot pursuit. The shot attracted the police and a mob, and soon all were in chase of the fleeing negro.

He reached his home ahead of them, however, and barricading the door, shouted that he would never be taken alive. A squad of police were ordered to the scene, and the mob, which by this time had grown to several thousand, howled for the life of the negro.

The police surrounded the house and held back the crowd, while Policeman John Englehart crawled through a rear window, followed by several of his comrades. They proceeded cautiously through the house, expecting every moment to be fired upon in the dark, but finally found Williams crouching under a bed on the third floor.

The prisoner was thoroughly frightened and pleaded piteously that he be kept there until the angry mob had dispersed. After considerable difficulty he was landed in the police station, although the mob made wild rushes for him several times.

Williams told the police that the four men had assaulted him, and after he escaped and was running away from them he heard a shot. He denies doing the shooting.

Victory for Island Sale.

COPENHAGEN, Aug. 11.—The landsthing elections in the Faroe islands resulted in a complete ministerial victory. The campaign turned on the sale of the Danish West Indies to the United States and the government captured all opposition wards.

STRIKERS FIRE UPON DEPUTIES AT COAL MINES

Many Shots Exchanged in an Anthracite Village.

BULLETS FLY FAST IN THE DARKNESS

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Scranton, Pa., Aug. 11.—A lively battle occurred tonight between deputies and strikers at Throop, an isolated mining village six miles north of here. Scores of shots were exchanged, but as far as is known no one was hit.

The one colliery in the village is operated by the Pancoast Coal Company, a branch of the Ontario & Western coal department. Last Tuesday the washery was started under the protection of armed deputies. There has been some stone throwing at the deputies and clubbing of workmen and on several occasions the deputies discharged their guns to frighten away the boys who pelted the washery with slingshots.

Today at noon the four deputies guarding the company's pumping station, located on the river bank, were driven to cover by a volley of shots from the opposite shore. They returned the fire and silenced the attack. Tonight, when darkness fell, the attack on the pump house was renewed. The company anticipated it and had a big force of deputies on hand.

For an hour bullets flew thick and fast. The attacking party seemed to concentrate its fire on the pump house, for it was fairly riddled with bullets. The deputies shot into the bushes on the opposite shore, only 100 feet away, making a target of the spot where the flashes of the assailants' guns were seen.

The strikers evidently quit because of their ammunition being exhausted and the pumps put an end to hostilities. Several houses in the village were struck by bullets from the deputies' rifles. Sheriff Schadt went to the scene, but on account of the darkness was unable to do anything. He will take steps tomorrow, he says, to prevent a repetition of the scene.

ANTHRACITE GOES UP BUT NONE IS ON SALE

Coal Dealers in New York Advance Price, But Say They Have Nothing to Sell.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, Aug. 11.—Coal will take another jump in price tomorrow. All domestic sizes of anthracite coal will sell at $9 a ton; number 2 nut will be advanced to $8 a ton and pea will be advanced to $6 50 a ton. Steam sizes will not be advanced.

This action was ordered today by the committee appointed by the local Retail Dealers' association to watch the condition of the market. It was asserted today that the supply of anthracite in this city is practically exhausted. Agents that have been sent into the country to pick up coal wherever it may be found report that it is almost impossible to find enough to make a cargo to New York.

FORTUNE TELLER'S PREDICTION HAS SERIOUS CONSEQUENCES.

Because a gypsy fortune teller told her that she would die in a short time, Miss Bertha Wilde of McKees Rocks is in a serious condition as the result of worrying over it. About a week ago a member of a wandering band of gypsies came into the store of the Jones Dry Goods Company, where Miss Wilde is employed, and after making a few purchases, offered to tell the girl's fortune for a small sum. The gypsy was given the money and after telling many things which were true, informed Miss Wilde that she would die within six months.

Miss Wilde went home in the evening and told her family about it. They laughed at her and made so much fun of her that she cried. The continual worry soon began to tell on her health and it was found necessary to send her to Atlantic City yesterday in company with her brother, Frederick Wilde.

The girl's father is one of the leading business men of McKees Rocks and the matter created quite a sensation when it became known. From present indications the next fortune teller that puts in an appearance will be given a rather warm reception. At the Wilde home it was stated last night that the fun which was made of her at home had a great deal more to do with Miss Wilde's illness than the fortune teller.

TAKES LUNCHEON WITH PRESIDENT

Is Told Rare Hunting Tales and Sees Trophy of Grizzly's Fate.

SENATOR BURROWS STEERED OFF SHOALS

[SPECIAL TELEGRAM TO THE GAZETTE.]

Oyster Bay, N. Y., Aug. 11.—Prince Chen, Minister Wu, third Assistant Secretary of State Pierce and the members of Prince Chen's suite arrived here today at 12:30 o'clock.

The prince was greatly pleased to receive an invitation to take luncheon with the president at his own house. It was an honor, he said, that he appreciated more than any other invitation that could be given him, and the two hours spent as the president's guest were crowded with enjoyment, both for the royal visitor and the president.

Almost before the Sylph's anchor had touched bottom on the arrival of the yacht today, the prince and his party had entered the Sylph's two launches and were darting away toward the Roosevelt dock. There they were met by a representative of the president, who piloted them up the winding path to the top of the hill, where the president's carriage was awaiting them.

Luncheon was ready when they arrived at the house, and the president greeted his guests in the most genial fashion. During the hour at luncheon, the conversation ran at random upon almost every topic of common interest.

Earl Li's Record Still Stands.

The prince, through his interpreter, talked most of the time with the president, and while he does not ask as many questions as did Li Hung Chang, he proposed to the president a number of questions that sent a merry laugh going round the table, and none enjoyed the prince's talk more than the host. International affairs were not discussed, but the president asked the prince many questions about his own country, which the prince took great delight in answering.

Senator Burrows of Michigan came to Oyster Bay this morning to see the president and was present at the luncheon. The senator and Minister Wu began a serious discussion of Chinese affairs, but the president adroitly turned the conversation into lighter vein by asking the senator to tell a certain story of a Michigan lumberman who tried to become a Wall street king, a tale that always pleases the president.

Luncheon being over, the president showed his guests through the house. He pointed out to them his interesting collection of hunting trophies. Prince Chen was deeply interested in the skin and head of a great grizzly bear which the president shot in the Rockies, and innocently asked the president if he killed the monster in the forests.

Prince Shy of Cameras.

At 2:30 the party took leave of the president and returned to the boat landing. When the party appeared on the bluff above the landing the sailors in the launches began wigwagging to the Sylph and by the time the prince and his guests were comfortably seated in the launches the Sylph had her anchor up and was ready to go.

A launch containing several photographers had been waiting near the boat landing for the return of the prince from the president's house, and when the distinguished Chinamen were seated in the launches a dozen cameras were leveled at them from the other launch. At first Prince Chen seemed to shrink from being photographed. Coyly he held up his fan to hide his face, but as the launch carrying the photographers continued to follow them the prince finally dropped his fan and turned squarely about in the boat, facing the cameras.

On board the Sylph, Prince Chen took a seat in one of the easy chairs on the after deck, where he sat talking to Minister Wu as the yacht passed out of sight.

NEW YORK, Aug. 11.—Prince Chen was entertained at dinner tonight by Mr. Pierce. James B. Reynolds, secretary to Mayor Low, was the only guest outside the party. Later they all went to the Knickerbocker theater. The city hall will be visited tomorrow, and the party will drive through Chinatown on its return trip.

PRAISES "CREATORE'S" WORK.

"Uncle Joe Gittings" Says He Will Take Big Expo. Audiences by Storm.

"Uncle Joe Gittings," Pittsburgh's popular piano instructor, attended a concert given in New York last Thursday evening by the great "Creatore," and this is the message he has sent Manager T. J. Fitzpatrick of the Pittsburgh exposition:

"Tonight I heard 'Creatore' and his band play the 'Poet and Peasant' overture; the sextet from 'Lucia,' the 'Tannhauser' overture, and Herbert's 'American Fantasie,' and such a demonstration I never before have seen on the part of any public. Believe me 'Creatore' will take Pittsburgh by storm when he plays at the Exposition. His appearance, as he mounted the director's stand, reminded me very much of Arthur Nicksh, that wonderful orchestra conductor.

"At first his mannerisms, wild as they are, caused loud laughter, but as his sincerity made itself known he held his audience spellbound until his closing climaxes, when a very storm of applause broke forth. After the concert I had the pleasure of a short talk with 'Creatore,' and I must say he impressed me. He is a fine musician, feels his music deeply, and makes his audience feel it still more deeply."

Injunction Suit Delayed.

NEW YORK, Aug. 11.—By agreement between counsel on both sides, the time for filing the proposed amendment to the answer in the injunction suit of Hodge and others against the United States Steel Corporation, and the promised affidavit by Henry C. Frick, was today extended until next Friday.

NEW WAREHOUSE SYNDICATE WILL FIGHT WABASH

River Terminal & Railroad Company Will Appeal to Court.

MILLIONS INVOLVED WILL BE PROTECTED

The gigantic South Side terminal project of the Wabash railroad will be indefinitely delayed through the courts by action of the River Terminal and Railroad Company. With the Wabash scheme carried out the Terminal company will be held out of the use of a property representing, with proposed improvements, upward of $2,000,000. The Terminal company had its plans ready and was receiving bids for the construction of 23 new warehouses, a great transfer river and railroad terminal freight station, and the enlargement of the present Henderson-Johnston warehouse and elevator building.

President James J. Buchanan, Secretary-Treasurer G. W. C. Johnston, Vice President James A. Henderson and the other directors of the Terminal Company have been in daily conference with their attorneys to shape up their case, before taking exception to the nominal bond of $150,000, filed by the Wabash people, in initiating their condemnation proceedings. Attorneys George B. Gordon of Dalzell, Scott & Gordon and Henry A. Miller are now shaping up the case for the Terminal company, the exceptions of which will be filed in common pleas court No. 3 within a few days.

Immense Investment.

It will be shown that the present investment of these interests stands at about $1,000,000. Subsequent proceedings will probably be necessary to show that the company had all necessary plans made to increase this investment to upward of $2,000,000, and there will also be a case as to the consequential damages that will be done the Terminal company if the court were to condemn the property under the right of eminent domain.

Just prior to the filing of the Wabash bonds an agent of the Wabash went to the officers of the Terminal company and offered $100,000 for the property, displaying a bond and remarking that he did not anticipate its acceptance.

The property owned by the Terminal company covers about four acres, having a frontage of 261 feet in Carson street and a depth of 750 feet to the river. Besides this the interest has a government grant along the Monongahela river which takes it well beyond the harbor lines, subsequently established.

Indefinite Delay for Wabash.

The court proceedings will indefinitely delay the Wabash project. Chief Engineer James W. Patterson of the Pittsburgh end of the Wabash declared yesterday that definite announcement will be made soon of the plans of the company.

On the east side of the Terminal company's property and fronting in Carson street, the Wabash people have bought large tracts. Down-stream from the Terminal company they bought the Robinson-Rea property, with frontage of 248 feet for nearly $350,000, and above the Abel-Smith property, recently purchased by the Terminal Railroad Company, they bought the Atterbury property for about $175,000. This latter property, which has a frontage of 196 feet in Carson street, is lessened in value from the fact that 100 feet from First street the Panhandle railroad crosses it overhead, cutting across diagonally to a point about 90 feet back in First street. The Atterbury property is wedge-shaped with a width of about 125 feet along the Pittsburgh & Lake Erie Railroad near the river.

Great System Planned.

The warehouse and terminal improvements are now held up, pending results in court.

Something of the value of the Terminal company property is shown in an estimate on the value of the present warehouse building. It is a great modern structure with grain elevators and steel storage bins, comparatively new and the only thing of the kind in Pittsburgh. The building alone is estimated to be worth $250,000. The business here is conducted by the new Keystone Commercial Company, which recently took over the business of the Henderson-Johnston Company. The officers of this company are: G. W. C. Johnston, president; James I. Buchanan, secretary and treasurer, and Capt. James A. Henderson, vice president. These gentlemen, with George M. Hird, constitute the directorate of the River and Terminal Railroad Company has the same directorate, while Mr. Buchanan is president and Mr. Johnston secretary and treasurer.

Full Description.

The warehouses shown in the accompanying cut are four of the 23 warehouses which the River and Railroad Terminal Company proposed to build on its site in East Carson street near Smithfield street, and which will be made impossible by the plans of the Pittsburgh, Carnegie & Western, as they are understood by those in close touch with the situation. The warehouses shown in the cut are four of a row of eight to face in Carson street on the old Abel-Smith property, which was lately bought by the Terminal company. Running at right angles to this row, from these buildings to the Pittsburgh & Lake Erie tracks, is another row of 14 similar buildings to face to the west in what would be known as Terminal avenue, a narrow street that has been laid out by the company near the Henderson-Johnston property line. The Carson street warehouses will be 20x190 feet each, and the Terminal avenue buildings will measure 20x110 feet each. All the warehouses were to be of brick and steel construction, with a handsome pressed brick front.

Most Modern Stuctures.

They were designed by Architect Charles Bickel and planned especially for the carrying of enormous loads. They were to be built on the slow-burning combustion plan, making them the safest lot of storage buildings in the city.

Near the middle of the Abel-Smith property the company had arranged for two switches from the Pittsburgh & Lake Erie railroad. These were to run along the east side of the Terminal avenue warehouses to the rear of the Carson street buildings. They would accommodate 16 freight cars. In the northeast corner of the Abel-Smith property, between the switches and the Pittsburgh & Lake Erie tracks, was to be built another six-story warehouse, 60x220 feet. The big transfer freight station of the company was to extend along the river bank and to be 250x130 feet in dimensions, a four-story brick building with

Then Pittsburgher Disappears, and Secret of Decision Is Well Kept.

JUDGE PROBABLY ACCEPTS HONOR

Desires First Official News to Be Announced by Citizens Party Leaders.

ELKIN GIVEN PLACE ON STATE COMMITTEE

[SPECIAL TELEGRAM TO THE GAZETTE.]

Philadelphia, Pa., Aug. 11.—Judge Pennypacker today probably accepted the nomination of the Citizens party of Pittsburgh for governor. Whether the acceptance was verbal or in writing could not be learned, as C. S. Crawford, representative of the Smoky City independents, who was in the city awaiting the candidate's reply, went into retirement immediately after a conference with the judge this afternoon, and later quietly took an earlier train than was expected in order to avoid interviews.

Judge Pennypacker went to the Republican state headquarters in the morning to meet Secretary Andrews. It was reported that Mr. Andrews was the bearer to Senator Quay on Saturday of Judge Pennypacker's letter accepting the Citizens party nomination. If Senator Quay approved of the letter, Secretary Andrews was to return with it this morning, and it was to be given to Mr. Crawford. The visit of Judge Pennypacker to the state headquarters and his interview with Secretary Andrews gave substance to the report.

Later, when the judge was seen, he said he was still considering the matter, and had not decided.

Keeping Decision Secret.

The impression prevails that if the judge subsequently agreed to accept the nomination, it was on condition that no publicity be given to his acceptance at this time, or that Mr. Crawford should first make known the candidate's attitude to the Citizens party leaders in Pittsburgh when he reached home. In addition, the judge probably realized that whatever his decision would be it would be unsatisfactory to either one element or the other, and in deferring the announcement of his intention he might be able to conciliate those who would be inclined to disapprove of his course.

Attorney General John P. Elkin and ex-Lieut. Gov. Louis A. Watres head the list of members at large of the Republican state committee, as announced by State Chairman M. S. Quay, today, through the secretary of the committee, Wesley R. Andrews.

On account of his accident last week in Atlantic City Senator Quay was unable to come to this city today, but he gave to Secretary Andrews the full list of the members of the state committee, numbering about 120 and including the 12 members at large.

Pittsburgh Given Two Places.

In the selection of the members at large, Allegheny county gets two members and Philadelphia the same number. The list follows:

John P. Elkin, Indiana; Louis A. Watres, Scranton; George T. Oliver, Pittsburgh; Hiram Young, York; Gen. Charles Miller, Franklin; Homer Greene, Honesdale; E. W. Owlett, Wellsboro; B. F. Gilkison, Bristol, David H. Thomas, Hokendauqua; James H. Lambert, Philadelphia; David H. Lane, Philadelphia, and George M. von Bonnhorst, Pittsburgh.

None of the appointments was made without first consulting the persons honored, and the selection of the attorney general is in itself the best confirmation of the announcement that he would be found on the stump during the campaign.

ATLANTIC CITY, Aug. 11.—Senator Quay today repeated his declaration of last night that he had not received any information bearing on Judge Pennypacker's action in regard to the latter's nomination by the Citizens party of Pittsburgh.

The senator's injured foot continues to mend, but he will not take any risks, preferring to wait until it is thoroughly healed before he puts it into a shoe.

HARRISBURG, Aug. 11.—Governor Stone today commissioned Judge Meyer Sulzberger to be president judge of common pleas court No. 2, Philadelphia, to fill the vacancy created by the resignation of Judge Samuel W. Pennypacker, the Republican nominee for governor.

REPUBLICANS HAVE DEMOCRATIC TIME

Lie Passed at Mauch Chunk, Number of Blows Struck, and Machine Wins Out.

[SPECIAL TELEGRAM TO THE GAZETTE.]

MAUCH CHUNK, PA., Aug. 11.—The Republican convention held in the opera house today was one of the hottest in the history of the county, owing to factional fights. The excitement at times was intense, the lie being freely passed and a number of blows exchanged. The machine, led by David Watkins, assistant cashier in the custom house at Philadelphia, finally won out, the following ticket being nominated:

President judge, Judge Horace Hedyt, Lehighton; assembly, T. Brimmer, Lansford; register of wills, Robert Reese, Nesquehoning; recorder of deeds, Robert G. McMichael, Mauch Chunk; county treasurer, William Edmunds, Beaver Meadow; county commissioners, D. O. Straub, Lower Tomensing, and David Ross, Mauch Chunk; auditors, Fred Brinckman, Hudsondale, and William Isaac, East Mauch Chunk; senatorial conferees, W. G. Benny, Audenreid; W. E. Beckley, Mauch Chunk, and William Whitehead, Weissport; congressional conferees, D. K. Morrow, East Mauch Chunk; Samuel W. Hufford, Weatherly; William Mooney, Millport, and Milton Seltzer, Franklin.

Davis split even on the state delegates, getting Levi Horn of Franklin and the opposition landing Daniel B. Davis of Lansford.

DEMOCRATS TO MAP OUT PLAN OF CAMPAIGN

Chairman Creasy to Surrender the Reins to More Energetic Men.

RILLING TO HAVE CHARGE

The Former Is to Manage the Spellbinders and Devote His Time to the Agriculturists — Notification Meeting to be Held at Reading.

Democratic leaders will meet at Harrisburg today to map out a plan which in their own minds and on paper accomplishes the defeat of the Republican state ticket this fall. Col. James M. Guffey will be present to direct the plan-making.

In order to throw a trifle more life into the campaign than State Chairman W. T. Creasy is disposed to infuse, the actual management of the Democratic struggle for success is to be entrusted to a committee of eight. These men are among the brainiest of Col. Guffey's captains. They are men who have been successful in their own counties and know much about the political conditions existing in the others.

This committee will meet for organization today. The members are James Kerr, Clearfield; John S. Rilling, Erie; John Ancona, Chester; Robert E. Wright, Lehigh; Charles P. Donnelly, Philadelphia; John B. Head, Westmoreland; J. Wood Clark, Indiana, and Congressman J. K. P. Hall, Elk. State Chairman Creasy is also a member by reason of his position.

It is quite probable that John S. Rilling will be elected chairman and J. Wood Clark secretary. They are good organizers. The committee will have active charge of the campaign so far as organization and the getting out of the vote are concerned. Creasy is to have control of the spellbinders, and Jolly the agricultural element in the various counties of the state. It is said that his knowledge of timothy seed and the value of fertilizers far excels his store of learning about practical methods in politics. This trip about the state will also give him an opportunity to test the sentiment on his candidacy for president in 1904.

At the meeting today a date for the notification of the state candidates will be selected. Reading will be named as the place and some time about September 15 will be agreed upon as the date. The selection of the date will depend somewhat upon the time the Republicans intend to start their campaign.

Col. Guffey wants to make the Reading meeting the opening of the Democratic campaign. Immediately afterward Candidates Pattison, Guthrie and Nolan will be sent into every county in the state. It has not been determined whether any other speakers will accompany the candidates.

EX-CONFEDERATES MISTAKEN.

Many Are Now Looking for Pensions From Federal Government.

WASHINGTON, Aug. 11.—The commissioner of pensions said today that an erroneous impression exists among many ex-confederate soldiers regarding the recent act of congress relieving union soldiers of disabilities for having previously served in the confederate army.

The idea seems to prevail that the government is authorized to pension ex-confederate soldiers, and the pension office is being deluged with applications from the former wearers of the gray.

THE WEATHER.

Fair conditions will prevail in Pittsburgh today and tomorrow, with a general warming up of the atmosphere tomorrow, according to the forecast of the Washington weather bureau. Yesterday's weather was delightful, but during the morning was slightly marred by a fall of rain, which sent the mercury down 9 degrees. After the rain had passed the mercury again went up and the maximum for the day, 75 degrees, was registered at 5 o'clock last evening. The minimum was 64, and occurred at noon.

Fair.

The Gazette weather service thermometers at Kaufmann's corner, at the following hours yesterday, registered:

Dignity for a Merchant.

PARIS, Aug. 10.—Mr. Victor Klotz, the well-known head of the Parfumeria Ed. Pinaud, Paris, has been raised to the dignity of officer of the Legion of Honor by the French government.

This high distinction is very seldom obtained by business men in France.

POLICEMAN'S SHOT WAS DEADLY ONE

WILLIAM MOORE DIED OF BULLET WOUND IN THE ABDOMEN.

After Throwing Officer William Reilly Down and Threatening Him as He Pinned Him to the Ground He Was Fatally Wounded.

To save himself from the desperate negro who had taken his mace from him and had him pinned to the pavement, Policeman William A. Reilly shot William Moore in the abdomen yesterday morning at Water and Market streets and he died of his wounds shortly after 7 o'clock last night at the Homeopathic hospital. Moore was a deck hand on one of the river steamers, and had just come from Cincinnati, O. He was known as a desperate character among the police all over the country.

Moore himself was responsible for his igneominious end. Yesterday morning about 10 o'clock he went to the wharf of the steamer James Moren to collect his wages. After getting the money he went to the saloon of Harry Bolgers at No. 149 Water street. He became unruly while in there, and it became necessary for the proprietor to summon a policeman to have him ejected.

Officer Reilly was near the place at the time, and when he entered the saloon Moore became ugly and cursed him. Officer Reilly paid no attention to his abusive language, but told him he would have to leave the saloon.

Moore refused to leave the place. Officer Reilly took hold of him and started with him toward the door. When they got outside the negro resisted. They grappled, and as Moore was the larger man, weighing over 200 pounds, he soon overpowered the officer, throwing him on the ground. Then he jumped on him and took his mace from him. "I will kill you," he said, raising the mace over his head.

The officer managed to get his right hand free and with an effort drew his revolver. Placing the muzzle against the negro's right groin he fired.

"I am shot!" cried Moore, and he got up and ran. He only went about 15 yards when he became weak and was compelled to stop. Officer Reilly was on his feet by this time and pursued Moore and placed him under arrest.

The negro was greatly subdued by this time and told the officer his wound pained him fearfully.

Officer Reilly, with the assistance of George Young, carried Moore to a broom store at No. 127 Market street, while he summoned a patrol wagon. In a few minutes the patrol wagon arrived from Central police station and Moore was removed to the Homeopathic hospital.

It was found that his wound was fatal, and shortly after 7 o'clock last night he died. Nine business men witnessed the struggle between the officer and the negro. They all say that Officer Reilly was justified in shooting him to save himself from being beaten to death.

Inspector Fred Will and Capt. Charles K. Gallant made investigation of the case and say that Officer Reilly's action was justifiable. Officer Reilly lives in the Sixth ward and is known to be a prudent and careful officer.

Moore was 33 years old and was born in Wilmington, N. C.

THE KING INQUEST WILL BE HELD TODAY

Inquiry Into Crime for Which Joseph Allen Is Under Arrest.

The inquest into the murder of Achsah King in Curran's saloon at Sixth and Wylie avenues on July 23, for which Joseph Allen is under arrest, will be held this morning at 11 o'clock by Corner Jesse M. McGeary. The witnesses have been summoned to give their testimony in the case by the coroner's deputies and Detective John Roach, whose shrewd work led to the capture of the alleged slayer of the King woman.

Joseph Allen has been in jail since last Friday. This morning he will be taken from the jail and brought to the coroner's office, where he will face the persons who saw the slayer of Achsah King on the day that she was murdered. Detective Roach decided to summon only a sufficient number of witnesses to hold Allen for the action of the grand jury. At the most, not more than three witnesses will be called. Detective Roach has some 21 witnesses who will testify in the case when it reaches the grand jury.

This morning Mrs. A. K. Acheson of No. 3810 Butler street will be called to the stand to testify that Allen was with her sister at her house on the afternoon that she was murdered. Harry O'Donnell, the waiter in Nill & Knee's saloon at No. 523 Wylie avenue, will testify that Allen was the man whom he ejected from the saloon with Achsah King about 20 minutes before she was killed. William Siebert will be called to testify that Allen was the man who followed Achsah King in the Curran saloon a few minutes before she was murdered. Edward Lipps of No. 823 Beaver avenue, Allegheny, will testify Allen came to him after the murder and got money to leave the city.

FUNERAL TO BE PRIVATE

Members of the Late Senator McMillan's Family Arrange for the Burial.

MANCHESTER, MASS., Aug. 11.—F. H. McMillan and W. C. McMillan, sons of the late Senator James McMillan and Mrs. P. H. McMillan, reached Manchester from Detroit this afternoon. They were driven at once to Eagle Head, the McMillan summer residence. Plans for the funeral were discussed and it was decided that a brief private service should be held at Eagle Head Wednesday afternoon.

A special train will carry the family and the body to Boston and thence directly to Detroit, Senator McMillan's home.

WASHINGTON, Aug. 11.—Senator Frye, president pro tem. of the senate, has appointed the following committee to attend the funeral of the late Senator McMillan: Messrs. Allison, Bacon, Burrows, Cockrell, Cullom, Fairbanks, Foraker, Gallinger, Hale, Hanna, Kean, Lodge, Martin, Mason, McComas, Pritchard and Wetmore.

DETROIT, MICH, Aug. 11.—Congressman John R. Corliss today received from Oyster Bay, L. I., the following telegram in answer to one sent to President Roosevelt, yesterday, announcing the death of Senator McMillan:

"The president learns with deep regret of the death of Senator McMillan and wishes you would extend to the members of the family his deep sympathy in their bereavement.

(Signed) "WM. LOEB,
"Acting Secretary."

RECEPTION TO GEN. SMITH.

Royally Received by Old Friends, but Refused to Discuss His Retirement.

PORTSMOUTH, O., Aug. 11.—Gen. Jacob H. Smith was given a royal reception at his home here tonight, fully 5,000 people being at the depot to meet him, accompanied by a band and drum corps. The mother of Gen. Smith was among those at the station. A crowd including several companies of the Ohio national guard escorted the general to his residence.

Gen. Smith absolutely refused to discuss the order retiring him. He said he was still a soldier and amenable to the army regulations. When the time came to make a statement, he said, it would be made, and not until then. His report of the campaign in Samar, he said, would be made out soon and forwarded to the war department.

WILMERDING'S NOVEL BEAUTIFYING CONTEST IS MAKING THE TOWN A PICTURESQUE PLACE

Joseph B. Carouther, Who Won the First Prize of $25 Offered by the Westinghouse Airbrake Company for the Best Appearing Private Grounds as a Whole, and the Barren Hillside He Transformed Into a Lovely Terrace of Velvety Green.

The contest for beautiful lawns, flower and vegetable gardens in Wilmerding which was started by the residents of that thriving town last year at the instigation of the Westinghouse Airbrake Company, the great works of which are located there, and which was continued this year on a larger scale than ever, promises to become an important matter in the borough, and incidentally make it one of the handsomest appearing places in the state. The town site originally was anything but picturesque, but by hard work and a considerable outlay of money it has been converted into a place of wide, shady avenues, beautiful lawns and gardens.

Last year, when the first contest started, but few entered, and while not many improvements were made, the success of the venture was evident, and this year when the Westinghouse company announced that they would renew their offer of cash prizes for the best lawns, flower beds and gardens, nearly a hundred entered the contest and the competition became keen.

When the winners were announced the other day they included the names of two men who won the first two prizes last year. One is Joseph B. Carouther of Wood street, who by hard work and rare good taste transformed a barren hillside into a beautiful terrace of flowers and plants, arranged in such an artistic manner that it captivated the judges, who awarded him the first prize for the best arranged grounds as a whole. Last year Mr. Carouther undertook what his neighbors considered a hopeless task in attempting to compete for a prize in the contest, but long before the winners were announced they were sure he would capture at least one of the prizes. This year again he entered the contest and how well his efforts have been repaid is shown by his winning first prize.

The second prize winner is A. B. Wood, who also won the second prize last year. Next year it is expected that every resident of Wilmerding, with few exceptions, will enter the contest and many original and unique ideas in lawn and flower-bed arrangements are expected.

INFLUENCE LED LINCOLN TO ALTAR

MRS. FRANCES HENNING SPEED DIES NEAR LOUISVILLE, KY.

Widow of Man Who Was Closest Friend of Martyred President in His Younger Days—Husbandly Tribute of Devotion.

[SPECIAL TELEGRAM TO THE GAZETTE.]

LOUISVILLE, KY., Aug. 11.—Mrs. Frances Henning Speed, widow of Joshua F. Speed, who was one of Abraham Lincoln's closest friends, is dead at the age of 82 years at her home on the Cherokee road.

Her early life and the life of her husband were closely connected with that of Lincoln, and it is told in Hay and Nicolay's biography of Lincoln that the martyred president was Mr. Speed's confidante throughout his courtship of Miss Henning, who afterward became his wife, and that on the testimony of his friend to the happiness which he had found in his marriage was due Lincoln's union to Miss Mary Todd of Lexington, Ky., to whom he had been engaged for several years, and from whom he had been estranged by the brooding fear that their mutual feelings were not such as to pledge a wedded life of happiness.

Lincoln became engaged to Miss Lucy Todd in Springfield, Ill., in 1840, while she was on a visit. They became estranged until 1842, when Lincoln and Joshua Speed came to Kentucky on a visit to Mr. Speed's mother. Then Mr. Speed met Miss Henning, and in 1842 they were married. Later in the same year, Lincoln wrote to Mr. Speed.

"I believe God made me an instrument in bringing you together."

Afterward came the remarkable request:

"I know that between other men this might be misunderstood, but knowing me as you do, I am certain that you will feel what your answer means when I ask you if ever in feeling or judgment you have had cause not to be glad that you are married as you are."

Doubtless the tribute to the young wife was one of husbandly devotion, for on November 9, 1842, a marriage license was issued to Abraham Lincoln and Mary Todd, and they were married on the same day.

ESCAPED FROM DEATH.

Awful Experience of Edward Wilson, Who Walked in Front of a Car.

Edward Wilson of No. 838 Western avenue, Allegheny, had a wonderful escape from being mangled by a Pittsburgh and Birmingham traction car at 10:30 o'clock last night at Smithfield and Diamond streets. He was given a terrible fright and was badly shaken up by being rolled by the car before it could be stopped.

The car which struck Wilson was going toward Union station. Wilson darted from the sidewalk directly in front of the moving car. Had not his movement been seen by the motorman, Edward Ryan, Wilson would probably have been killed outright. Almost as the car struck the man the motorman by quick action threw on the brake and stopped the car within half of its own length. When Wilson was struck he bounded forward, then fell and rolled under the front platform, his body just touching the wheel when the car stopped. Policeman Morgan Connelly, who was passing at the time and was attracted by the terrible cries of Wilson, ran to his assistance and dragged his body from under the car. After a few minutes Wilson was able to go to his home alone. Although not injured, he had his clothing badly soiled and cut.

Connection for Asiatic Railroads.

WASHINGTON, D. C., Aug. 11.—Consul Smith at Moscow has informed the state department that a private company representing Moscow and foreign capital has been organized to build a railroad to connect the Central Asian with the Siberian road by a line from Andijan or Tashkent along the western frontier of China, through the basins of the Irtish and Ob rivers.

WILL FILED IN LISBON

Harry Darlington of This City Is Made Executor Without Bond. Grandson Must Wait for His Share Until He Is 26 Years Old.

[SPECIAL TELEGRAM TO THE GAZETTE.]

East Liverpool, O., Aug. 11.—The will of Rebecca T. McCullough of Allegheny, widow of J. N. McCullough, formerly of Wellsville, has been filed for probate at Lisbon. It disposes of an estate of about $15,000,000, part of which is in this county.

Mrs. McCullough was buried in Wellsville. Her husband was formerly president of the Cleveland & Pittsburgh railroad. Her son-in-law, Harry Darlington, is made executor of the will without bond. Her granddaughter, Miss Rebecca McCullough Darlington, is given all the diamonds; her daughter, Mrs. Mary E. McCullough Darlington, all her articles of household ornaments and the use of all other personal property, which is at the homestead, except the articles bequeathed to the granddaughter.

The one-half of her estate is bequeathed to Mary E. McCullough Darlington and one-fourth to Rebecca McCullough Darlington. The remainder goes to Harry Darlington, to be held in trust for Harry Darlington, Jr., until he shall become of age, after which, for five years, he will receive the income from the bequest and at the expiration of this time receive it absolutely.

elevated tracks running into it, and immense hoisting apparatus to unload the freight from the boats. In addition to these 24 new buildings Architect Bickel also had plans completed for a two-story addition to the present four-story warehouse of the company, which is 61x600 feet long.

Use of Warehouses.

The present warehouse of the company is to be used for grain and hay and heavy products. The new warehouses are designed for the storage of general merchandise, in which the company already has a considerable business. They have been arranged somewhat on the plan of the famous Cupples station at St. Louis, which was to have been the model for the Point warehouses, and would have been by far the largest and best equipped system of warehouses in the state. Immense landings had been provided in the rear of the Carson street warehouses and a complete system of the latest freight elevators and electric carriers for grain and other products had been arranged for. With the conveniences provided it would be possible for the Keystone Commercial Company transacting warehouse business on the property of the River & Railroad Terminal Company to handle 100 cars a day easily. All arrangements were made with the Pittsburgh & Lake Erie railroad for switches and right of way.

The total expenditure for the plant of the River & Railroad Terminal Company, including its grounds and buildings, would be something over $2,000,000.

BOER GENERALS ARE ONCE AGAIN UNDER HOT FIRE

Program Prepared for Lionizing Campaign in Britain, but Kruger Objects.

SENDS VESSEL FOR THEM

Also Dispatches Delegates to Southampton to Waylay Them and Prevent Their Meeting With King Edward and Lord Kitchener.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

London, Aug. 11.—The arrival next Saturday from South Africa of Gens. Botha, DeWet and Delarey promises to be the occasion of another struggle between Boer and Briton.

The colonial office has made special arrangements for the reception of the visiting Boers at Southampton. The naval review will be in progress, and after their reception by distinguished colonial office authorities, Lord Kitchener and other prominent persons they will be conducted on board the steamer chartered to witness the naval review.

It is expected that Colonial Secretary Chamberlain will be on board. The Boer leaders will spend Saturday night on board this vessel and Sunday they will be received by King Edward on the royal yacht and in the presence of a number of distinguished personages.

The arrival in England of the Boer generals will doubtless be the prelude to another round of lionizing like that experienced by the late Gen. Lucas Meyer, should the generals decide to stay in England, but according to The Hague correspondent of the Daily Mail, former President Kruger of the Transvaal and his party are anxious to prevent Gens. Botha, DeWet and Delarey from landing in England.

Members of the Kruger party sent urgent letters and cablegrams to Madeira in an effort to dissuade the generals from accepting British hospitality. It is proposed to send a Dutch vessel to intercept them, and in any case Messrs. Wolmarans, Fisher and Wessels will go to Southampton with that intention.

ADMITS MURDER.

Slav Miner Appears Before Coroner's Jury Drenched by His Victim's Blood.

WASHINGTON, PA., Aug. 11.—(Special.)—Joseph Gillistie, the Slav miner who killed his companion, John Emmil, at Midway last night, was brought to jail here today. He was committed by Coroner John J. Fitzpatrick, who held an inquest this morning. The verdict rendered was that Emmil came to his death by a blow from a hatchet in the hands of Gillistie. The murderer admits his guilt.

When brought before the coroner's jury he was covered with the blood of his victim, and the bloody hatchet was placed in evidence.

Mrs. Desire Dumont testified that she saw Gillistie come out of the cabin and approach the sleeping form of Emmil, with the weapon hidden behind his back. She told her husband, who ran upstairs and saw him strike the fatal blow. Emmil groaned and Gillistie continued to beat the dead body until apprehended by Constable Chettle. Gillistie has not given any reason for the deed.

HOSTETTER'S STOMACH BITTERS

AUTO STRUCK BY TRACTION CAR

C. S. DAULER AND J. L. FRENCH INJURED ON SOHO HILL.

Vehicle Was Crossing from One Side of Street to Other—Occupants Cut and Bruised, but Neither Is in Serious Condition.

An automobile and a Highland avenue traction car came in collision last evening about 6 o'clock in Fifth avenue, near Seneca street, which resulted in the complete destruction of the automobile and the serious injury of the two occupants.

The injured are:

CYRUS S. DAULER of the Pennsylvania plant of the National Tube Company, who resides at Amberson avenue and Baird street; scalp wounds; shoulders badly sprained; right knee badly injured.

JOHN L. FRENCH of St. Louis, a guest at the Hotel Dorset, East End, agent of a St. Louis automobile company; severe scalp wounds; shoulders and back injured.

The automobile was being driven by Mr. French, who was exhibiting it to Mr. Dauler, a prospective purchaser, and was a new machine. They were coming from the east along Fifth avenue, and, when between Seneca and Moultrie streets, they attempted to turn off from the westbound track to the eastbound track in order to avoid a wagon. A Highland avenue car was coming down the grade from Jumonville street, where it is said by the residents of that neighborhood, the cars have been running at a terrific speed, and the automobile was struck with great force when about halfway over on the track, smashing the front part of it and knocking the occupants on the curbstone.

The people standing about rushed to the rescue of the two men, who were bleeding and insensible. They were carried into the office of Dr. W. A. Caven, at Fifth avenue and Seneca streets, who is one of the regular physicians of the Pittsburgh Railways Company, where they received prompt attention. As soon as the injured men were sufficiently recovered they were sent to their homes. Dr. Caven said later that, while they were both severely injured, their wounds were not serious.

HARPER SUSPENDS BUSINESS.

Former Pittsburgher's Failure Announced in New York.

NEW YORK, Aug. 11.—The suspension of Orlando M. Harper, cotton goods commission merchant, was announced today.

Mr. Harper began business for himself in this city in April, 1888. He came to this city from Pittsburgh, where he had been for 20 years a manufacturer and had been president of the Eagle Cotton Mills Company, whose plant was in Allegheny. He is a son of the late John Harper, president of the Bank of Pittsburgh. No information was furnished today concerning Mr. Harper's assets and liabilities.

BIG FINANCIERS AFRAID TO FIGHT MORGAN COMBINE

Peter Power Called in as Screen for Men Who Feared Annihilation.

LAWYER CLEARS MYSTERY

Plaintiff in Case Against Northern Securities Company Flees to Montreal While Contempt Proceedings Are Pending Against Him.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, Aug. 11.—At the hearing today in the suit of Peter Power against the directors of the Northern Pacific railroad, to prevent them from turning over the stock of the company to the Northern Securities Company, George A. Lamb, counsel for Power, admitted that his client was living at the Queens hotel, Montreal, under the name of "P. Blake."

Mr. Lamb asked the privilege of making a statement. Mr. Guthrie, for the defense, said he would permit the explanation, providing he would explain Power's escape to Canada.

"Mr. Power," said Mr. Guthrie, "is living in the Queens hotel, Montreal, under the fictitious name of P. Blake."

"That is true," admitted Mr. Lamb, and then he entered into a long statement. He told of finding Power at West Hurley, N. Y., in a highly nervous condition, and desirous of going to Montreal, to which Lamb objected. Power, Lamb said, promised to come to this city at once should Judge Lacombe decide that he was in contempt. Lamb declared that he had tried by means of telegrams to Montreal to induce Power to return, and had sent funds for that purpose.

Where Power Comes In.

Mr. Lamb then told of being counsel for the firm of Lawson, Weidenfield & Co. He had heard discussed on every side the subject of the Northern Securities Company and its legality. He had many talks with Mr. Weidenfield concerning this.

"I told Mr. Weidenfeld," said Lamb, "that no one in Wall street dare start an action. Any banker or broker who dared to commence a suit to combat the enormous accumulation of capital would have his business practically ruined by the interested parties. Mr. Weidenfeld suggested that some responsible man be found who could protect the real principals and conceal their identity entirely. If such a man could be found, Mr. Weidenfeld told me, he would agree to purchase stock for him and commence a suit in his name.

"I suggested Peter Power as a young man who was responsible, and also had inherited some money. In the meantime I was constantly being importuned by my clients to take some action against these people. Later, I found that the state of Minnesota, through its governor and attorney general, proposed to take some action. I visited St. Paul and there met Gov. Van Sant and Attorney General Douglas.

Idea Pleases Van Sant.

"They heartily welcomed any action upon my part. In fact, the governor told me he at one time thought it would be a good idea for the state of Minnesota to buy some Northern Pacific stock and bring suit as a stockholder.

"I have always been willing to produce Mr. Power at the proper time, and neither Mr. Power nor myself has at any time desired to do anything that could be construed as tending to show this court disrespect or to hold it in contempt."

Guthrie tried to induce Mr. Lamb to tell more concerning the certificates of stock which he alleged were owned by Power, and upon which the latter's right to bring the suit was based, but Lamb refused to do so, on the ground that he could not do so without consulting his clients. The lawyer for the defense declared that the action of a lawyer in getting a man to act as plaintiff, behind whom the true plaintiffs could conceal their identity, might prove to be conspiracy.

Mr. Guthrie then insisted in knowing how much money Lamb paid Power on July 31 last, and for what purpose, but the witness replied that that was confidential.

Finally the examination was adjourned until tomorrow.

GLASS MEN SEEK PEACE.

Meeting at Atlantic City Will Decide Policy of Next Fire—Indianans Who Will Attend.

MUNCIE, IND., Aug. 11.—(Special.)—A party of window glass manufacturers representing most of the larger independent and federation plants in the Indiana gas belt, will start tomorrow for Atlantic City, where they will attend the meeting of the manufacturers in that city.

In the party were Leopold Mambourg, secretary of the Federation Window Glass Company of Muncie; Father Dhea, G. R. Johnson, James McClelland, Hartford City; J. B. Schoey, Octave Jacquain and George Sherman, Matthews; August Colliott, Upland; R. M. Allen and Frank Knapp, Gas City; F. Burk, Marion, and R. M. Patterson, Converse.

Mr. Mambourg said this evening the coming meeting at Atlantic City will decide the policy for the next fire. It will be held in the interest of harmony and will be one of the most important sessions ever held.

Serious Fire in Havana.

HAVANA, Aug. 11.—The most disastrous fire in years occurred last night, resulting in three deaths and the loss of several hundred thousand dollars. The fire broke out in a big silk house near Central park. Aristides Pera, a famous artist, and Pablo Lopez Quintana, a lawyer, who were sleeping in the upper story of one of the burned buildings, were burned to death.

Prominent Americans Returning.

LONDON, Aug. 11.—The steamer Oceanic, which will sail from Liverpool for New York on August 13, will have among her passengers Bishop Potter of New York, Miss Potter, J. Pierpont Morgan, Clement A. Griscom of Philadelphia and Mr. and Mrs. J. Ogden Armour of Chicago.

RETURNS FROM EUROPE.

Sam F. Sipe the Diamond Importer Receives a Hearty Welcome Home.

Sam F. Sipe, the well-known diamond importer, has returned from a business trip to the diamond markets of Europe. He was welcomed home by scores of friends at his place of business, in the Schmidt building, yesterday. Mr. Sipe, who was accompanied by his wife, spent most of the time while on the continent in Amsterdam where, as usual, he made heavy purchases of diamonds and precious stones.

Mr. and Mrs. Sipe reached New York several days ago, but went to Atlantic City for a dip in old ocean, before coming home.

Pittsburgh's prosperity is in evidence everywhere," remarked Mr. Sipe. "The Steel city is well known wherever one goes in Europe, and Pittsburghers always meet with a cordial welcome across the pond."

GRAY SUCCEEDED BY JUDGE HOLMES

FAMOUS LITERARY NAME APPEARS IN U. S. SUPREME COURT.

Retiring Justice and His Successor Both Reached Highest Point of Honor on Bench in Massachusetts—Ill Health Cause of Change.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

OYSTER BAY, Aug. 11.—The president has appointed Oliver Wendell Holmes, now chief justice of the supreme court of Massachusetts, to be associate justice of the United States supreme court, vice Justice Gray, who has just resigned on account of ill health.

Justice Gray's resignation was not altogether unexpected. It was recognized that he would be unable to resume his duties on the bench and the general impression was that he would resign before the beginning of the next term of court in October. His successor, it is said, will not take his place on the bench until after his confirmation by the senate. This is the unwritten practice in the case of appointments to the supreme court.

Justice Gray has been at Nahant, Mass., his summer home, for some time. During his long career on the bench of the supreme court, Justice Gray delivered a number of important opinions. His specialty was will cases, although he participated in the consideration of many of the important issues which came before the court.

Justice Gray was with the majority of the court in the decisions in the income tax cases and the insular cases. Another important cause of recent date was that growing out of the Spanish-American war in which Justice Gray decided against the right of the government to seize certain fishing smacks, the property of Cubans, which the United States authorities believed were giving aid and assistance to the enemy.

Judge Gray was always an ardent Republican. Like his successor in office he was chief justice of the supreme court of Massachusetts before his appointment to the United States supreme court.

Judge Holmes is a son and namesake of the late Dr. Oliver Wendell Holmes, the poet and essayist.

M'ELROY DENIES HE WAS DRINKING

Detective from Whom Prisoner Escaped Must Explain to the Police Board.

Detective William McElroy, from whom J. H. Sisco, colored, escaped on the Pennsylvania limited express train near Canton, O., Sunday night, arrived at detective headquarters yesterday morning. He emphatically denied the report that the escape was made possible by his being in a stupor from excessive drinking.

The detective said that he had not been in bed for over 36 hours, having traveled to Chicago in the daytime to get Sisco, and he slept so soundly that he did not feel the negro crawl over him in the berth.

Sisco was so docile while being brought to this city that the detective did not suspect he would make any attempt to free himself. He confessed to the detective that he had stolen the money from the Pitcairn residence, and was willing to go to Pittsburgh and stand trial for it.

Detective McElroy awakened after the train passed Canton, and discovered that his prisoner was missing. As the train did not stop at any place between Canton and this city Detective McElroy was compelled to come through to Allegheny. He boarded the next train and went back to Canton.

Upon his arrival there he learned that his prisoner had been captured by local officers. Detective McElroy is greatly chagrined over the escape. Other members of the bureau say that it is too much for one man to go any distance after a prisoner. He arrives at his destination and has had little rest. He is compelled to start home with his prisoner immediately. Two men should be detailed after a prisoner.

Director Leslie said that Detective McElroy would have to appear before the meeting of the police board next Monday and explain Sisco's escape. He said that if it is proven that the detective was intoxicated, he will be disciplined.

Sisco was arraigned yesterday morning before Police Magistrate McKenna on a charge of larceny. He pleaded guilty to having taken $250 from his employer, Robert Pitcairn, last January. He was immediately committed to jail in default of $1,000 bail for trial in court.

BRICKS HIS WEAPONS.

W. J. Lee of Trenton Takes Up Personal Battle With Trusts by Smashing Windows.

TRENTON, N. J., Aug. 11.—William J. Lee, owner of the Phoenix Iron works, who has attracted the attention of the Democratic national committee by his caustic criticisms of the trusts, today hurled a brick through a large plate glass window of the Trenton Trust Company's building, and is a prisoner at police headquarters tonight awaiting an examination into his mental condition.

He demolished several windows in the residence of Edmund C. Hill, a director of the trust company, earlier in the day, and also smashed windows in other houses in the fashionable section of the city.

He gave as a reason for damaging the property that he was being hounded in his business by wealthy men. He declared tonight that leading manufacturers of Trenton were making life unbearable for him and that if it was kept up much longer he would be forced to the wall.

PLURAL MARRIAGE CHARGED.

Franklin Man Claimed His Wife Married Four Other Men.

FRANKLIN, PA., Aug. 11.—(Special.)—Mrs. William Small was arrested today on a charge made by her former husband, Orrin S. Gautcher, who alleges that Mrs. Small, during the period that she was his wife, married four other men. Gautcher recently secured a divorce. According to the information, the other four men are William Small, Jeremiah Lynn, George Stover and George Lindsay.

Gautcher is in the county jail awaiting trial on a charge of surety of the peace. Since he has been in jail he has gathered evidence against his former wife. Mrs. Small had a hearing and was held for court. She is out on bail.

Two Years for Perjury.

ST. LOUIS, Aug. 11.—Harry A. Faulkner, a member of the house of delegates, recently convicted of perjury in connection with the municipal bribery cases, was today sentenced to two years in the penitentiary. Faulkner filed an appeal to the supreme court and secured his freedom on a $10,000 bond.

Former Pittsburgher Called.

EAST LIVERPOOL, O., Aug. 11.—(Special.)—The Rev. Dr. David Jones, formerly pastor of the "Old Home" Methodist Protestant church in Fifth avenue, Pittsburgh, but of late President of Adrian college, Michigan, has accepted a call to become pastor of the First Methodist Protestant church of this city.

Woman Charged With Fraud.

OIL CITY, Aug. 11.—(Special.)—A woman, giving the name of Mrs. A. F. Roubit, was arrested at Mercer on request of Chief Neugent, and brought here today, charged with obtaining money under false pretense. The woman, it is alleged, sold exclusive agents' rights in this city for the sale of a musical publication to a half dozen people, for $10 each.

FRANCIS J. TORRANCE WAS HOST OF MANY YOUNGSTERS

FRANCIS J. TORRANCE.

Just 1,350 women, boys and girls of the two cities enjoyed the free excursion given yesterday up the Monongahela river to Morningside park by Francis J. Torrance, the well-known Alleghenian. The boat, loaded to the guards, left the wharf at the foot of Smithfield street at 9 o'clock. On board there was everything that could be furnished to make the trip pleasant. A band, a Punch and Judy show, everything to eat in unlimited quantities and many other features—everything free to all. At the park likewise there was as liberal an open-door policy. During the rain shelter was provided on board; later the day proved fine.

Mr. and Mrs. Torrance both went along and no one enjoyed the outing more than they, although they were kept pretty busy looking after the arrangements and the wants of the little ones. The children entered into the affair with the zest that showed how great an occasion it was in their lives. That is, all but one boy did. This shaver had ensconced himself behind a post soon after the boat started and there he stayed, too busy reading to notice anything else, even the things to eat. Investigation showed that his book was a thrilling Jesse James novel, which the Monongahela river has not equaled in adventures for over a century.

Unlimited quantities of the good things were consumed. On the free list were sandwiches of all kinds, ice cream, coffee, lemonade, candy, cake, peanuts, popcorn, etc. Supt. Muth of the Allegheny police department was among those in the party looking after the guests of the day, and Miss Sara Eaton of Allegheny also assisted. The tickets for the outing had been distributed mostly by the policemen and firemen of the two cities.

CROWD AT NEW BIJOU BROKE ALL LOCAL RECORDS

Over 4,000 Persons Were in Last Night's Enthusiastic Audience.

GALLERY IN EVIDENCE

West's Minstrels Are as Good as Ever, but Both There and at Academy's Good Performance Gallery Was Unruly.

William H. West's minstrels opened the season at the remodeled Bijou theater yesterday very acceptably. The handsome playhouse was crowded from orchestra to gallery, and a little more than enough enthusiasm was displayed. It was an auspicious beginning for the popular house, and it augurs well for the increased patronage which the management of the Bijou expected when it augmented the seating capacity of the house and put in improvements that must lead to larger receipts. All Pittsburgh theater records were broken by last evening's crowd which numbered over 4,000. An excellent aggregation was selected to tap the bell, and the people showed that they appreciated the efforts by turning out en masse despite the heat, to applaud as the pistol cracked for the opening.

West's minstrels are as good as ever they were. The company does not run as much to numbers this year as it does to excellence, and some of the turns are as entirely new as it is possible to make them, and still retain the outlines. Each and every member of the troupe is a star in his line, and nothing but the obstrusive and long-continued applause of the overzealous ones detracted from the performance. Nearly every member of the company had a friend or two in the audience that was disposed to see that no one should be neglected, and the entire sea of faces was soon infected.

The Funmakers.

Billy Van leads the funmakers. Billy had a minstrel show of his own once, but he could not make it go. Since that time he has been helping out his old friend, Billy West, and he works just as hard as he ever did for himself. He makes his fun with the modulations of his flexible voice. He has some new stories, but he had some old ones, too, and he worked them arduously in the beginning. He received a show of hands all the time.

All the members of the troupe are well known here. From Ed W. Chipman, with his Boston voice, which he hands out as interlocutor, down to the dog, who participates as a member of the Zarro trio, applause came as they wound up on the stage. Harry Sylvester is easily the vocal star. His tenor voice has lost none of its sweetness, and is increasing in volume, so that he easily filled the dome of the handsome theater with a patriotic love song, which everyone fancied so much that he was compelled to work hard with it. John H. King, the singing comedian, danced and sang straight into the affections of the gallery, and when the gallery loves one too much it is risky. Georgie Jones, baritone, has a voice difficult of control, but well repaying earnest effort, and he was a close second to the star of the evening.

Gallery in Evidence.

Clement Stewart has a voice that might be either soprano or tenor, and he, too, sang well; but the gallery took a dislike to him, and, by the way, the gallery had its own way last night. Stewart did well, and pleased the major portion of the audience, but the gallery tried to howl him off the stage. The remainder of the audience was pleased, and showed it, and it became a test of endurance. Stewart finished his song, however, and made a distinct hit. His voice is well handled, and in the grand finale, when he branched into "The Holy City" assisted by lights, and the vibrant tones of the whole troupe, he scored a notable success.

The jokes were not all new. Some of them need revision. Some of the old ones were aged, also, but the audience was kindly, and was disposed to stand it. All in all, it was a finished performance, and it will undoubtedly do good business all the week.

The gallery controlled matters too much. A good hit spotted the next two, for the gallery convulsed on slight provocation. The house attaches had little control over the gods on the top floor, but will probably have more hereafter.

At Duquesne Garden.

The stock opera company at the Duquesne Garden achieved another triumph last evening in their decidedly meritorious presentation of the favorite opera, "Fra Diavolo." The story of the opera is an interesting one, and the music is delightful, as is well known; but unless the leading characters are given to competent people, it would degenerate into a farce comedy. Not so with the production last evening. It was well sung and well mounted, and, aided by the excellent work of the orchestra, was thoroughly enjoyed by the audience, which from observation included many of the most prominent musical people of the city.

Thomas H. Persse has the record of having frequently made a great success in the role of Fra Diavolo in his stage history, and he had every reason to be proud of the evident appreciation of his work last evening. Robert S. Figott, as Lord Allcash, was in excellent voice, and besides added his talent as an actor of ability to the part. Miss Mason was charming as Zerlina, singing with even more than her usual good form, and acting with zest and spirit which won for her frequent applause. Charles H. Drew and John J. Martin, the brigands, and George H. Sinclair, the captain of the Carbiniers, were greatly enjoyed, as was Miss Bessie Tannehill, as Lady Allcash.

At the close of the second act quite an ovation was given to the septette, including Mr. Persse, Mr. Figott, Miss Tannehill, Mr. Sinclair, Miss Mason, Mr. Drew and Mr. Martin, and it was decidedly well deserved. The audience demanded the repetition of the number several times and were apparently loth to have them retire from the stage.

The Duquesne Garden mandolin quartette entertained between the acts, and at the close, Trask and Gladden, eccentric singing and dancing comedians, held the large audience for some time in the palm garden.

At the Academy.

Fred Irwin's Burlesquers at the opening of the Academy of Music last night had a big task on their hands. One of the largest crowds that ever filled that playhouse had in its makeup tastes quite diverse, and to please all the stage people had to run the whole gamut of vaudeville. The crowd was in a good humor and joined vociferously in prolonged applause when something tickled its fancy, and was fast as prompt in raising jeers when it was displeased. New features in the show were few and these were foreign importations—German pantomimists and French singers—that caused the audience to howl, and the acts to be cut short. The four Van Narsos, musical grotesques, who wear a makeup that is a reminder of the cartoons in a German weekly, were not understood in their attempts at funmaking. The Deilgas, a quintet of singers and dancers of the French sort, were equally misunderstood. They sang in French, while the gallery evidently wanted a coon song, and the "gods" did not hesitate to express an opinion. Gertie Demilt a dainty little dancer with a budget of catchy songs, had the crowd with her from the start. McCale and Carew and Valmore and Horton, singers and dancers, also made a ten strike with the patrons, both upstairs and down, and were obliged to remain on the stage until their voices became hoarse. The closing burlesque, entitled "King for a Day," offered an opportunity for the display of some striking costumes. The wardrobe of the chorus, by the way, is one of the best features of the show.

EVANS BY ACCLAMATION.

No Red Tape Necessary in Nineteenth District to Nominate Congressman.

ALTOONA, PA., Aug. 11.—(Special.)—The Republican conferees from the Nineteenth congressional district, consisting of Blair, Bedford and Cambria counties, met in the Logan house this evening to nominate a candidate for congress.

Blair was represented by Claude Jones, K. C. McSorley and Lovell Baldridge; Bedford by Frank Bolger, Dr. J. C. Clark and George W. Richey; and Cambria by Col. W. S. Davis, George M. Wertz and Webster Griffith. Col. Davis was elected chairman and Messrs. Baldridge and Richey secretaries.

The Hon. Alvin Evans of Cambria county, present member of congress, was renominated by acclamation, no other candidate being mentioned. Mr. Evans made a speech of thanks and congratulatory addresses were made by the Hon. John M. Reynolds of Bedford and Lee Plummer of Blair county.

AMERICAN FLAG SHOULD SHELTER CUBAN PEOPLE

Congressman Grosvenor Says Republic's Stability Is Doubtful.

DEFENDS ADMINISTRATION

In an Address on the Philippine Question the Ohio Statesman Says Constitution Covers All Persons Under United States Sovereignty.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Chautauqua, N. Y., Aug. 11.—The Hon. C. H. Grosvenor, representative in congress from Ohio, spoke before 9,000 people this afternoon upon the Philippine problem. After reviewing the conflict of views as to the acquisition of territory, from the founding of the government down to the present time, he said:

"I want to impress this, that the problems of our powers in the Philippines involve the very principles that we thought were settled in 1860; that the Constitution reaches out from the states and covers each person in every land under the sovereignty of the United States. It's the same battle we have fought over again with the same decision. The problem, in the opinion of all intelligent people, is now eliminated from our politics.

"When I was asked to come to Chautauqua the aim was that I should present the problem from the viewpoint of the administration, perhaps as opposed to that of Dr. Schurmann, and I expected my time to be occupied with replying to his criticisms, reinforced as they were by better opportunities for observing the conditions in the archipelago than I have enjoyed.

"However, I am happy to say that while I have stood still in my position upon the question that gentleman has reached that viewpoint where no word that he uttered on the platform falls of my most hearty indorsement. If he has ever had any idea except that the government was to deal fairly and justly by its insular wards, events have evidently brought to him a full appreciation of the high purposes of his country, and in this day, when all of us are feeling proud of the marvelous martial greatness of our country, we should as well feel proud and thankful that no act has been done by the administration with reference to the Philippines that brings any discredit to our people.

"In the declaration of war was inserted a few words which ought never to have been there, and I both spoke and voted against them repeatedly. This declaration, known as the 'Teller resolution,' declared that our purpose in the war was not aggrandizement, and that we did not want any territory. I had Cuba in mind. I believed then and believe now that she is too near and presents too great possibilities of trouble to permit her to wander away from us in any way. We ought, then, to have taken her on fair terms and planted our flag there to stay. But the declaration went in and we have done with Cuba, just as we said we would do.

"The farmer who plants the seed is not primarily responsible for the crops, and so we have planted a republic in Cuba and watered it with our prayers and our blood, but we are not responsible for its realization. If it does succeed it will be the first republic ever thus established. I hope the Cuban republic will flourish, but if she ever reaches out a hand for help I would step out into the water, if need be, and take her in."

UNION LABOR PARTY IS BEING ORGANIZED

Promoters in Schuylkill County Believe It Unbeatable—To Indorse Some Candidates.

[SPECIAL TELEGRAM TO THE GAZETTE.]

POTTSVILLE, PA., Aug. 11.—Final announcement is made today of the formation of the Union Workmen's party. This political organization will recognize no party lines, but union representatives. Its promoters are working among the various labor organizations, from the United Mine Workers of America to the unions of store clerks. It is claimed that the new party will muster such strength that it will be utterly impossible to accomplish the defeat of a ticket it may put up.

The new party intends to put a full county ticket in the field, and will put up men alone who are favorably disposed toward labor. F. R. Wright of Port Carbon, who was a recent candidate for senator, has been named for county chairman. It is proposed to hold a convention of labor representatives of the county in Pottsville after the Democratic county convention next Saturday, when the party will be organized and a full ticket named.

The promoters of the Union Workmen's party say that the Hon. C. N. Brumm, who was defeated recently for the Republican congressional nomination, has consented to meet with the labor representatives in convention and will probably be a candidate for congress. James McElhenny of Mahanoy City will be put on the ticket for prothonotary.

F. C. Palmer, Republican candidate for county treasurer, and C. A. Snyder, one of that party's nominees in the Fourth district for the legislature, will also be indorsed. J. J. Moran, whom the Democrats will nominate for district attorney will also be indorsed.

Why Many People Buy Pianos At Hamilton's in Vacation Season.

Which shall it be? Take a vacation trip or buy a piano? A great many people have been deciding this important question lately. The special reductions in prices of pianos and other musical instruments at Hamilton's this week have had much to do with bringing the question up for decision. It is evident from our sales that in a very large number of instances the refined and lasting pleasures to be derived from having a piano in the home—pleasures which are snared by one's family and friends—outweighed the fleeting and somewhat uncertain satisfaction to be had from a vacation trip.

Just at this time, too, Hamilton's are offering a number of fine pianos at one-third and more below the regular prices. It is not at all surprising, therefore, that many people, who had thought of waiting a while longer, are taking advantage of the present exceptional opportunity and are buying their pianos now for considerably less money than they expected to have to pay. It is hardly necessary to add that these instruments are all of good, standard makes and in every way worthy. The priceless reputation of this old reliable Music House, which, by the way, is much the largest in the state, is too jealously guarded to permit the sale of any unsatisfactory or undesirable instrument at any price whatsoever.

It is a source of genuine pride to this house that every year we sell scores of pianos by correspondence. And in spite of this fact we have never, in our 35 years in business, had one dissatisfied purchaser.

One of the happiest features of our recent clearance sale was the almost incredible number of people who ordered direct by mail, saying, "Mr. Hamilton, we feel we can fully trust your selection," etc., etc.; or, "We trusted you to select a piano for father years ago, and never regretted having done so," etc.

We appreciate the confidence of such people too much to ever betray it. Indeed, if we err at all it is in sending even a better instrument than the one bargained for. It is thus we are pleased to honor the confidence of those who trust in us.

No matter whether you wish a moderate priced piano or the finest instrument that genius, money and skill can produce, you will find precisely what you want at Hamilton's, and in either case will be sure of getting full value for your money. It is probable, too, that among the wide range of special offerings you will find the very instrument you are looking for, and at a price much below the regular price. If you prefer, easy monthly payments will be arranged to suit your convenience.

Send for catalogue if you cannot come.

QUAY ANXIOUS TO SETTLE THE MINERS' STRIKE

The Senator Ready to Offer His Services to End the Contention.

STRIKERS FORAGE FARMS

Idle Men in the Anthracite Region Causing Trouble in the Rural Districts—Soldiers Feeding Women and Children.

[SPECIAL TELEGRAM TO THE GAZETTE.]

Atlantic City, N. J., Aug. 11.—Senator M. S. Quay is willing and ready to do anything in his power to bring about a settlement of the strike in the anthracite mining region. He made this statement tonight to The Gazette representative when questioned concerning a report that George Llewellyn, chairman of the Citizens' Alliance of Wilkesbarre, had called upon him to request his good offices in an effort to end the trouble.

Mr. Llewellyn visited Senator Penrose in Philadelphia today to enlist his aid, and announced his intention to come to Atlantic City and see Senator Quay for the same purpose, but at a late hour tonight he had not arrived.

Senator Quay said he deeply regretted the strike and would gladly assist in any way possible in restoring industrial peace. He is ready to meet the miners, the operators, or both, in pursuance of this desire, at any time or in any place, and will promptly take under consideration any suggestions that may be made by Chairman Llewellyn.

SHENANDOAH, PA., Aug. 11.—Complaint was made to brigade headquarters today that strikers are foraging in the rich agricultural district of the Catawissa valley. The life of one farmer has been threatened because he attempted to protect his property and the raids have reached such serious proportions that the farmers are preparing to take some concerted action to stop further depredation. It is not unlikely that cavalry will be sent into the district tomorrow for the purpose of stopping the raids.

The farmers are drawing up a petition asking for protection which will be sent to the sheriff in case Gen. Gobin decides not to send the troops into the valley. A widow who owns a farm reported that several men came on her premises and started to dig potatoes. She ordered them off the patch, but they paid no attention to her and did not leave until they had taken all they needed. The foragers do not confine themselves to stealing crops, but also take poultry.

The soldiers in camp are daily feeding several hundred women and children. They come there saying they are hungry, and as there is more than enough food in the camp to supply the wants of the men, the officers permit the soldiers to give something to the needy applicants.

GREENSBURG, PA., Aug. 11.—(Special.)—The anthracite miners, who came to this bituminous district in large numbers last week, are packing their belongings in anticipation of an early return to the anthracite field. They claim that they have not been used to the hard work they have encountered here.

CURSE CALLED UPON A CHURCH

EDITOR INVOKES DIVINE WRATH AT DUNBAR, PA.

Contribution of Liquor Dealers Toward the Erection of a New Edifice of Worship Is Cause for Severe Criticism of the Congregation.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CONNELLSVILLE, PA., Aug. 11.—Because the Methodist Episcopal congregation of Dunbar accepted $400 from liquor men as a subscription to a new church edifice, the curse of God has been called down on the church by Editor W. M. Likins, of the Uniontown People's Tribune, the official organ of the Prohibitionists of Fayette county, and the little village is greatly stirred up over the unusual state of affairs.

When the church trustees started to raise money for the new building, they selected a lot owned by William Dull, proprietor of the Dunbar house. The price of the lot was fixed at $1,000, which was agreeable to the church people. When the deed was made out Mr. Dull reduced the price to $700, allowing the remaining $300 to go as his subscription to the new church. James Abraham, of the Central hotel, and James N. Feather, a liquor man of Uniontown, each subscribed $50.

Speaking of the matter editorially Editor Likins says: "You do not have to have saloons in Dunbar, and our prayer is that God might curse that Methodist church that has accepted $400 of blood money."

Albert Gadis, the wealthy flour maker of Uniontown, and one of the leading Prohibitionists of Fayette county, had subscribed $500 toward the church, but refuses to pay over the money until that of the liquor men has been returned.

In another editorial Likins says: "Whether the officials of the church accepttd the money as a bribe or not, it was intended for that by the liquor men, and the public has taken it for granted that the church is sold by virtue of this gift to the very powers of darkness. Let the money be taken back and put into a potter's field to furnish a burying ground for the product of the saloons of Dunbar."

Dunbar is greatly excited over the affair, and the action of the church trustees is anxiously watched.

COMPETITIVE EXAMS FOR NAVAL ACADEMY

Struggle Between Six Boys for Western Pennsylvania Appointments Is on in Federal Building.

Six young men are now taking the competitive examination for appointments from the Western Pennsylvania district to the Annapolis naval academy. The examinations will last three days. J. E. Cowen, secretary of the local civil service examining board, has charge of it, and the examinations are held in the Federal building.

The boys who are taking the examination are numbered and write their numbers on the examination papers, so that their names are unknown to Mr. Cowen, unless he happens to be personally acquainted with them.

Heretofore the congressmen, who have appointments to West Point or Annapolis within their gift, have appointed the examining boards themselves, but finding the civil board commission more than anxious to take that burden upon itself, the congressmen were glad to get rid of the job.

NAVY KEPT BUSY KEEPING BANTAM WARS IN BOUNDS

Commander McCrea of the Machias Protests Against Blockade of Cape Haytien.

MUST PROTECT NEUTRALS

Germans Intend to Land Marines at Porto Cabello and Cruiser Topeka Is Ordered to That Point to Protect Americans.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

Port-au-Prince, Aug. 11.—The gunboat Crete-A-Pierrot, which is in the Firminite service, gave notice yesterday of the blockade of Cape Haitien. The foreign consuls here and Commander McCrea of the United States gunboat Machias protested against this action. Soldiers have again gone out from here and a battle in a few days is believed to be inevitable. The bad feeling against foreigners has increased.

Petit Goave has been entirely destroyed, there being nothing left but a pile of ruins. About 4,000 persons are homeless and are greatly in need of assistance. The French cruiser D'Assas arrived at Petit Goave yesterday with provisions for the sufferers and returned to Port-au-Prince with 200 women and children and 15 wounded men.

Each party accuses the other of having set fire to Petit Goave, but the general belief is that Gen. Chicoye, the Firminist commander, resolved to destroy the town when he saw that he could not hold it against the Fouchardists.

WASHINGTON, Aug. 11.—Commander McCrea of the gunboat Machias today cabled the navy department that a de facto blockade had been established by the insurgents at Cape Haitien.

Acting Secretary of the Navy Darling sent the following reply to Commander McCrea:

"If the blockade is not effective, Cuban, American and unprotected, innocent, neutral vessels should be protected in their international rights. Can send you collier from San Juan if necessary."

Minister Bowen at Caracas today advised the state department that the Germans intend to land a naval force at Porto Cabello, Venezuela, to protect the German interests there, which are threatened by the uprising now in progress. The minister advised that we follow suit. After a conference between the officials of the state and navy departments, instructions were cabled to Commander Nichols of the Topeka to proceed from LaGuaria to Porto Cabello and to land a naval force in case of attack, and to prevent bombardment without due notice. The Topeka has already left for Porto Cabello.

Minister Bowen has cabled the state department from Caracas, Venezuela, that the revolutionists have cut the cable at Barcelona. Minister Bowen says the cable was cut immediately after the receipt of a message stating that the revolutionists were entering the city.

ATLANTIC CITY.

Mayor Vetoes Ordinance Against Bathing Suits Being Used as Street Costumes—Mrs. Schwab's Gift.

ATLANTIC CITY, N. J., Aug. 11.—(Special.)—Mayor Stoy tonight sent to the city council a veto of the ordinance prohibiting persons in bathing costumes from traversing the streets. He says the measure is faulty in construction and recommends a new ordinance covering the subject. The message was received and filed and an ordinance in accordance with the mayor's suggestions was introduced. The season will be practically ended before the new measure can be passed finally.

Present from Mrs. Schwab.

The managers of the City hospital have acknowledged the gift of a fine carriage from Mrs. Charles M. Schwab. The vehicle had long been needed, but purchase was delayed because of the condition of the treasury. Mrs. Schwab heard of the hospital's need and promptly ordered the carriage.

WOMEN IN PANIC ON SPEEDING CAR

SEVERAL LEAP AND RECEIVE PROBABLY FATAL INJURIES.

Fuse Burning Out Starts Flashes of Flame and Passengers Are Soon in Spasm of Fear—Four Persons Are Seriously Hurt.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, Aug. 11.—Five persons were injured, two perhaps fatally, in a panic that followed the burning out of a fuse on a trolley car of the New York & Queens County electric railway while passing through Long Island City.

While the car was descending a steep incline in Jackson avenue the fuse blew out and tongues of fire danced around the motor box. The car was going at the rate of 20 miles an hour, and as the motorman was unable to reach the brake it gained in momentum. In a panic of fear several women sprang to their feet. The conductor cried to them not to jump, as there was no danger, while several of the male passengers forcibly restrained some of them from leaping off the car.

William Gasden was sitting on a front seat, next to the motorman, and his mother sat on the first seat inside the car. When the flames shot out of the motor box Gasden placed his hands on the open window sill with the intention of springing into the car. At the same instant his mother jumped from her seat and leaped off the car, dragging Gasden with her. They both rolled in the roadway unconscious.

Before anyone could restrain her, Mrs. Alex Burns, 60 years old, jumped and struck the roadway on her head.

In the meantime the conductor and several passengers were grappling with the frightened women, trying to hold them in their seats. Gussie Schroeder broke away from the man who was holding her and jumped. Other passengers, however, restrained her younger sister from jumping. When the car stopped the girl leaped blindly from the car, striking face downward on the stone paving.

When the car was brought to a complete standstill four unconscious women and one man were scattered along the avenue. The two Schroeder girls and young Gasden escaped without serious injury, but Mrs. Burns and Mrs. Gasden are in a bad condition. Mrs. Burns is suffering from concussion of the brain and her recovery is doubtful.

RECEIVED NOTICE, THEN RESIGNED

H. F. Jacques Left a Vacancy for Controller John B. Larkin to Fill.

H. T. Jacques, who for several years has been an assistant to City Auditor F. A. Kimball, has made a vacancy for City Controller Larkin to fill by dropping the job rather than wait to be dropped. Jacques quit his position a few days ago. It was after a talk with the controller, who informed him his services would be required no longer than September 1. Jacques, upon receiving this information, gave his resignation, to take effect at once.

Controller Larkin says he has a man in mind for the appointment, but is not ready to divulge his name.

The only information that could be obtained as to the cause of Jacques' dropping is that the controller objected to his doing work for other people on the side. It is said Mr. Jacques solicits work by advertising. His business address in the city directory is a Fourth avenue location.

This is the second change in the city auditor's office since Larkin went in as controller. The first man to go was T. J. Bigham, a nephew of Kirk Q. Bigham, former common councilman from the Thirty-second ward.

CHAUTAUQUA.

Mrs. Edward Grunder of Warren, Pa., Drowned in Sailboat Accident.

CHAUTAUQUA, N. Y., Aug. 11.—(Special.)—A sad drowning occurred at Pendergast Point, just below the assembly grounds, this afternoon. A sailboat containing two men and two women capsized and the whole party were in water for an hour and a half. Mrs. Edward Grunder of Warren, Pa., was lost. Her body has not yet been recovered. The others were rescued.

The modern industrial conference, the special theme for this week, was opened today by George H. Daniels, general passenger agent of the New York Central & Hudson River railroad, with a lecture on "American Railroads and Our Commercial Development." Mr. Daniels gave some interesting statistics.

"Transportation underlies material prosperity in every department of commerce," he said. "Those nations are rich, powerful and enlightened whose transportation facilities are the best. The dying nations are those with little or no transportation facilities. The steam railroad is the highest type of transportation and an idea of the vastness of the industry may be had by knowing that all the money in the world, gold, silver and paper, could not buy one-third of its railroads. America leads all other countries in railways. It is not alone our locomotives that have attracted foreigners, but the whole railway equipment has commanded attention and is being imitated by sister nations. The demand for American locomotives from all over the world is due to the fact of the superior quality of our machinery, and by advertising the marvelous results accomplished by our locomotives are made household words in every country of the globe."

Mr. Daniels said the battleship Oregon was the best advertisement we ever sent out for our machinery, and since then the demand for American manufactures have been constantly increasing until thousands of factories are running night and day.

"One reason for this demand is that Americans not only do things well, but quickly, and when other countries want important work done in a specified time, they prefer American corporations. American railway management is always ready to embrace every opportunity for extending commerce, and by the beautiful illustrations in their guidebooks have persuaded many foreigners to visit our country and by this means untold millions of foreign capital has been invested in the United States. Trade follows the flag, then with co-operation and reciprocity between the great transportation interests of the United States and with proper encouragement given by congress, our commerce should be as diversified as the products of our soil, mines and mills."

CARELESSNESS ENDANGERED THE FIREMEN'S LIVES

Superintendent of Building Inspection in the McCullough Building.

DE NOON BROS. CO. BLAMED

Floors Filled Up So That Fire-Fighters Could Not Get to Seat of Blaze, Which Was in Pocket of Oil Barrels—Loss Decreased.

"This is criminal carelessness," said Building Inspector Capt. J. A. A. Brown, while investigating the causes of the fire in the McCullough building yesterday.

"It seems as if I must be continually getting after this firm of De Noon Bros. Two years ago I had to order them to lighten the building they occupied at No. 919 Liberty street, where the fire was on July 29. That fire, and the one Sunday morning at Penn avenue and Twelfth street, proves that if I had not ordered the load lightened the probable loss of life among the firemen would have been frightful. The firm and its employes apparently gave no thought of the firemen or the extinguishing of fire in the buildings, and the display of criminal carelessness I never saw exceeded. I had to get after the firm again today. They are moving to No. 930 Penn avenue, and before getting in one-half of the stock they wanted to overload the floors."

The fire in the stock of DeNoon Bros. in the building corner of Penn avenue and Twelfth street, originated on the fifth floor in the center of 250 barrels of linseed oil, and that the fire was extinguished with no more loss than it was is a greater mystery than the origin.

In Pocket of Oil Barrels.

There was nothing but barrels of oil where the fire originated. The barrels were on end. On top was another tier of barrels of oil, also on end. Here in the center of this packet of 250 barrels of oil was the fire. About 50 barrels of the oil were burned.

Besides the 250 barrels of linseed oil on this floor of the building there are about 50 other barrels on their sides. It was impossible yesterday to ascertain what they contained. The barrel reveals no mark or brand on account of the heat and debris. It was said that the barrels contained varnish and turpentine.

Fire Marshal W. P. McGill and Building Inspector J. A. A. Brown attempted yesterday to make an inspection of the McCullough building.

When they got to the top of the stairs leading from the second to the third floor they could go no further for the same reason that the firemen could get no further when they got to the fire. It was No. 18 engine company which went in the front door to attempt to fight the fire from the inside. When the firemen got to the head of the stairs from the second to the third floor they came to what appeared to be a solid wall of boxes. They felt all about in the smoke and then had to retreat.

Could Not Find Way.

Yesterday when there was no smoke, and in the full light of day, the fire marshal and the building inspector were confronted with the same wall of boxes, but they were able to discover in it an opening 18 inches wide. It was really an alley between solid walls of boxes piled to the ceiling, and twists and turns brought them to the foot of the stairs leading to the next floor.

"This is criminal carelessness," said Building Inspector Brown.

On the fourth floor the situation is much the same. Boxes are piled in such a mannner as to entirely conceal the stairways, and the alleys, some but 15 inches wide, lead away from the stairs instead of in the natural direction a fireman or stranger would go. The stairways themselves are clear. There is nothing piled on them, but on each floor about the stairways the boxes are piled so the firemen could not find their way to the next flight.

The first estimate on the fire by some was $250,000. This was by people who, when they saw the red glare at the windows, could imagine they saw the cellar full of debris.

The next estimate was on Sunday, when the loss was cut down to $50,000. This was before there was any examination of the building and contents. The last estimate of the loss is $18,000, and it is safe to say that the insurance companies will not pay all of that figure.

The damage to the building is less than $5,000. There is but one place where the floor was burned through. There are several places where the fifth floor is so warped that large sections will have to be taken up, but it is calculated that one-fourth of the fifth floor will have to be relaid. Dynamos on the fourth and fifth floors are damaged by heat, but they are not burned.

DeNoon Bros.' loss may be $7,000, but it is doubtful if the insurance companies pay them so much. They lost 50 barrels of linseed oil. There are about 45 gallons of oil to the barrel, and the oil is worth 65 cents a gallon. This makes their loss in oil about $1,500. They lost also a couple of tons of dry mineral paint. Nearly all of it is worth about a cent a pound. Some of it was worth about four cents a pound.

Estimates Cut Down.

DeNoon Bros. claim to have 25,000 boxes of glass in the building. An inspection of the building reveals that every one of them is there and that not one single sheet of the glass has been broken.

Schwarzschild & Sulzberger at first thought they had a loss of $10,000, but yesterday were willing to say that they had overestimated by one-half. Bernard Gloeckler thought on Sunday he had a loss of $8,000. Yesterday's examination brought it down to $2,000, and it will probably be less.

Fire Marshal McGill said yesterday afternoon that he knew nothing of the origin of the fire, but would ascertain if it such a thing is possible, by examining every person employed in the building. He said the reason he did not continue his inspection of the building yesterday was because he could not get through the narrow alleys. Building Inspector Brown did not get to the seat of the fire yesterday, but he said that he had seen enough to know that the building is but little injured.

Chief Miles S. Humphries said yesterday that the searchlight used by the New York fire department would have been of great assistance at both of the DeNoon fires, and that he would pay particular attention to the exhibition of it at the meeting of fire chiefs in New York next month, so that when it comes time for Pittsburgh to need one he can speak intelligently on its merits.

HIGHLAND WON FOURSOME MATCH

C. B. Fownes and W. C. Fownes, Jr., Defeated Harry Penn and C. C. Preston on Field Club Course.

The Highland golfers are jubilant over a victory scored by the two youngest members of the team in a 36-hole best ball foursome, with representatives of the Pittsburgh Field club C. B. Fownes, the boy wonder of the local district, with his brother, W. C. Fownes, Jr., as a partner, finished 9 up at the end of an all-day match, against Harvey Penn and C. C. Preston of the Pittsburgh Field club. The match was played on the Field club course and as Penn has been the champion of that organization for years, and Preston has been winning trophy cups quite steadily on the Logans Ferry course, the Highland boys are gratified with their victory.

A close three-ball match was played on the Westmoreland Country club course between Thomas Smith, professional of the club; his brother, Harry Smith of Akron, O., and George A. Ormiston, who quit all even with both the Smiths, while Tom Smith was 1 down to Harry. Tom Smith had the best medal scores of 40 and 80, against Ormiston's course records of 38 and 78 for 9 and 18 holes.

The Westmoreland Country club has announced its fall schedule as follows:

September 6—Qualifying round for Roberts cup, 18 holes of medal play under handicaps, 16 to qualify.

September 10—First round at match play for Roberts cup, 18 holes, under handicaps.

September 13—Association team match at Logans Ferry, with Highland Golf club.

September 17—Second match play round for Roberts cup, 18 holes, under handicaps.

September 20—Association team match at Logans Ferry, with Edgewood Golf club.

September 24—Semi-finals for Roberts cup, 18 holes match play, under handicaps.

September 27—Finals for Roberts cup, 36 holes, match play, under handicaps.

October 4—Knowland cup, 18 holes at medal play, under handicaps.

October 11—Qualifying round, championship cup, 18 holes of medal play from scratch, 16 to qualify.

October 18—Association team match at Sewickley, with Edgeworth Golf club.

October 25—First round at match play for championship cup, 18 holes.

October 29—Second round at match play for championship cup, 18 holes.

November 1—Semi-finals at match play for championship cup, 18 holes.

November 8—Association team match at Logans Ferry, with Pittsburgh Golf club.

November 15—Finals at match play for championship cup, 36 holes.

November 28—Association team match at Logans Ferry, with Allegheny Country club.

On the course of the New Castle Golf club today a match will be played with the Hermitage Golf club team of Ligonier. Ligonier plays at Oil City tomorrow and at Titusville Thursday.

MUNICIPAL HOSPITAL.

Bids for New Structure Will Be Advertised for Tomorrow—Work to Be Rushed.

Director A. H. Leslie will advertise for bids for the construction of the new municipal hospital tomorrow. The plans have been completed by Architect Sidney F. Heckert and approved by the public safety committee of councils. The plans call for a building costing $80,000 and modern in every respect.

The operations will be started in September and the building should be completed by the first of the year. The new infirmary will accommodate 400 patients and compartments will be constructed for various contagious diseases.

The public safety committee are anxious to have the building started as soon as possible, as smallpox in Pittsburgh has steadily increased during the summer when the conditions should have been reversed. It is anticipated that the bureau of health will have several hundred smallpox patients to care for by October 1.

Gossip Among the Travelers

"I am sorry that I could not have spent more time in Pittsburgh with my friends," said K. Watanabi, a member of the Japanese legation, as he entered the Washington sleeper last night. "Pittsburgh is one of the greatest manufacturing cities in the world, and I would liked to have spent more time in it showing my visitors from Japan its greatness." Mr. Watanabi is a splendid representative of his race, and like the educated people of his nation is very observant. He was particularly impressed last night with the work being done on the new train shed at Union station. "It is wonderful," he said, "and your engineers will dare anything." Mr. Watanabi was accompanied to Pittsburgh by S. Yamada and F. Wantaka, who are connected with the engineering department of the Japanese government in connection with the big steel works now being erected in Japan. They arrived in the country three weeks ago and since then have been inspecting the large manufacturing plants of the west. When they arrived in Washington a few days ago an itinerary was arranged for them and Mr. Watanabi accompanied them to this city for a visit to the Homestead steel works, of the United States Steel Corporation. The party arrived early yesterday morning and spent the day in Homestead, going back to Washington on No. 4 over the Pennsylvania railroad last night. Messrs. Yamada and Wamtaka will visit Niagara Falls before leaving for their homes September 1. "I really have no news tonight," said Mr. Watanabi, as he entered the train. "The Japanese government thinks the American people are the most progressive in the world. This is shown by their great advancement in the arts and manufactures. In Japan the study of the English language is a part of the curriculum of all the schools. The government introduced the study of this language as a part of the school course about a year ago. The relations between Japan and the United States are becoming closer each year, one of the reasons being that our travelers can reach the United States in 14 days from any of our principal ports, and are quickly thrown among your people. 'Why do they erect such mammoth skyscrapers?' said one of my friends, as we viewed the great Frick building. I explained the reason to him, but he only shook his head and smiled. In Japan we would not erect such high buildings, as the country is subject to earthquakes. I am sorry that we could not have stopped in Pittsburgh longer, but my friends have so much yet to see. They wanted to witness the methods used in the manufacture of window glass, but were greatly disappointed when they found the factories were closed for the summer season."

Thomas H. Landon, principal of the Bordentown Military Institute, is at the Hotel Henry. "We are erecting a new addition to our recitation and class rooms," he remarked, "at a cost of $26,000. Many young men from Pittsburgh are students at the institute. Last year we had a class of 12 in the military department, and they were known as the Pittsburgh squad. The military instructor is Maj. T. D. Landon of the United States army. We have about 100 students at present."

George D. Morrison of Sharpsburg, who was given the sobriquet of "Dry Hole George," because his drilling in the oil fields resulted in failure to find oil, struck a 200-barrel gusher in the Cow run sand, in Pleasants county, W. Va. Another well now being drilled is expected to come in daily. The repeated failure of Morrison reveals a remarkable story of perseverance finally crowned by success. About 20 months ago Morrison organized the Mutual Oil & Gas Company in Sharpsburg. The stock was sold at $5 a share, payable monthly. Twenty wells were to be drilled, one a month. Morrison, who had 15 years' experience as a driller, was elected field manager and sent to the oil fields of Ohio and West Virginia. While Morrison was drilling without results some of the stockholders became discouraged and withdrew from the company. Others determined to stick out the test of 20 wells. After drilling 18 holes without results, Morrison started on the nineteenth. It came in with 40 barrels. While the stockholders were discussing the 40-barrel strike they received word that the 200-barrel gusher had come in.

Frank A. Brobst, proprietor of the Hotel Lincoln, and wife, who have been summering at Mt. Clemens, Mich., for several weeks, returned home yesterday afternoon. After spending an hour at home Mr. Brobst took his traveling case and bidding his clerks good-bye, started for Georgian Bay, Canada, where he will spend the balance of the summer.

Chief Engineer J. W. Patterson of the Wabash extension to Pittsburgh, returned to this city yesterday from his vacation at Atlantic City. Mr. Patterson, while not talking on the Wabash plans for South Side terminals and an inlet to the Jones & Laughlin Steel Company's plants, said that it is not yet time to make any announcements.

Parker M. Seymour, who was for several years traveling freight agent of the Chicago Great Western with headquarters at Pittsburgh and more recently general agent at Denver, is now in this city visiting friends. The Denver climate disagreed radically with his health, and he had to resign.

William Christman, president and manager of the Washington Reporter, accompanied by his family, went to Atlantic City last night. "I want to get away from the cares of business for a short time," he said, "and get a little of that tan which can only be gotten at the sea shore."

H. Y. Arnold, with his wife and daughter of Port Arthur, Tex., are at the Monongahela house.

F. Hoctor of Dublin, Ireland, is a guest at the Hotel Duquesne.

No Quorum in Finance Committee—The finance committee of Allegheny councils failed to meet last night for want of a quorum.

His Injuries Were Fatal—William H. Seela, a laborer of No. 503 Center street, Versailles, who was injured in the National Tube plant, at McKeesport, last Wednesday, died yesterday morning. He was 35 years old and married.

Volunteer Firemen's Outing—The Carnegie volunteer firemen of hose company No. 2 will hold their annual picnic tomorrow at McCabe's grove, near Heidelberg. Their picnics have always been a great success, and a large crowd is expected.

Unknown Man Killed—An unknown man, whose name is thought to be Host Josef, or J. Kast, from papers found on him, was killed by a Pittsburgh & Western railroad train in River avenue, near Herrs Island, last evening. His body is at the morgue.

Twentieth Conductor Knocked Out—B. J. Stenger, a street car conductor, was knocked from his car at the Munhall bridge by striking the pole that has knocked 20 conductors from cars. He was badly injured. His home is in Fleet street, Rankin.

Sang for the Firemen—A complimentary recital was tendered to the members of No. 35 engine company last night by Richard Chalfant, tenor of the Tariff club quartet, and Lewis Smitler, harpist. The selections were greatly appreciated by the firemen.

Johnstown Miner Killed—Matthew Feiser, a coal miner of Johnstown, was found dead on the West Penn railroad tracks near Hyde Park station yesterday morning. It is supposed he was struck by a train. The remains were sent to Johnstown.

Mrs. D. H. Hurlbert Hurt—Mrs. D. H. Hurlbert, 61 years old, of 1615 Main street, Sharpsburg, fell while alighting from a Wilkinsburg car in Penn avenue at Thirty-fourth street, last night, and fractured her left thigh. She was taken to her home in a carriage.

Killed by a Locomotive—Patrick Joyce, 45 years old, of No. 2511 Forbes street, was struck by an engine on the Baltimore & Ohio railroad at Burlington street at 7 p. m. yesterday. He died at the Mercy hospital. He is survived by a widow and two children.

Fed Zoo Monkeys—Andrew Morris of Butler street was fined $8 40 yesterday morning at No. 4 police station. It was alleged he insisted on feeding the monkeys at the Highland park zoo on Sunday afternoon and threatened to shoot the officer who arrested him.

Another Oil Can Victim—Alexander Hippel early yesterday morning tried to hasten a fire at his home by pouring oil from a can on the hot coals. The oil exploded and seriously burned Hippel about the face, head and body. He is in a serious condition at his home in Brighton road, Allegheny.

Born at Municipal Hospital—Another patient at the Municipal hospital has given birth to a child. Yesterday City Physician B. A. Booth reported that Agnes Paszkouska, who was taken to the hospital on August 3 from No. 6 Harmar street, Thirteenth ward, had given birth to a boy baby.

Sued by Husband and Wife—Frank Colroski was sued yesterday morning by Nellie Dornbroski on a charge of aggravated assault and battery before Alderman Sherran. In the afternoon her husband came in and entered the same charge against him. He was released on $600 bail for a hearing tomorrow morning.

Charged With Larceny—Alderman Henry Eyson held John Doe and Babe Seymour of No. 357 Soho street for court last evening on a charge of larceny, preferred by Henry Spencer of No. 305 Kirkpatrick street. Spencer alleges that the defendants held him up Saturday afternoon at the Soho dump and stole a watch from him.

Broke the Good Leg—Michael Sharp, who about a year ago had his left leg amputated while working on the Pennsylvania railroad, yesterday morning buckled on his new wooden leg to go to work. He did not know exactly how to put on the leg, and when he attempted to go down stairs at his home, No. 27 Atlantic alley, Allegheny, he fell and broke his other leg.

Thought to Be Thomas Edmond—A young man supposed to be Thomas Edmond, was found dead in bed at Hahn's hotel, in East Pittsburgh, yesterday morning. He registered there the night before and nothing is known of him. Letters found on him associate him with a person who is known in Orangeville and Warren, O. Heart disease was probably the cause of death.

Officers Held Meeting—A meeting of the officers of the Eighteenth regiment, state guard, was held last evening at the armory in Fifth avenue. Only routine business was transacted, according to Col. Frank I. Rutledge. The meeting was called at this time on account of Col. Rutledge leaving today for a month's vacation on the northern lakes. There were 48 of the officers present.

Said She Bewitched His Children—Mike Wagner, of the South Side, was sued yesterday before Alderman Sherran on a charge of disorderly conduct, by Victoria Wezerwiski. Wagner went to Mrs. Wezerwiski's residence on South Twenty-seventh street yesterday, and standing in the street she says he called her names and said she had bewitched his children. He was released on $300 bail for a hearing tomorrow morning.

The Air Would Not Work—A head-end collision between two freight trains at Brinton, on the Pennsylvania railroad, at 4 o'clock on Sunday afternoon, resulted in the demolition of the two engines and three cars of coke. The signal tower was knocked off its foundation. The crews and the towerman jumped and were only slightly injured. The trouble was caused by the failure of the airbrakes to work.

Jokers Will Be Arrested—The report that Councilman J. H. Wagener of the Third ward and Councilman H. L. Klein of the Seventh ward, Allegheny, had been drowned Sunday morning at Cedar Point, Sandusky, O., has been denied in a telegram received by Mrs. Klein. The Allegheny police have received orders to arrest persons starting such reports, of which there has been an unusual number during this summer.

Tarentum Campmeeting—The fifty-second session of the Tarentum campmeeting will open on Thursday and close on August 24. There will be sermons twice a day at the start, and then three a day. On Sundays three sermons will be preached and special services will be held. The Rev. J. P. Marlatt will be in charge of the services. On the closing day the Rev. Arthur Staples, president of Beaver college, and the Rev. A. B. Riker, president of Mt. Union college, will preach.

News of the Rivers.

Thirty thousand acres of crops have been drowned out along the Illinois river by high water.

W. N. Gorion, freight agent of the Anchor line, is confined to his home on account of illness.

A slight rise is coming out of the Allegheny river, which will be very beneficial to the packet interests.

A number of towboats are nearing Louisville from New Orleans with empties and will return south with coal tows.

The harbor is still filled with empties just below the Smithfield street bridge. Many of them will be repaired before they are again reloaded.

Capt. John E. Robinson has gone to Mt. Clemens, where he will remain for several weeks, making his headquarters at Detroit a portion of the time.

A United States law requires that when a boat is built from an old hull at least two-thirds of the hull must be new if a change of the name is wanted.

Capt. James A. Henderson did not arrive home from Philadelphia until last night, having missed a train expecting to bring him into Pittsburgh yesterday morning.

The Winifrede Coal Company, it is said, contemplates building a towboat with more power than the John Mackey or the Cincinnati and Kanawha river coal towing trade.

Mrs. John Golden of Jeffersonville, Ind., has been granted a license to pilot steamers on the Ohio and Mississippi rivers and today will start on her first trip as a licensed officer.

Capt. J. A. Clow leaves this week for Buffalo and a jaunt through Canada, making a tour of the lakes before he returns to Pittsburgh. He expects to be gone about one month.

The packets Ben Hur, Keystone State and Kanawha all came into Pittsburgh yesterday with good trips and the two former boats went away well laden. The Kanawha will be the only Ohio river packet leaving today.

The steamer Gertrude did not go to Morgantown yesterday, being held here for repairs. She will have to be hauled out on the Monongahela dry dock today, but will be able to leave tomorrow at the usual hour on her regular run.

Old rivermen say that there used to be a rock pit under the pavement where the Conestoga building now stands at Wood and Water streets, and many were the battles fought there in the early days of steamboating. The vicinity was full of caves and mysterious places.

The Natchez is on the dry dock at New Orleans and it is expected it will take about 10 days to complete her repairs. Her hog chains will be tightened up in order to bring her hull into its former alignment. Many of the southern boats are now undergoing repairs.

The dredging of the trap in the Ohio river at Sewickley is expected to make Merriman the shoalest place on the upper Ohio river. The improvement, pilots say, will no doubt benefit the trap, but the dredging of a channel 300 feet wide for quite a distance is bound to drain the water away from the pools about it, especially in times of low water. Some pilots declare that before the trap improvement was touched, with a 4.6 foot stage at the Davis island dam, four feet was found in the river at trap.

THE HERRS ISLAND DAM.

It Will Be Finished in Six Weeks Water Permitting.

If the Allegheny river remains at a stage for the next six weeks that will enable the placing of the gates in the bear traps at the Herrs Island dam the wickets at the dam can be raised for the first time and the structure made to serve the purpose for which it was built. It has been a long time since the work started on the improvement and several contractors have failed in their efforts to complete it, but the dam is now in such shape that a few weeks will put it in service.

Work is progressing on the finishing touches and as soon as the dam can be raised it will furnish slackwater up the Allegheny as far as Brilliant. Here another dam is to be built that will give slackwater to Springdale, and a dam is being built there which will extend the system on up the river. The high stages of water have prevented the finishing of the dam sooner. Early in the season it was expected that the dam could be raised by September 1, but a large force of men have been put to work and the improvement will be finished with all possible haste. Further high water, however, will stop the work.

HE LOCKED FOOD IN CELLAR WHILE FAMILY STARVED

The Humane Society Is Trying to Apprehend Joseph Patreci.

TALE OF AWFUL CRUELTY

Bought $20 Worth of Good Things, Locked Them Up, and Forbade Wife to Touch Them on Pain of Death, Then Fled.

The Western Pennsylvania Humane society and Alderman S. J. Grenet of Allegheny are making every effort to apprehend Joseph Patreci, an Italian of Shady avenue, Allegheny, whom they want for cruelty and neglect of his wife and four children.

Inspector J. N. Kidney of the society investigated the charge against Patreci on Saturday. He found the family almost in a state if starvation, although there was $20 worth of groceries locked in the cellar.

The mother begged Inspector Kidney to break open the cellar door and get the good things locked in there, telling him that she and the children were starving and that her husband had told her he would kill her if she broke open the door.

"This veritable Bluebeard," Agent Kidney said yesterday, "bought the groceries and other eatables, such as green corn, peas, beans and potatoes, last Wednesday when he was paid and locked them in the cellar while his poor wife and children were actually starving. He told them he would cut their heads off if they touched a morsel of the goods.

"There was absolutely nothing to eat in the three small rooms the family occupy except a stale egg and a green tomato. The children were crying to their mother to let them eat the egg and the tomato, but she told them to wait until supper time.

"I felt inclined to take an ax and break down that cellar door, but knowing I had no right to do so I did the next best thing and got the Allegheny department of charities to help them.

"I then went before Alderman Grenet and made information against Patreci for cruelty and neglect. He has skipped out, however, and we do not know where he is."

KENNYWOOD AND SOUTHERN.

Last Week of Dumont's Minstrels at Former—Vaudeville at Latter.

Dumont's Philadelphia Minstrels began the close of their three-weeks' engagement hereabout at Kennywood park yesterday. More then 15,000 people saw the afternoon and evening performances. Something new at Kennywood was the sale of reserved seats. The bill this week is entirely new.

The hit of the show is Hughey Dougherty's take-off on conducting the Kilties band in full Highland costume. The performance will be given afternoon and evening all week.

Despite the cool weather there were 5,000 people at Southern park last night. Refined vaudeville is the show.

THE SALESWOMAN

Compelled to Be on Her Feet the Larger Part of the Day Finds a Tonic in Pe-ru-na.

MISS NELLIE CURTAIN, 646 Pearl st., St. Paul, Minn., head saleswoman in a department store, writes:

"I have charge of a department in a dry goods store, and after standing the larger part of the day, I would go home with a dull ache, generally through my entire body. I used Peruna and feel so much better that I walk to and from the store now. I know Peruna to be the best medicine on the market for the diseases peculiar to women."—Miss Nellie Curtain.

Nothing is so weakening to the human system as the constant loss of mucus. Catarrhal inflammation of the mucous membrane produces an excessive formation of mucus. Whether the mucous membrane be located in the head or pelvic organs, the discharge of mucus is sure to occur.

This discharge of mucus constitutes a weakening drain; the system cannot long withstand the loss of mucus, hence it is that women afflicted with catarrhal affections of the pelvic organs feel tired and languid, with weak back and throbbing brain. A course of Peruna is sure to restore health by cutting off the weakening drain of the daily loss of mucus.

An Admirable Tonic.

Congressman Mark H. Dunnell, National Hotel, Washington, D. C., writes:

"Your Peruna being used by myself and many of my friends and acquaintances not only as a cure for catarrh but also as an admirable tonic for physical recuperation, I gladly recommend it to all persons requiring such remedies."—Mark H. Dunnell.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

TUESDAY, AUGUST 12, 1902.

TWELVE PAGES.

Reconcilable Purposes.

There is a possibility of long delay to the entrance of the Wabash to the South Side mill district in the collision with the River and Railroad Terminal Company. It is not necessarily a very serious situation, however. The terminal company had planned a freight depot and series of warehouses, with a view to making transfers from river to rail and vice versa. The Wabash is directly interested in that business also, and it ought not to be difficult for the two to compromise on a basis that will be mutually satisfactory.

From information at hand it appears that the Wabash has in view a freight depot and terminal for the site it seeks to condemn on similar but not identical lines with the present owner. It ought not, then, to be an impossible thing to have the freight depot and terminal speedily created by one or the other, or even both of the parties to the proceedings in court. Pittsburgh needs all the facilities it can get for handling its enormous tonnage. It is able to supply as much as all of the various interests can care for, so it would seem advisable for all to join in securing desirable results rather than to quarrel over the prize and deprive the city of benefits.

Private Opinion vs. the Law.

It is unfortunate for people that they cannot distinguish between an official order and a government official's public expression of his private opinion. Of course, it may be urged that it is also unfortunate that a public official should so express himself concerning the administration of laws his department is called upon to enforce as to cause people to misunderstand his powers in the premises, but it is certain it is beyond his power to supply comprehensions to persons who should be able to observe the difference between Shaw the secretary and Shaw the citizen, sympathizing as a citizen with his fellow citizens, but unable as citizen or secretary to override a statute. Be that as it may, Secretary Shaw, with the best intention in the world, has made trouble for a lot of tourists by declaring that he would permit even a bale of hay to come in as baggage, if it did not exceed the $100 limit. People mistook the secretary's heartfelt words for a new statement of the law in the case, and while they are not bringing in bales of hay, they are bringing lots of other things they were led to believe had been freed from duty. But they are not freed, and as a result there is the customs collector to pay. Secretary Shaw's expression was simply a picturesque statement of a commonsense view of how things should be, and while it has resulted in a more liberal interpretation of an act of congress, it, of course, does not operate as a repealer. It has, however, led the customs officers in New York to be more uniform in giving the tourist the benefit of a doubt, and that at least is something gained.

Information for the People.

The latest interesting contribution to Pennsylvania campaign literature is made by that universal censor, all around bureau of information, and not always amiable critic, the New York Evening Post, which in its editorial columns gravely declares the "latest trouble" of Judge Pennypacker "is the threat of the organization leaders of Allegheny county to drop his name from the head of the regular ticket there if he accepts the nomination which has been tendered him by the Citizens' organization."

In going from home to learn the news one is often told strange things. It is real news, of course, that Judge Pennypacker has been having trouble, but let that pass, as it is overshadowed by the specifications of new trouble that follow the declaration. As the New York Post assumes to be sufficiently informed concerning the ins and outs of Pennsylvania politics to bestow blame and administer rebuke from time to time, its readers will possibly infer that it speaks with authority. Therefore it ought to prove itself by telling them how it is possible for a county political organization to leave names of state candidates off its state ticket when the machinery of elections established by the statutes makes it mandatory on the secretary of the commonwealth to certify names of nominees for state offices and form of ballot to the county commissioners and gives the latter no choice but to print the ballots according to the secretary's direction. It will keep the Post busy for some time obtaining this information, but as it will meanwhile be storing its editorial mind with useful knowledge it will not be time wasted.

East End Terminal Station.

Purchases of property between East Liberty and Roup stations revived the Pennsylvania railroad project for an East End terminal station. The public understands pretty well the necessity for such a movement and the Pennsylvania railroad officials are, no doubt, more impressed with it every day. The new Union depot, designed to accommodate the traffic of future years, is barely sufficient for the present. Waiting room, ticket offices and accessories have been found really inadequate for the travel of this summer.

The greatest difficulties, however, have been in the yards. The elaborate system of switches which occasioned so much inconvenience and delay to trains last fall and winter is not now equal to the demands upon it. The terminals are in a chronic state of congestion and there is no more room on which to spread them. Either a new terminal station or a new system of running suburban trains must be provided, or there will be continual tying up of the passenger service.

It has been suggested that suburban trains from Greensburg or Pitcairn might be run through to Leetsdale, Carnegie or up the Monongahela division, and those from Carnegie, Leetsdale and Monongahela division points out to Pitcairn or Greensburg. That system would obviate the necessity of shifting coaches so many times, though it would not be wholly satisfactory in other respects. The more complete relief will be obtained from a new terminal station where more room can be had, or by means of which the pressure of traffic can be divided. That appears to be the decision of the Pennsylvania people. The improvement will be welcomed by the public, which is beginning to understand the efforts the railroad management is making to accommodate the stupendous increase of business over its lines.

Business Men in Diplomacy.

There is much merit in a suggestion of a writer in the New York Times that our ambassadors hereafter be appointed more with a view to their business qualifications than to their literary attainments. The suggestion is made in view of the certainty that the place of Andrew D. White at Berlin must soon be filled and that there is a prospect of a vacancy in the Russian embassy. There is no disparagement of Mr. White involved in the suggestion. He has been ambassador to Germany during a somewhat trying period and has promoted a good understanding between the United States and the German government. As he leaves Germany the questions between the two nations are commercial rather than diplomatic. Germany is studying America for its business and industrial methods for the purpose of profiting by the study. During the recent tariff debates in the German parliament members of the government and leaders of the opposition were armed with volumes of American tariff statistics and tariff literature and gave evidence in discussion that they had read and pondered them. Our dealings with Germany for some time to come must have largely to do with tariffs and the interchange of products. The same is true of our relations with Russia, and, in fact, with all of Europe and the rest of the world. International relations of this day and time are increasingly those of commerce and the questions that arise are such as naturally would be adjusted by trained business men. Whether the ambassador of the future is to be from the walks of business life or not he must be familiar with and the master of business propositions and business terms and forms. He must know a good bargain in a commercial sense and must be a man of action as well as of thought. The man of affairs of today is of necessity a man of thought. He deals with problems that demand more from his brain than the old questions of statecraft. As a rule he is equal to the demands that might be made upon him as the representative of his government in a foreign capital, being of necessity trained in the practical phases of the science of diplomacy. A host of men equal to the requirements of representation will suggest themselves, together, of course, with some very successful men of affairs who are utterly unfitted by temperament for such duties. But there is also an abundance of men in what is ordinarily termed public life who are well fitted to cope with the problems of modern international relations, and while the man of business ought to come to the front in diplomacy and other affairs of state, the men who have made public affairs a business are not in extreme danger of being crowded to the wall.

The Strenuous Life.

A fresh exemplification of the strenuous life at Atlantic City appears in the feat of a college student, who kicked a Russian count because he did not like the latter's apparel. Ordinarily American citizens adopt milder means for showing their disapproval of the ridiculous in dress. But the exhilarating breezes at the seashore have a wonderful tonic effect upon some people, and the young man in this case was moved to apply his boot to the objectionable garments.

Strenuosity is not in disfavor at Atlantic City. Yet the student was promptly arrested and fined. This was probably because he overlooked the first principle of American ethics—fair play. It is averred the young fellow approached the count from behind and kicked him without warning. That is absolutely against the rules. It was no fair question between strenuous youth and strenuous attire, and the strenuous youth got no more than was coming to him when he was hurried to the police station.

A Significant Call.

Prince Chen's visit to President Roosevelt yesterday is significant in several particulars. It is the first time a prince of the royal blood of China has visited this country and indicates the awakening of that ancient empire to the growing importance of the United States in world affairs. True, the great Viceroy Li Hung Chang came here several years ago, giving the first sign of recognition, but Prince Chen more intimately represents the interest of the reigning house.

Prince Chen's visit betokens also a friendly disposition as well as an interest in growing power. No doubt he assured the president, in oriental fashion, of the undying affection of China for America, which means in western language that China understands what the United States has done for her, and wishes us well as long as we continue to play fair. In time China may even understand that it is American nature to give fair play at home and abroad. Then the ports of the Chinese empire will be opened widely to American commerce and the hearts of its people to the introduction of American ideas. If that ancient dynasty is to be regenerated it will be, as in Japan, through American influences.

Politics in Kentucky.

Republican leaders in Kentucky tried to induce John W. Yerkes to be the party's candidate for governor again, but Mr. Yerkes much prefers a federal office in hand to a state office in the bush, especially when the bush is full of thorns. Mr. Yerkes made a fine run for governor in 1900, with J. C. W. Beckham as his opponent, the man who was seated as governor when the Democratic legislature declared that Goebel was elected.

It will be remembered that the returns showed the election of Taylor, the Republican candidate, in 1899, but after Goebel was assassinated the legislature unseated Taylor and placed the Democratic candidate for lieutenant-governor in the governor's chair. In 1900, at the special election, Beckham ran for governor, and the returns showed his election by 3,518 over Yerkes. How many Republicans really voted for their candidate will never be known, for the election was conducted under the celebrated Goebel law, a legislative contrivance designed to make Democratic candidates' calling and election sure. Mr. Yerkes was then made commissioner of internal revenue, and it is not to be wondered at if he prefers that quiet office in Washington to another tussle with the Goebel law and the returning boards of Kentucky. The Republican candidate for governor of Kentucky in all probability will be Attorney General Clifton J. Pratt, and we hope he will win. According to the returns for the last few years the two parties are quite evenly matched as to strength in Kentucky. Under a fair election law the Republicans would be very likely to win, to seat their man and keep him in his seat.

Senator Elkins of West Virginia continues the campaign for the annexation of Cuba and against reciprocity. But presently Mr. Elkins will be busy with a campaign of re-election to the senate and is likely to find himself in as serious trouble as the Cubans are now.

A man named Highpeach was killed in that political quarrel in Tennessee, which shows that there was really something in the prediction of danger to the peach crop.

The president of the West Virginia university has fasted for 30 days. Now let the professors of the Chicago university go him one better by refraining from conversation for a month.

In line with the evident necessities of the case it is reported one of the city detectives has invented a straitjacket to prevent prisoners making their escape from sleeping officers on railroad trains.

United States engineers who are investigating the subject will no doubt find room for improvement in the Pittsburgh harbor.

Latest reports from the extreme northwest say that Mounts Redoubt, Iliniia and Augustin, in Alaska, are holding a continuous smoker.

When Senator Hanna said that he would rather be a peacemaker than be a politician he really meant that he could combine the functions of both.

Of course the new lead combination will try to get a lead-pipe cinch on the business.

French Refunding.

From the Philadelphia Press.

The French government, under the direction of Minister Rouvier, successfully passed by an overwhelming majority a fortnight ago its proposal to refund all that part of the national debt of France, amounting to $1,350,000,000, which still bears interest at 3½ per cent. This refunding is an assured success. After January 1 next the interest will be 3 per cent, the rate on the entire national debt of $4,200,000,000 in irredeemable and $800,000,000 in redeemable rentes.

CONEY SALOONS BECOME HOTELS

Easy to Beat Raines Law When Thirsty Customers Are to Be Had.

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, Aug. 11.

Coney Island furnishes a powerful illustration of the humbug of the Raines law. The new police captain at Coney Island announced that he intended to enforce excise regulations as defined by State Senator Raines in his own famous statute. No liquor of an intoxicating nature must be sold on Sunday except in restaurants or in hotels wherein there were 10 bona fide bedrooms. It had been the custom at old Coney to sell beer and whisky when and where they chose, and the Raines law sandwich was getting dusty and stony from disuse. The word went around last week that only "hotels" would have a chance to do a profitable business yesterday. Hence there must be an increase in the number of "hotels." With the aid of waiters and other hangers-on, a lot of wooden cubby-holes, about as large as small bathrooms, were partitioned off, and by yesterday morning there were dozens of "hotels" on Coney Island where there used to be only saloons and dancing halls. Then the sale of liquor went merrily on. Some of the customers made a pretense of hiring the rooms, just to give an air of reality to the hotel business, while others, contenting themselves with the ancient, dust-covered sandwich of tradition, called for beer and whisky as they listed and laughed at the laws which try to regulate the sale of intoxicants and keep it within decent bounds. It is possible that something will be attempted to make the Raines law really govern the sale of whisky and beer, but it will only be when the next state legislature is in session. In the meantime, Coney Island is getting back to its old "wide-open" way of things on Sunday, and habitues of the resort wink knowingly when anyone says "Raines law" to them. As a matter of fact the sale of liquor in Greater New York on Sunday is as large as ever it was. The "Raines law" is elastic enough to suit any shrewd saloonkeeper, and he asks nothing better. Most of the vendors of intoxicants in the greater city obey the law so far as it is expected, but that law itself is so full of loopholes that one may strain through it almost any kind of observance.

Patrons Take Big Chances.

One of the interesting glimpses of metropolitan life which riders on the "L" may enjoy is that of the barbers' school on the second floor of a factory building somewhere near Houston street. There are some two score chairs ranged along the walls of the great room, and to each chair is attached a boy or man learning to shave, cut hair, shampoo and perform the other grooming operations belonging to the tonsorial profession. Anyone can be shaved gratis at this "school." The only stipulation made is that there shall be no grumbling if the operator happens to make a slip with the razor or jam the lather brush into your mouth. It is understood that the barbers are learners. They do as well as they can, but they must not be held responsible for accidents, as if they were professing to be experts. The customers are of the class hobo, as a rule, although now and then some man who feels that he cannot afford to pay 10 cents for a shave, but is a self-supporting individual in general, presents himself for the services of the apprentices. It is said by some of the "panhandlers" of the Bowery that a better shave is obtained at the "school" than at the five and 10 cent shops of the lower East Side, although, of course, each patron of the "school" takes his chance.

All Gaze Upon Chinese Royalty.

New York is gayer than usual through the presence of Prince Chen and his party. Wherever the gorgeous raiment of the Chinese visitors is seen in public, there is a crowd of curiosity mongers, such as this city can produce at any moment, and the prince and his retinue have to pass through the fire of steady gazing, which, however, is not disrespectful. The prince, with Wu Ting Fang and other notabilities, went to Oyster Bay to see the president today, but they had a sort of triumphal procession from the Waldorf-Astoria to the pier on the East river, where they walked gravely aboard the tender that carried them out to the steam yacht Sylph, and thus made their way to the president's summer home. This afternoon, when the party returned, it went across the Brooklyn bridge, and later was entertained by the prince's loyal compatriots in Chinatown.

Makes Money on Political Guesses.

"Bill the button man" uses his political prescience in his business. For instance, he is confident that the Democratic candidate for governor of New York will be John B. Stanchfield of Elmira, and he has ordered several thousands of Stanchfield buttons to be ready for distribution on the first of September. Who can say that "Bill the button man" has not the courage of his convictions? He has been so successful since he made a business of furnishing campaign and celebrity buttons, to be worn on the coat lapel, that he is building a big theater in Harlem out of his earnings.

Even New York Detectives Drink.

A desperately drunken man, well-dressed, staggered against me in Herald square today, and burbled: "Shay, where in sham h'll sh Sheventy-shixh p-ure-shinxchs. I'm one them fellerish what was turned downsh, an' I'm ordered to Sheventy-shixth preshinxsh." There was more of it, but it all amounted to this: The intoxicated individual was one of nearly 100 detective sergeants recently reduced to the ranks and ordered to put on uniforms as patrolmen by the head of the police department, and he was celebrating his turn of bad luck by getting drunk. He went zig-zagging down Broadway, and, unless he found the policemen on the beat extremely forbearing, the chances are that he is in a cell in the Tenderloin police station long before this.

Expect Heavy Fine for Smoking.

The fight against the burning of bituminous coal, with its consequent black smoke, has reached Staten Island. The first suit of the health board to be taken into court came up today, it was against the Irving Company of New Brighton, and the probability is that the company will be fined the limit. There is a little soft coal burned in Manhattan now, but some of the ferryboats and tugs are using it, and on a humid day it is impossible to see across the North river for the smoke.

Welsh Anthracite a Failure.

The Elevated Railway Company lately ordered a quantity of Welsh anthracite for use in its engines. The stuff came over a few days ago, and is being tried on the "L." It cannot be said that it is a success, presuming that the object is to prevent the discharge of smoke. The Welch coal not only sends forth smoke, but drops flakes of soot and fragments of hot coal on the heads of people below. It is not likely that the company will use this fuel as a regular thing.

Love Furnishes the Money.

Love will find the way. A Roumanian girl of 18, one of the six children of Geise Rabinivici, has come to this country to be married to her sweetheart, who preceded her across the Atlantic. The girl, with her five brothers and sisters, and their father, are detained at Ellis Island. The family has traveled 13,000 miles since sailing from Havre for the United States, and some of them may have to cover a few thousand more miles before settling down here. The party came here four weeks ago, and were deported because they had not the sum of money which Uncle Sam requires shall be in the possession of each immigrant family before being allowed to settle in this country. Now they are back again, and the father shows that he has 600 marks, equivalent to about $144. The authorities are not satisfied, however, but will try to find out how Rabinivici suddenly came into possession of all this wealth. The young woman smiles. She wants her fiance, and the indications are that she will get him. In fact, the immigration officials say they will let her land, anyhow, if the young man can show that he has the ability to maintain his bride.

Caring for the Babies.

Dr. Lederle, New York's commissioner of health, looks out for the babies. He has prepared a set of directions for the care of infants, and had them printed on a card which can be hung on the wall of the nursery or kitchen, so that the mother or nurse has them always before her eyes. He tells the mother that the red-faced, flat-nosed, watery-eyed and wheezing tyrant of two months should have nine regular meals in every 24 hours, and the card tells how these meals should be prepared. Hints about washing the baby, getting a doctor when it is ailing, supplemented by full directions for obtaining these necessities promptly and free of cost where the mother is too poor to pay for them, are also on the card, together with a lot of "don'ts" that would be as valuable in Pittsburgh as in this city. It is not much wonder that Dr. Lederle is the most popular man with New York mothers that ever drew the salary of a health commissioner.

Lipton Somewhat of a Fighter.

Lipton, the "Irish knight," who made himself so popular when in New York at the time of the international yacht race, is a business man when the question before him is simply business. That is why he is fighting so persistently the claim of his former henchman, David Barrie, for $5,000 for alleged breach of contract and $6,700 in back pay. Judge Lacombe today signed an order calling on Barrie to show cause, on August 20, why he should not be compelled to file a bill of particulars, stating the terms, and producing copies of the contracts under which he was employed by Sir Thomas. Barrie insists that his work for Lipton, both as a coffee salesman and as his yacht manager during the America's cup races, was done under specific contracts, which he says were not lived up to by the "Irish Baronet." Barrie was discharged from Sir Lipton's employ in May last. The cup challenger's lawyers deny the existence of any contracts, and say that nothing is due Barrie.

Pittsburgher Shows Speed at Saratoga.

Louis M. Moore, whose home is Pittsburgh but who has been for some time New York representative of a carriage firm of Rochester, N. Y., has been creating a sensation at Saratoga for the last week or two. Every day he has been seen driving about the roads of that center of fashion in a different rig, always of the very swellest cut. One day it was a dog cart, smart and dashing; the next he lay back in a phaeton; the following found him in a victoria, and the next in a T cart. The vehicles were always extremely handsome and costly, and created a rush of excitement every time they came forth. The people saw a well-dressed, well-groomed, healthy-looking man of the world driving with the sureness of an expert and apparently supplied with unlimited money, or how could he drive so many magnificent carriages? The truth has not come out in Saratoga, but the young Pittsburgher chuckles to himself as he realizes that he has given his firm as fine a showing of their carriages as ever they got in any city.

Chairman Brennen Is Sanguine.

W. J. Brennen, chairman of the Democratic committee of Allegheny county, was in New York today on his way to Saratoga. He said he had just come from Harrisburg, where he had filed the nomination papers of the Democratic state and county tickets. He said that the county ticket, which is identical with that put forth by the Citizens' party, will certainly be elected. He never felt more sanguine of success in his life.

Sugar Cheap, Fruit Plentiful.

When there is plenty of fruit then comes the housekeepers' wail that it costs more for the sugar for preserving than for the fruit itself. Of course it does, but what is to be done about it? The refiners say there was a heavy demand for refined sugar today, and it will continue for at least two months on account of the large business in canning fruits. The supply of fruits is so large that canners expect to do a record business this year. Notwithstanding all this, sugars, both raw and refined, are selling at lower prices than ever have been known.

Touching Tribute to Alderman Bridges.

There was a large attendance today at the funeral of Alderman James Bridges of Brooklyn. He was a more than commonly popular man, and it seemed as if every man, woman and child in the old Fifth ward of Brooklyn, down by the East river, turned out to pay a tribute to his memory. It is said to have been the largest funeral of an alderman ever seen in Greater New York. Bridges was a character as lovable as he was peculiar, a fact that was clearly shown by the large and grief-stricken crowd that gathered about the hearse today.

Santos No. 6 Damaged.

Santos-Dumont's airship was damaged yesterday afternoon during an exhibition at Brighton Beach. The accident occurred in the building where the airship was being exhibited. The airship is known as "Santos No. 6," and is the one in which the Brazilian aeronaut intends making an aerial trip over Brooklyn.

A Mystery Solved.

From the Philadelphia Times.

A German scientist thinks he has discovered that the human family were formerly ruminant. If this be so, the mystery of the strange instinct of the chewing gum girl is solved. It by no means follows, however, that we are all descended from cows or nannygoats.

No Cause for Alarm.

From the Philadelphia Record.

Pomologists in convention at Rochester the other day descanted wisely and solemnly upon the shifting of the great apple bin of the United States to the westward of the Alleghanies. But what matter this, so long as apple butter fails not, and the applejack center is not removed from New Jersey?

DIPLOMATS WELL KNOWN IN AMERICA

Three New Appointees of King Edward Formerly in Washington.

By the MARQUISE DE FONTENOY.

There is a certain amount of American interest in the three diplomatic appointments made last week Saturday by King Edward. For William Haggard, M. de Bunsen and Edward Thornton have all three lived in this country and have American affiliations.

William Haggard spent several years at Washington as secretary of the British embassy in the days of Sir Edward Thornton. While there he married a divorcee, a Mrs. Kinney, who had borne prior to her first marriage the name of Miss Carrie Carroll, and who is a member of the well-known Carroll family of Maryland. Sir Edward Thornton did not approve of his secretary's marriage and Haggard, who is a brother of the novelist, Rider Haggard, found it convenient to exchange his post at Washington for temporary duties at the foreign office in London.

The union did not turn out happily. Mrs. Haggard secured a divorce in this country and Haggard procured one in England.

A few years later Haggard married again, this time to an English woman, a Miss Hancox. He has been for some time past British minister in Venezuela and has now been promoted to the post of minister plenipotentiary to the Republic of Brazil. He is much liked by King Edward and has on several occasions been his guest at Sandringham. I may add that he was British minister at Caracas at the time of England's trouble with Venezuela some years ago, which so nearly brought Great Britain into collision with this country during President Cleveland's administration.

Owes Position to Astors.

Maurice de Bunsen, who succeeds Sir Michael Herbert as secretary of the British embassy at Paris, with the rank of minister plenipotentiary, not only commenced his diplomatic career at Washington, but likewise comes from a family that owes its affluence and even its eminence to the American house of Astor. The founder of the Bunsen family, Christian by name, was a poverty-stricken young student of the University of Goettingen, his peasant parents experiencing the greatest difficulty in furnishing him with the necessary resources for his studies, when by a piece of great good fortune he was selected to serve as private tutor and traveling companion to young Mr. Astor, the son of the Astor who laid the foundation of the enormous wealth of the family. The couple wandered all over Europe together, visiting Goethe, Schopenhauer and Niebuhr, and when finally Mr. Astor returned to New York, Bunsen was provided for in a financial sense for the remainder of his days, and was able shortly after to marry Miss Waddington, and aunt of the M. Waddington who subsequently spent so many years in London as French ambassador.

Mr. Astor's tutor in course of time acquired the favor and good will, not only of the reigning house of Prussia, but also of Queen Victoria, and eventually was appointed Prussian envoy to the court of St. James, and ennobled with the rank of baron. His son, George, now dead, was more than half an Englishman, although a member of the Prussian house of lords, and for many years a member of the Prussian diplomatic service. He married a sister of the Norfolk banker, Sir Edward Birkbeck, who was one of the British commissioners present at the World's Fair at Chicago. Owing, however, to the treatment which he was subjected by Prince Bismarck, he had his sons brought up as Englishmen, the one being a clergyman of the Church of England and the other the new secretary of the British embassy at Paris.

Insulted by Bismarck.

In order to convey an idea of the treatment to which the late George Bunsen, who was an intimate friend of Historian Bancroft, was subjected by Prince Bismarck, it may be mentioned that on one occasion the iron chancellor gave a parliamentary banquet to which he bade Bunsen along with the other members of the Prussian house of lords. The invitation had been couched in the most courteous and friendly language, and Bunsen, whose differences with Bismarck up to that time had been of a purely political character, saw no reason to refuse the courtesy. He arrived at the chancellor's palace in due course and took up his position along with the other guests, when Bismarck entered, and making the round of the room went through the formality of saluting in person each separate guest. Either by chance or intentionally Bunsen, the bosom friend of Emperor and Empress Frederick (who had not then ascended the throne) was left to the last. But when Bismarck reached him he put both his hands behind him, stared at him contemptuously from head to foot, and then, without saying a single word, turned his back upon him and walked away.

Ostracised by Society.

As soon as the baron could recover his presence of mind he took up his hat and quitted the palace. But from that time forth residence at Berlin became impossible to him. The news of the insult to which he had been subjected quickly spread, and everybody in the official and political world realizing that their position and advancement depended upon the all powerful chancellor set to work in the most merciless manner to ostracise the man who had incurred his displeasure. There had been no personal quarrel between the baron and the prince, but merely a political difference, based upon Bunsen's opposition to Bismarck's action in placing a tax upon articles of food. In any other capital but Berlin, this irritation on the part of the head of the government would have mattered but little.

In London, Vienna, St. Petersburg and Rome, society bothers its head very little how anyone stands, either at court or with the administration. But in Berlin this is different, and the ostracism to which the Bunsens were subjected entailed the avoidance of the hospitable Bunsen household on the part of the diplomatic corps, of officers of the army and navy, of government officials, of professors of the university, and, in fact, of all who contribute to the constitution of the Berlin great world. Of course, after that the late George Bunsen left Berlin and established himself in London, where he made his home for the remainder of his days. Maurice de Bunsen has the Order of the Bath and married about two years ago a Miss Berta Corry.

Thornton Well Known Here.

With regard to Edward Thornton he will be remembered at Washington, not only as having spent the greater part of his youth there at the English embassy, but, likewise, as having been attached to Sir Edward Thornton's mission in an official capacity during the last two years of the latter's stay in this country as British envoy. He has just been promoted from the post of secretary of legation at Lisbon to that of British minister at Guatemala, and on Sir Edward Thornton's death will inherit not the latter's English title, which, being a mere knighthood, lapses, but his Portuguese title of Count Cassilhas, which was conferred upon the late Sir Edward Thornton by King John VI. of Portugal for three lives.

Mrs. John Gordon, who has just died in England at Redishan hall, Suffolk, was by birth Princess Caroline Murat, had American blood in her veins, besides being of American birth, and was the grandniece of the great Emperor Napoleon. The princess' father was the son of that ex-stable boy Murat, who after winning fame as a French cavalry general, married the first Napoleon's sister Caroline and reigned for a time as king of Naples. The princess' mother was a Miss Caroline Fraser of Philadelphia, who was employed as governess in the house of ex-King Joseph Bonaparte of Spain at Bordentown, N. J.

THE DEATH ROLL.

Capt. George D. Bilderback.

Capt. George Dilworth Bilderback died at the home of his mother, 817 Farragut street, East End, yesterday afternoon at 6 o'clock. Capt. Bilderback was born in the Third ward, Allegheny city, September 4, 1868. He was educated in the public schools of Pittsburgh and at Newell's institute, at one time a prominent institution in this city, graduating from that college. He entered the employ of George Dilworth, wholesale grocer, and afterward became a stockholder when that concern was organized into a stock company. He was a member of the firm at the time of his death. For a number of years he belonged to the Eighteenth regiment, N. G. P., and for eight years was captain of Company E, succeeding Capt. Little. He retired from the guard after the Spanish-American war. Capt. Bilderback always resided in Pittsburgh. His protracted illness prevented his attending to business for the past 10 months. He is survived by his mother, Mrs. Narsus Bilderback of this city; a brother, W. A. Bilderback, of Kansas City, and a sister, Mrs. George P. Harden of Steubenville. His father, Gabriel Bilderback, at one time a prominent business man of this city, died a year ago last June. Capt. Bilderback was very popular in business and military circles, his genial, kindly nature making him a favorite of all persons with whom he came in contact. Of all the attributes of a gentleman, it is truthful to say he lacked not one.

Thomas Scott.

Thomas Scott, 90 years old, and one of the oldest residents of the county, died at 8 o'clock yesterday morning at his home near Camden, Mifflin township. Mr Scott was born in County Antrim, Ireland, in 1812. In 1826 his parents came to this country and settled near to where Mr. Scott passed his last years. His father, James Scott, died at a ripe age in the house where Thomas Scott died yesterday. He was twice married. In 1835 Mr. Scott was married to Miss Lucinda Snodgrass of Lebanon, who died 30 years ago. There were 10 children, five of whom are living. They are John S. and Alexander M. of the firm of Allen Kirkpatrick & Co., Pittsburgh, and living at Dravosburg and Braddock, respectively; Mrs. Sarah McEarney and William M. of Carnegie, and Mrs. Elizabeth Robinson of Pittsburgh. The second wife was Miss Mary Moore of Pittsburgh, whom he married in 1867, and who survives. There were eight children, seven of whom are still living: Mrs. Mary Snodgrass of Dravosburg, and Samuel, Lucy, Howard, Blair, Anna and Isabel, all of whom are at home. Mr. Scott had for a quarter of a century been the ruling elder in the Mt. Lebanon Presbyterian church, and his funeral will be held there tomorrow afternoon.

Dr. Frederick S. Cossitt.

GREENVILLE, PA., Aug. 11.—(Special.)—Dr. Frederick S. Cossitt died at his home here this afternoon from appendicitis. An operation was performed Friday, from which he never rallied. He was born 58 years ago in West Salem township and was the son of Dr. De la Cossitt, one of the pioneer physicians of Western Pennsylvania. Dr. Cossitt graduated from Thiel college and the Western Reserve medical school, Cleveland, and 10 years ago commenced practice in Greenville. He was a member of the Mercer County Medical society and was local surgeon for the Erie and the Bessemer & Lake Erie railroads. A widow and one daughter, Marion, survive, together with a number of brothers and sisters, among whom are Dr. Henry Cossitt and Mrs. Dr. Doyle of Homestead, and Dr. Duran Cossitt of Conneaut, O.

The Hon. C. S. Sands.

CLARKSBURG, W. VA., Aug. 11.—(Special.)—The Hon. C. S. Sands died at his summer home at Terra Alta this state, this morning, from typhoid fever after a short illness. Mr. Sands was the son of the Hon. J. E. Sands of Fairmont, and was 40 years of age. In 1891 he came to Clarksburg and helped to organize the Traders National bank, and was elected cashier, which position he held at the time of his death. He was married to Miss Lulu Shafer, daughter of Dr. J. P. Shafer of Terra Alta. One son, 8 years old, survives. Mr. Sands was identified with nearly all the public enterprises in this section, and especially the Jackson Iron and Tin Plate Company, the Pine Grove Land and Improvement Company and the Phoenix Coal Company.

Mrs. Ferdinand Schulte.

Mrs. Magdaline Schulte, one of the oldest residents of Bridgeville, died yesterday morning. She was 64 years old. She was born in Pittsburgh and had lived in Bridgeville for the last 20 years. She was a member of the St. Barbara Catholic church of Rosedale, Pa. She is survived by her husband, Ferdinand Schulte, and seven children.

Samuel Conkling.

Samuel Conkling of Washington avenue, Allegheny, died last night at West Penn hospital, supposedly of meningitis. Conkling fell sick in a street car August 7 and was removed to the hospital. He was a machinist, 25 years old, and single.

Obituary Notes.

Marguerite Oehmler, the 5-year-old daughter of John Oehmler, of No. 314 Main street, died yesterday of appendicitis. An operation was performed, but was unsuccessful.

Mrs. Johanna K. Meyer, 56 years old, is dead at her late home, No. 717 Ohio street, Allegheny. She was a native of Guttenberg, Germany and came here in 1867. Her husband, Charles Meyer, and four children survive.

Miss Emma M. Bridge, 51 years old, for 21 years a teacher in the Twentieth ward schools, is dead at the home of her sister, Mrs. W. H. Taylor, No. 329 North Craig street. She was a member of the Bellefield Presbyterian church.

Mrs. Augusta Elliott, 26 years old, wife of Superintendent James W. Elliott of the East End office of the Express and Standard Cab Company, is dead at her late home, No. 251 Shetland avenue. She was married three weeks ago.

Cyrus W. Jackson, 28 years old, is dead at his late home, No. 161 Bidwell street, Allegheny. He is survived by three brothers, Charles A., of Allegheny; Harry I and R. B. of Sewickley, and a sister, Miss Elizabeth Jackson of East Palestine, O.

Mrs. J. J. Regelman, 30 years old, is dead at the home of her uncle, John C. Livingstone, No. 1051 Maple avenue, Wilkinsburg. Mrs. Regelman's home was at No. 229 Pearl street, Bloomfield. She was a niece of the late Gamble Weir, superintendent of the Pittsburgh bureau of police.

Addison Woodside, 33 years old, is dead at the family home, No. 917 Wallace avenue, Wilkinsburg. He was a son of Robert Woodside, owner of the Homestead Ice and Cold Storage Company, and had been route foreman of the East End district for the Consol

TEACHERS TAKE MOUNTAIN TRIP ON DAY OF REST

Refuse Breathing Spell from Sight-Seeing Arranged by Herr Schinko.

BEAUTIES OF JUNGFRAU

Again Take Cog Road for High Summit in Alps—Sleigh Ride as Summer Novelty—Quick Excursion to View Glacier.

By L. W. STRAYER.

(Special Correspondence to The Gazette.)

Interlaken, July 31.—This was to be a day of quiet enjoyment of the beauties of this Swiss summer resort and after our travels of the past week the wisdom of the provision was apparent. But when we arrived here yesterday afternoon from Lucerne the teachers who compose The Gazette and Chronicle Telegraph tour could not resist the beauties of the Alpine scenery and Herr Schinko, our conductor, was willing to oblige them and set to work organizing a side trip for today.

From the beautiful gardens which surround our hotel the snow-crowned summit of the Jungfrau mountain, the queen of the Alps, rears her majestic brow in full view. It appears to be only a short distance away, but good authorities tell us that it is at least 15 miles from here as the crow flies. To reach it one must traverse a much greater distance.

A trip to the Jungfrau was organized, and at 9 o'clock this morning 20 members of the party boarded a train here for a day in the mountains. At 6:30 this evening they returned, tired out but enthusiastic over the wonders they had seen. They had pelted one another with snowballs on July 31; they had enjoyed sleighrides and had walked into a great ice tunnel, burrowed into the side of a glacier. They stood on the brink of a precipice and gazed down an almost 5,000 feet sheer, into the valley below; they had ascended to a height of over 8,000 feet above the sea level; they had witnessed a snowstorm on the summit of the Jungfrau, and had encountered an Alpine rainstorm in the descent. This was a more than satisfactory day's experience for the ambitious tourists.

On Another Cog Road.

The railroad is a little cog road, such as is used in ascending the Rigi, and it worms its way in and around the mountain sides, going up and down precipitous grades that make the passengers ponder on their past lives. We passed through the Lauterbrunnen valley, where the great cliffs rise to enormous heights on either side and the cascade tumbles down the side of the precipice with a beautiful effect. The road from here begins a steep climb through the towns of Wengen and Wengernalp to Kleine Scheidegg, which lies at the base of the Eiger mountain. This mountain is about 11,000 feet high. To the right of it is the Monk, which rises to a height of 13,000 feet, and just beyond is the majestic Jungfrau, 14,000 feet high. The tradition is that for ages the Eiger has been casting sheep's eyes at the Jungfrau, but the Monk stands between them, frowning at the Eiger's frivolity and trying to turn the attention of both to the church.

Before luncheon several members of the party made a quick excursion to the Eiger glacier, a distance of over a mile, and rode on the sleigh, entered the grotto and enjoyed the queer sensation of handling snow in July. Nearly all went up as far as the snow line. Just below this line they gathered bluebells, Alpine roses and yellow daisies, all of which grow in profusion on the mountains. After luncheon at Kleine Scheidegg we took a trolley car up to the Eiger and entered a long tunnel in the top of the mountain. At the end of this tunnel is a side entry which is over 8,000 feet above sea level and which leads out on a little plateau called Station Rothstock. From here the passenger is given a magnificent view of the valley which lies 5,000 feet below.

All Take Sleighride.

Re-entering the car, we returned to Kleine Scheidegg, stopping in the meantime at the glacier long enough for all to see the grotto and take a sleighride. This was as near to the Jungfrau as we could get without taking a day for mountain climbing, which our itinerary would not permit of. But it was near enough to get an excellent view, not over a mile or two distant, and its beauties were revealed to us at short range. As our car emerged from the tunnel on the return trip we were treated to another manifestation of nature in the form of an Alpine storm. Clouds had obscured the bright sun and the summit of the Jungfrau was enveloped in a mist which meant that snow was falling there. Below, at our level, a heavy rainstorm prevailed and we could see the clouds gathering and forming for miles in every direction. At Kleine Scheidegg we changed cars and took another line which took us by a roundabout way back to Interlaken. The grades on this line were very steep, but the road traversed some of the most beautiful scenery it has been our lot to look upon. A line of cog railway is now being constructed by which, when it is completed, the tourist can ride almost to the summit of the Jungfrau.

The members of our party who did not go on this side trip improved the time by resting and preparing for the long journey to Paris, which we begin tomorrow morning. This trip includes a stop at Berne, the capital of Switzerland.

NO CALL FOR A REFEREE.

Westmoreland Republicans Deny That Judge Steel Is to Be Appointed by Chairman Quay.

GREENSBURG, PA., Aug. 11.—(Special.)—Leading Republicans of this county tonight offer a denial of the recent statement that Judge John B. Steel is to be appointed the congressional referee of the Westmoreland-Butler district by State Chairman Quay.

According to the rules of the state Republican organization the referee must come from an adjacent county of the congressional district, and, therefore, Judge Steel, who it is said may resign from the bench soon, cannot be appointed. No deadlock has yet been created in this congressional district, and consequently the Republicans here have not yet thought of recommending an appointee to Senator Quay.

The conferees of Col. Huff and Dr. Showalter will meet probably next week in Pittsburgh, and then it will be determined whether a referee shall be appointed or not.

NATIONAL CAPITAL NOTES.

Society

THE Central Young Women's Christian association is making every effort to reach the young women and girls employed in the shops and factories. In the summer time trolley rides and occasionally a boat excursion are given for them, but the latest means to reach them is the holding of small weekly parties at the association building in Fifth street, when the girls are initiated into the fascinating mysteries of ping-pong.

The first table equipped with the net proved so popular that a second table was installed last Friday afternoon, and the first party was held that evening. The girls were taught the few simple rules of the game and before the evening was over showed no little skill in the use of their miniature racquets. Both tables were in use.

The girls took turns in playing, some watching and commenting upon the progress of those at play. They were so pleased with this new and novel amusement that the coming evenings at the association rooms are being anticipated with a good deal of pleasure.

The idea is to make these little parties weekly affairs, the girls being drawn from the several clubs which have been organized among the factory girls during the last two years with so much success. The Lucy Larcom club, the first organized, whose members are the girls in the Jenkinson cigar factories, and similar clubs in the Heinz pickle factories, in the shops and factories on the South Side and in the Ward-Mackey bakery in Lawrenceville, are among the number that have sprung up during the last two years.

This winter a wider work will be carried on in Lawrenceville. Evening cooking classes for the girls in the Ward-Mackey factories were inaugurated several months ago by the Collegiate Alumnae association with instant success, and will be further developed.

During the winter this social work among the factory girls is carried on through the club meetings frequently held at the Central Young Women's Christian association building in Fifth street. There talks are given by men and women who have traveled in the United States and in foreign lands, and who are interested in the girls and tell them of their travels, illustrating their talks frequently by the use of the stereopticon. Sometimes there are social gatherings, where games are played; singers sometimes offer their services and concerts are given and occasionally some generous friend arranges an excursion.

In these ways the social worker from the Young Women's Christian association brings a new interest into the lives of the factory girls, who in time learn to regard her as their own friend, and confide in her. But they are very wary, these girls, and are easily offended, so that it is only with the utmost tact that they are reached and their friendship gained and held.

United Presbyterians at the Lake.

Next Thursday will be United Presbyterian day at Conneaut lake. Special trains will be provided to carry the church people to the lake, for the gathering is expected to be one of the largest yet held by the United Presbyterians, who in the past have held their annual outings at Idlewild. It is expected that 2,500 people will attend from Pittsburgh and Allegheny. Twenty-one special trains will take the crowds from all parts of Western Pennsylvania and it is believed that fully 15,000 people will be in attendance. An interesting program is being arranged and will be conducted in the auditorium on the Exposition grounds.

Picnic for the Orphans.

The Ladies' Aid society of St. Joseph's Roman Catholic Orphan Asylum, Troy Hill, has arranged a benefit for the asylum on August 20, at Calhoun park. The asylum now cares for 300 children and depends for much of its support upon the generosity of its friends. Donations of money and of provisions to be used in preparing for the picnic will be very acceptable. The committee of arrangements, notified two days before the picnic, will call for any donations.

A Wedding in Sharon.

Invitations have been issued for the approaching marriage of Miss Estella Morrison, daughter of Mr. and Mrs. Frank Morrison, and Fred Hanson of Rome, Ga. The wedding will be celebrated in Sharon, Pa., on Thursday, August 14, in St. John's Episcopal church. The bride is a popular society girl of Sharon, and the marriage will be a leading social event of the season.

C. L. B. Women Have a Picnic.

The C. W. B. M. society, composed of club women of the two cities, held a picnic yesterday at Riverview park. The ladies discussed the "White Man's Burden," studying it from the sociological and the psychological points of view.

People Here and There.

Mr. and Mrs. L. W. Vilsack and family have gone on an extended visit to Atlantic City and other eastern summer resorts.

Mr. and Mrs. S. Kelly of Lincoln avenue, East End, have left for a two weeks' trip on the lakes. They will visit at Westfield, N. Y., before they return.

Charles Ellsworth Parker, assistant secretary of the Central Branch of the Young Men's Christian association, has gone to Somerset, Pa., where he will spend his vacation.

Miss Florence Brown, general secretary of the Central Young Women's Christian association, is expected back at her desk at the association building, in Fifth street, in a couple of weeks.

Mrs. George C. McCullough of Atwood street, Oakland, with her child and mother, are spending the summer at Asheville, N. C., to return in September for a few weeks at Cambridge Springs, before going to their new home in the East End.

NEW CONTRACTING FIRM TO BE FORMED

Duquesne Construction Company Will be Organized at Meeting Today.

Pittsburgh is to have a new building contracting company, the Duquesne Construction Company, formed by Pittsburghers who have been leading members of other contracting concerns, and others who are withdrawing from concerns which still exist. The company will be organized today at the offices of the L. L. Satler Lumber Company, in the Park building, with the following directors and officers: Charles E. Gallagher, president; J. A. Langfitt, treasurer; L. L. Satler, vice president and secretary; W. F. Wood, manager, and James S. McNaugher.

Messrs. Gallagher and Wood have been doing contracting business under the name of Gallagher & Wood, and will transfer a substantial business to the new firm, including the general contract for the erection of the Duff building at No. 951 Penn avenue, which is worth about $100,000. Mr. Langfitt is the well-known attorney and president of the Federal National bank. Mr. Satler is the head of the Satler Lumber Company and Mr. McNaugher its secretary. Mr. Wood was formerly superintendent of William Miller & Sons.

The Duquesne Construction Company has been chartered under the laws of New Jersey, through the New Jersey Guarantee Corporation & Trust Company. It will start with a paid-up capital of $100,000 and no bonds. The company will enter all manner of building construction, making a specialty of heavy structures.

Those in interest are working on a number of important building contracts that will be transferred to the new company. The Duff building is now well under way, its foundations being nearly completed. The building will be 20 by 160 feet, eight stories high and of heavy, modern and fire-proof construction throughout.

AFTER MORE RECRUITS.

Naval Station Moves to New Quarters in Smithfield Street.

The naval recruiting station has been moved temporarily from the Federal building to rooms over a jewelry store in Smithfield street, near Fourth avenue. Four men applied for enlistment yesterday, but the rooms were not yet ready, so that the examinations of the applicants will not begin until today. The same recruiting party was here some time ago and secured 71 fine young men for the navy. So satisfactory were the men enlisted here that the party is desirous of trying its luck again.

A letter was received yesterday from the navy department saying that the enlistment has been generally so successful that the berthing space on the receiving ships, Franklin and Richmond, is taken and new recruits are sent to the receiving ship Indianapolis, at the League Island navy yard, at Philadelphia.

RAID ON SPEAKEASY STIRS UP TOWNSHIP

Two McKees Rocks Justices Called Upon to Adjust Matters Between Contending Parties.

There was a row in Schoenville on Saturday night between the coal and iron police and the township officials over the raid of a speakeasy. Eighteen suits and cross-suits have been entered and more are expected.

The persons who are mixed up in the affair are: Osborne & Curley, alleged proprietors of the speakeasy; Timothy Scanlon and William McDonough, coal and iron police; John Fahey, constable; Paul Perforce, president of the township board of commissioners; Theodore Dillon, commissioner.

The suits are for aggravated assault and battery, assault and battery, mayhem, disorderly conduct, gambling, illegal liquor selling, selling on Sunday, interfering with a legal process and impersonating officers. The informations are made before Justices of the Peace Engle and Connolly of McKees Rocks, and will be tried August 26. All are out on bail.

FOR NEW BUILDING.

Sisters of Good Shepherd to Give Concert at Carnegie in November.

Arrangements are being made for a concert to be held in the Pittsburgh Carnegie music hall for the benefit of the Sisters of the Good Shepherd of Troy Hill, Allegheny. The event will be on November 11, and the Pittsburgh orchestra and the choir of St. Paul's cathedral will take part. The choir will sing compositions from Palestrina, Arcadelt, Haller and others.

The object of the concert is to help the building fund of the Sisters of the Good Shepherd, whose present building on Troy Hill is overcrowded. The sisters have bought a site in Lincoln avenue, East End, and will build there in the spring.

NEW TEACHER APPOINTED.

Ferdinand Berger Becomes a Member of W. U. P. Faculty.

The Western university has secured a new instructor in German in the person of Ferdinand Berger, the teacher in the parochial school of the First German Evangelical church, at Smithfield street and Sixth avenue. Mr. Berger received the appointment last week, but postponed his response until his resignation should be accepted. The resignation was accepted at a meeting of the church council last night, and the church is now advertising for a new teacher.

Mr. Berger will hold the chair of German literature and history at the university, succeeding Herman Schmitz, the former instructor in German.

THE MUSH ERA.

The manufacture of oatmeal was introduced into this country about fifty years ago. Cracked wheat and similar preparations followed. The whole population began eating mush. Result: Amyiaceous dyspepsia, universal sour stomach, constipation, disordered livers, thin blood, weak muscles and nerves, brain fag and nervous exhaustion. The remedy lies in replacing these starchy foods with Toasted Wheat Flakes, sweetened with Malt Honey. Each appetizing flake is crisp delicate brown, thoroughly cooked and toasted. The starch of the wheat is converted into dextrine, thus making it immediately digestible and a godsend to those who cannot digest starchy foods. Toasted Wheat Flakes are ready to serve at once without further cooking and are delicately delicious. Every package bears a picture of the Battle Creek Sanitarium. Look out for imitations.

[SPECIAL TELEGRAM TO THE GAZETTE.]

Philadelphia, Pa., Aug. 11.—Rain stopped today's game in the fifth inning while Pittsburgh was at bat, and the contest did not count. The visitors had scored one in the third and two in the fifth, when O'Day called the game.

Leever kept the hits scattered and the Phillies were blanked. It was a very slow game as far as it went, only four innings being played in an hour and a quarter. Leever was largely responsible, as he was very deliberate in his movements, and this no doubt prevented Pittsburgh from winning.

Pittsburgh got one man to first in the opening inning. Leach getting a base on balls. For the Phillies, Wolverton and Barry made safe hits, but Leever steadied down and struck out Douglas, while Hulswitt flied to Wagner.

The visitors again got one man to first in the second on a pass, Ritchey being the lucky man. The others, however, could not advance him. Krug made a hit for the Phillies in the second, but nothing came of it.

Leever started the third by striking out Clarke beat out a slow one to Krug. Beaumont's out put him on second. Leach walked and Wagner singled, scoring Clarke. Leach was thrown out at third by Barry. Wolverton got a hit for the Phillies in the third, but he was the only one to reach first.

Bransfield beat out a slow one in the fourth and Ritchey sacrificed, but Conroy and Smith could not connect safely.

In the fifth after Leever went out, Krug to Jennings. Clarke doubled and scored on Beaumont's single. "Beau" stole second and scored on Leach's single. The latter also stole second and then the game was called.

ELEVEN-INNING TIE.

There Was a Hot Battle for Honors Between the Taylors.

NEW YORK, Aug. 11.—The New York and Chicago teams played an 11-inning tie game here today. Two games were to have been played, but rain prevented the second score. New York tied the score in the ninth inning with McGann's three-bagger and Brodie's single. Bowerman singled and Lauder sacrificed, but none of the other batsmen could bring a man home and New York's chance to win was lost. Score:

TOOK THE SERIES.

Brooklyn Won Final Game from the Cardinals.

BROOKLYN, Aug. 11.—Brooklyn made it three straight from St. Louis today by winning the final game of the series. The game was called during the latter half of the eighth inning on account of rain with two of the Brooklyn players out and the score 3 to 0 in favor of the home team. The Brooklyn players bunched their hits in the second inning, scoring three earned runs off five hits. Score:

BASEBALL PEACE NOW LOOKED FOR

THE CHANGE AT CINCINNATI WILL BRING GOOD RESULTS.

St. Louis Club Owner Admits That There Is Now Fine Prospects for Peace—Beckley Won't Go to the Brooklyn Club.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CINCINNATI, O., Aug. 11.—No attempt will now be made to establish an American league baseball club in Cincinnati, and the prospects are most flattering that peace will be declared between the two big baseball associations, either this autumn or at the latest before the advent of the next playing season.

C. J. McDiarmid is one of the directors of the St. Louis American league team, and also one of the most conservative members of the Cincinnati bar. He said today: "All indications now point to an early declaration of peace between the rival baseball organizations, the American league and National league.

"Senator Charles Fleischmann, father of Mayor Fleischmann, and his brother Max were on Ban Johnson's bond as president of the American league, and the relations between President Johnson and the Fleischmanns are of the warmest character.

"The men who have purchased the team are business men, and as war is bad under all circumstances, I feel sure that the differences will be declared at an end. I do not think an effort will be made to place an American league team in this city. But we would have been in here had John T. Brush remained in control. He is largely responsible for the continuation of the war. The American league is on top, is making money and has a big fund in the treasury. Hart of Chicago is out in an interview stating our St. Louis club is losing money, when we are making an excellent profit."

It is probable that August Herrmann, one of the purchasers of the Cincinnati ball club, who is president of the water works board plant here and second only to George B. Cox, another of the purchasers, is a Republican boss of the city and county, will be a member of the executive board of the National league. Mayor Fleischmann has suggested his name and John T. Brush is said to be friendly to the suggestion. Herrmann will arrange to meet the moguls shortly."

The report that Jake Beckley may go to Brooklyn is denied by Herrmann.

WILL TACKLE PIRATES.

St. Louis American Club Wants a Chance If It Wins the Pennant This Season.

ST. LOUIS, MO., Aug. 11.—(Special.)—Robert L. Hedges, secretary and treasurer of the St. Louis American League club, says that if Barney Dreyfuss is in earnest in his proposition to match the Pirates against the winners of the American league pennant he possibly can be accommodated by the Browns, when the championship season is ended.

"We are going to win this pennant as sure as I am talking," said Mr. Hedges. "And I presume it is the pennant winner Mr. Dreyfuss is after, although he made his offer directly to Chicago. I am confident we will finish at the top, and if the Cardinals do not accept conditions for a post-season series with us, we will be ready to meet the Pirates right away for any side bet Mr. Dreyfuss may select. Five thousand dollars will be agreeable to us, or we will make it as much more.

"In case the Browns and the Cardinals are matched for a post-season series, the Cardinals will have the first call upon us; but I do not see anything to prevent us playing a championship series with the Pirates, also. Both series would be the greatest drawing cards in baseball that ever happened, and would do much for the national game."

HOMESTEAD WON A GAME.

Bowman's Clever Pitching Won a Victory.

ATLANTIC CITY, Aug. 11.—(Special.)—Bowman, the little fellow with the habitual smile, had the Atlantic City players at his mercy today. At critical stages he was cool and effective. McChesney played sensational ball in middle, while Marshall took batting honors. Brown, pitcher for the Beach players, was rather wild. During the first two innings he was touched up for two two-baggers and three singles, while his support did a jack-rabbit chase in the field. Atlantic City visitors are surprised at the baseball enthusiasm manifested by Iron City visitors. The Homestead boys expect to win tomorrow's game. The score:

THE TIMELY BINGLES.

They Brought Wheeling a Victory Over Johnstown.

JOHNSTOWN, PA., Aug. 11.—(Special.)—Wheeling, the West Virginia champions, and Johnstown played a good game of ball today, but Wheeling batted opportunely and won out. For five innings it was a beautiful contest with honors even. Poor base running and coaching lost several scores for Johnstown. Score:

THE TENNIS EXPERTS.

The Champions Will Meet at Newport Next Week.

BOSTON, Aug. 11.—The United States national lawn tennis championship will be held at Newport, R. I., on Thursday, August 19, and following days. Entries for the singles must be received by James Dwight, at the Newport Casino, Newport, on or before Thursday, August 14. An entrance fee of $3 should accompany each entry.

Besides the singles championship, R. F. and H. L. Doherty, Eastern doubles champions, will play Collins and Waidner, western doubles champions, probably Tuesday, August 19, and the winners will play Ward and Davis, holders of the national doubles championships, probably on Wednesday, August 20. The interscholastic championship will also be played. The members of the English team, Messrs. R. F. Doherty, H. L. Doherty and Dr. Pim, will play for the singles as well as for the doubles championship.

RUNNELS' WIN A SURPRISE

Went to the Post Almost Unbacked, but He Won a Clever Victory—Advance Guard Scores a Very Close Win Over Sombrero.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Saratoga, N. Y., Aug. 11.—Excellent racing was enjoyed this afternoon. There were no stake features, but each race filled well, and with the exception of the last race, in which but three started, the contests were close and interesting. The victory of John A. Drake's Runnels was the surprise of the afternoon. He went to the post unbacked by his stable connections, his price receding from 2 to 1 to 5 to 1. The play was mostly on Lux Casta, she closing at 1 to 2. Wonderly on Lux Casta waited too long before making his run, and Runnells just lasted long enough to win by a scant half length.

As an aftermath of the Saratoga special of Saturday, won by Whitney and Duryea's Irish Lad, those gentlemen, in view of the discussion which has arisen through Burns' riding on W. C. Whitney's Girdle, forwarded a letter to the stewards offering to return the gold plate and the stake money won by Irish Lad. The stewards unanimously refused to accept the offer.

The Starter Has the Fever.

Starter Fitzgerald was stricken with typhoid fever on Sunday night, and, C. H. Pettingill took his place. Burns & Waterhouse sold their 2-year-old colt, Alsono, before the first race for a sum stated to be in the neighborhood of $10,000. He started favorite in the first race, but was unable to finish any better than second. Ada Nay, at 8 to 1, winning.

Advance Guard won the mile and a quarter race by a neck from Sombrero, the latter showing vast improvement over his last performance. Summaries:

First race, for fillies and geldings, 2-year-olds, 5½ furlongs—Ada Nay, 111, Wonderly, 8 to 1 and 7 to 5, won; Alsono, 111, Redfern, 3 to 5 and out, second; Intervention, 102, Lyne, 12 to 1 and 3 to 1, third. Time, 1:09. Virgin Soil, Lady Albercraft, Forward, Sparkle, Esher, Vignon and Aurlesville also ran.

Second race, for 3-year-olds and up, selling, 7 furlongs—Ordnung, 115, Bullman, 2 to 1 and 4 to 5, won; Bluff, 113, Howard, 7 to 2 and 6 to 5, second; Kilogram, 118, Wonderly, 6 to 1 and 2 to 1, third. Time, 1:25 3-5. Red Damsel, King's Favorite, Ben Howard, Lapland, Wellesley, Mercer, The Pride of Surrey, Filiform, Martin Burke, Sweetlands and Pure Pepper also ran. Sedition left at the post.

Third race, for 3-year-olds, ¼ mile—Runnells 116, Lyne, 5 to 1 and 3 to 5, won; Lux Casta, 105, Wonderly, 1 to 2 and out, second; Huntressa, 105, Redfern, 12 to 1 and 2 to 1, third. Time, 1:39 1-5. Flying Butiress also ran.

Fourth race, handicap, for 2-year-olds, 6 furlongs—Stamping Ground, 112, Shaw, 9 to 2 and 8 to 5, won; Maxnic, 124, Speyer, 5 to 2 and even, second; Castle Arnold, 112, Odom, 8 to 1 and 3 to 2, third. Time, 1:14 2-5. Dramatist, Bensonhurst, Athelroy, Empress of India, Mansard Examiner, Lady Knighthood, Arabs and Wild Thyme also ran.

Fifth race, handicap, for all ages, 1¼ miles—Advance Guard, 124, Odom, 12 to 5 and 1 to 2, won; Sombrero, 104, L. Jackson, 4 to 1 and 7 to 5, second, The Rival, 93, Redfern, 4 to 1 and 7 to 5, third. Time, 2:07 4-5. Himself, Carbuncle and Bessie McCarthy also ran.

Sixth race, selling, for 3-year olds and upward, 1 mile—Port Royal, 86, Waugh, 5 to 2 and 1 to 2, won; Swiftmas, 100, Odom, second; Sadducee, 96, Rice, third. Time, 1:41 2-5. Only three starters.

Potatoes Promise to Be More Plentiful and Good Apple Harvest Is Predicted—Monthly Report of Department of Agriculture.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Washington, D. C., Aug. 11.—The monthly report of the statistician of the department of agriculture shows the condition of corn on August 1 to have been 86.5, as compared with 87.5 on July 1, 1902; 54 on August 1, 1901; 87.5 at the corresponding date in 1900, and a 10-year average of 84. There has been an improvement during the month of 10 points in Pennsylvania, 7 in Indiana and Wisconsin, 4 in Ohio, 11 Illinois and Kansas, 2 in Iowa and 11 in Nebraska. This substantial improvement in the most important corn states would undoubtedly have resulted in a marked improvement in the average for the entire country but for the fact that 14 southern states, containing 36.8 per cent of the total corn acreage, show an average decline during July of 10.7 points.

The statistician estimates the winter wheat crop at about 280,000,000 bushels, an average of 13.8 bushels an acre. The estimated average yield per acre in the principal states is as follows, the states being ranged in order of acreage: Kansas 8.7, Missouri 18.2, California 15, Indiana 15, Ohio 16, Illinois 16.6, Nebraska 22, Pennsylvania 15, Oklahoma 11.6, Michigan 17.4.

Spring Wheat and Oats.

The average condition of spring wheat on August 1 was 89.7, as compared with 92.4 last month, 80.3 on August 1, 1901, 86.4 at the corresponding date in 1900, and a 10-year average of 89.

The average condition of oats was 89.4, against 92.1 last month, 78.6 on August 1, 1901, 85 at the corresponding date in 1900, and a 10-year average of 82.2. There has been an improvement of 1 point in Indiana, 5 points in New York, 7 in Pennsylvania and 8 in Ohio; a decline of 1 point in Michigan and Minnesota, 2 points in Illinois, 3 in Wisconsin, 9 in Nebraska and 12 in Iowa.

The average condition of barley declined 1.5 points during July, but on August 1 it was 3.3 points higher than at the corresponding date in 1901; 18.6 points higher than on August 1, 1900, and 6.8 points above the mean of the 10-year averages.

The average condition of spring rye improved 1.2 points during July. On August 1 it was 6.9 points higher than on August 1, 1900, and 5.3 points above the mean of the average for the past 10 years.

Preliminary returns indicate a decrease of about 6,000 acres, or 7.8 per cent, in the acreage in buckwheat as compared with that of last year. The average condition of buckwheat is 0.3 of a point higher than at the corresponding date last year, 3.5 higher than on August 1, 1900, and 1.4 of a point above the mean for the past 10 years.

Potatoes Were Plentiful.

The average condition of potatoes improved 1.9 points during July and on August 1 it was 82.5 points higher than at the corresponding date last year, 6.6 points higher than on August 1, 1900, and 11.1 points above the mean for the past 10 years. The conditions in the principal states are as follows:

Of the 11 principal sweet potato-producing states only two report an improvement in condition during July. The other nine states report declines ranging from 1.8 to 18 points.

Preliminary returns indicate an increase of 1.1 per cent in the hay acreage. Of the 11 states mowing 1,000,000 acres or upward last year 6 report increased and 5 reduced acreages. The condition of timothy hay has improved 5.1 points during July. Reports as to the production of clover are, on the whole, unfavorable.

During July the changes in the condition of the tobacco crop were unfavorable in every important tobacco producing state except Pennsylvania, in which state an improvement of 4 points was made.

Notwithstanding the fact that there has been a decline in the condition of apples as compared with last month, in many states, reports on this fruit from nearly every important state indicate that more than an average crop will be harvested.

ATTORNEY YOUNG COMES BACK HOME

DETAILS OF ATTACK ON ATTORNEY GENERAL KNOX GIVEN.

No Statement Issued, but Story of Affair Is Available—Conduct of Attorney General Was Gentlemanly Throughout. Reason He Returned to Room.

United States Attorney James S. Young returned yesterday from his trip in the east and utterly refused to discuss the altercation in the Garden cafe in Atlantic City. Mr. Young's hand, despite reports to the contrary, was not sore from the blow delivered on Millionaire Stephenson, after the latter tried to hit Attorney General P. C. Knox. Mentally, however, Mr. Young was a little sore over the publicity which the incident had attained.

"Mr. Knox has been interviewed in the east," he said. "He told exactly how the affair happened. I have nothing more to say. It would be better, I think, to let the whole matter drop." That was the extent to which Mr. Young would make a formal statement.

In interviews with Stephenson and Charles T. Schoen, published in the eastern papers, they seem disposed to place the blame on Mr. Knox by saying that, after he had left the cafe, he returned, went up to their table and called them a lot of blackguards. "He intended to start a fight," Schoen says in an interview yesterday. "If not, why did he return?"

True Version of Affair.

Mr. Knox's friends in Pittsburgh now know why he returned. It was in response to the very loud demands of one or more of the party to know what they had done, and it was because Mr. Knox answered their question that the brief scrimmage occurred.

Mr. Knox, his wife and daughter, his little son Phil, a young woman guest of the family, James S. Young, J. F. Tindle, a son of Dr. Tindle, and Mr. Long, Mr. Knox's secretary, had gone to the Garden restaurant to take dinner, as the party intended to leave Atlantic City that night, and desired a change from the hotel.

The party drove there in a carriage, which was ordered to call for them. It was about 7:30 p. m. when the Knox party went to the restaurant, entering the little room adjoining the main cafe. Just before the coffee was to come on, three men came into the room and seated themselves at a table 10 feet distant from the Knox party. The three men began a loud and boisterous conversation, punctuated with profane and vulgar language. A waiter was sent over to their table to ask them to desist, as there were ladies in Mr. Knox's party.

Offended Repeatedly.

One of the offenders came over to Mr. Knox's table and apologized, and the apology was accepted. Presently the offensive language was again begun, and the head waiter went to them, of his own volition, and again requested them to be quiet. They asked what they had done, and when this question was repeated several times Mr. Knox quietly told them their language was offensive.

Two of them rose to their feet, whereupon Mr. Knox suggested to the gentlemen of his party that the ladies had better be taken out.

The three ladies, little Phil and Mr. Knox walked out of the room, passing the table of the three millionaires, the two who were standing up making way for the party but loudly asking what they had done. The ladies got into the carriage.

Mr. Knox was just outside the door of the room, Mr. Tindle was just inside the door, and Mr. Young and Mr. Long were taking their hats and umbrellas from the rack when the three offenders, in loud and profane language, demanded what they had done that they should be rebuked by a waiter. Mr. Knox heard them.

Reason for Return.

It was not like him to leave the responsibility of the rebuke to a servant, and he immediately stepped into the room, walked up to the table and in a quiet voice said: "Since you wish to know, you have acted like blackguards."

Thereupon Stephenson aimed a vicious blow at Mr. Knox's stomach. Mr. Young struck out, hitting Stephenson on the cheek. Stephenson staggered back and then clutched Mr. Young by the throat, but Young threw him to the floor, almost down on the steps. Stephenson lay there for a moment, then got up and tried to mix it up, when the waiters interfered.

This explanation tells for the first time why the attorney general went back into the room. His friends were still there, liable to be assailed by three drunken men; the waiter, who at his command had called the offenders to order, was liable to get into trouble, perhaps to lose his place, and as a gentleman should, he went back to take the responsibility upon himself.

During the whole affair not a word was said about trusts; in fact, the millionaires probably did not know at the beginning that the attorney general was in the room.

REORGANIZATION IN ROCK ISLAND GIVEN A DAMPER

Big Decline Shows Discouragement Over Reception of New Securities.

GREAT THINGS IN STEEL

Earnings for Ensuing Quarter Are Expected to Break All Records, Despite Liberal Expenditures for Maintenance and Improvements.

[BY PRIVATE WIRE TO THE GAZETTE.]

New York, Aug. 11.—The decline of Rock Island today to 183½, the lowest price recorded since the reorganization scheme came out, was believed to reflect discouragement over the reception of the new Rock Island securities. The stock's weakness doubtless was intensified by the liquidation of small holdings by investment interests. The inside support hitherto remarked seemed today to be lacking. It was thought that the supporting party had been getting more stock than it cared to take. Common report is that the new Rock Island bonds have not been favorably received by interests whose good will is more or less essential to the success of the scheme.

The new Rock Island shares, traded in "When, if and as issued," broke sharply on the curb market, also, there being in that quarter, too, a singular absence of the support previously given from inside sources. The extreme weakness of Rock Island, indeed, did not a little to unsettle speculative temper. For the sake of other bullish intrests, everybody has been hoping that the Rock Island plan at length would find favor in the street. Some very competent critics expect, however, that the new common stock will be laughed off the market. The Moore party is represented to be a bit nervous over the unanimity with which all financial writers and stock market experts have attacked the new capital plan, exposing its weak parts and holding the whole up to popular ridicule.

Steel Earnings Still Low.

It is estimated by an official who keeps himself in close touch with the finances of the United States Steel Corporation that the combine's net earnings for the quarter ending September 30 next will at least equal, and, indeed, are likely to exceed those for the quarter ended June 30 last. The June quarter, it will be remembered, was the most prosperous in the history of the combine, the net earnings for that period amounting to $37,-691,000 an increase of $11,327,000 over the corresponding quarter of 1901.

Your correspondent has official authority for the statement that the combine is making much more liberal appropriations for maintenance and improvements out of current earnings than ever before, wherefor the increases reported from quarter to quarter, large though they are, fall considerably short of reflecting the full measure of its prosperity.

During the first nine months of the combine's existence the strictly maintenance expenditures were held as low as possible, so that net earnings might run as high as possible. These earlier maintenance charges were ample, but were confined strictly to maintenance, and did not include such betterments and improvements as are now being made out of current earnings. Extensive improvements have been undertaken during the past three months, the cost of which is to be met wholly out of earnings.

Great Expectations in L. & N.

The market sharps who play speculative conditions in preference to intrinsic values insist that the tape is bespeaking 175 for Louisville & Nashville, independently of what may be going on in the south or of the arrangements that have been made for exercising the Morgan options on enough of the Hawley-Gates holdings to constitute control of the property. The theory is that the Morgan party, after having paid something near 170 for control of Louisville & Nashville, naturally will want to advance this stock to a permanently higher level. It is the saying in Wall street that any Morgan proposition has to be wrapped in velvet.

Incidentally it is very interesting to note that in the speculative eye Louisville & Nashville looks much cheaper around 150 than it looked several months ago when selling around 110. Even the Belmonts, who then controlled the property, evidently thought 110 was a pretty high price for Louisville & Nashville. They were willing, anyway, to sell 50,000 shares of new treasury stock at that price. After the Morgan options on enough of the Gates-Hawley stock to secure control have been exercised the Hawley-Gates party will still have a considerable block of the stock, for which it probably will want to find a market. The situation amounts to this, therefore, that the Morgan party will want to put Louisville & Nashville higher for permanent reasons, and the Gates-Hawley party will want to do the same thing for immediate profits.

There is no reason in the world, as things have been going in this market, why Louisville & Nashville should not be marketed up 25 points more. The market for it is perfectly controlled by the western contingent and the Morgan party, and it remains only for them to agree upon the price to which the stock shall be advanced.

Something Doing in Copper.

Every other man one meets in Wall street just now asks one what one hears about Amalgamated Copper. There is a very strong impression around that something is about to be done in this interesting stock. It is no secret that a bull campaign was interrupted by the anthracite coal strike. Several weeks ago a coterie of copper shares undertook to advance the stock to 75, but so much of it came out between 68 and 70 that the thing was abandoned. The floating supply of Amalgamated Copper stock in a purely speculative sense is rather low, and there is no doubt that the stock has been in process of accumulation for strong interests.

Some very interesting information is brought down from Saratoga. The personal atmosphere of a returned pilgrim is needed to make the telling of it quite delightful. It is difficult to catch the human effects in print. The composite story, however, is that of the speculative elements of the so-called western party who lately have been dividing their attentions between Wall street and Saratoga have given the Saratoga people some dazzling points as to how money should be properly exercised. They are said to "have the fraternity a-going"—whatever that may mean. Many of the stories that are told would be incredible except that all of those returning from the scene bring much the same information.

Spending Uncut Twenties.

One of the "Gates party" has gained fame for a weird wallet folded from uncut sheets of $20 bills. One night he walked into Canfield's place, put a $500 bill on the "red," won the bet and walked out with as little to do as one would make walking into a cigar store for a light.

Ordinary faro bank play is too slow. The western speculators run mostly to roulette, and when faro is played at all, the betting is on "high and low," so that the turn of each card brings a decision. Action is what is wanted. Charlie Gates, the son of John W. Gates, is reported to have been paid nearly $800 on one roulette bet. One of the Wall street brokers of the western crowd is said to have won nearly $1,500 in three roulette bets. Limits are raised to $2,000 for these plungers. One of the leaders of the Gates party lost $7,000 at a single sitting in one "club" and won it back the next night at another.

The per capita circulation in Saratoga is said to have swelled enormously since the western crowd from Wall street "butted into" the game.

Railroad Stock Speculators Pause

DEALERS PAUSED IN SPECULATION IN WALL STREET

Rumors Not Corroborated in Southern Railroad Readjustments.

MONEY IS IN DEMAND

More Active Fall Trade Is Expected to Call for Large Amount of Cash, Which Will Be Drawn from the Bank Reserves.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, Aug. 11.—There were not lacking today echoes of last week's excited surmises regarding the supposed readjustment of relations in the southern and southwestern railroad world, but the entire absence of any official corroboration or countenance for the rumors caused a pause in the speculation based upon them. The necessity for some arrangement to harmonize perfectly the new order of things by reason of the change in control of the Louisville & Nashville and the passing of the Chicago & Eastern Illinois to the St. Louis & San Francisco is generally recognized.

Attention was diverted anew to the money market today in view of the heavy inroad upon the surplus reserves of the banks revealed by the Saturday bank statement. Many glowing reports were received in Wall street of the promise of the harvest, the large traffic moving on the railroads and the indications for an unusually large fall trade in all branches.

Cash Demand Expected.

The present high level of prices for grain-carrying railroads is the result of former buying to discount these very conditions. It is certain, also, that the more active business is the more demand there will be for cash in the country's circulation, thus drawing it from bank reserves where it might serve as basis for credits. Western banks, in common with those of the east, are loaned close to their available resources, and the demand for cash upon eastern banks is expected to be rather more than usual at the crop-moving season, now close at hand.

It is observed also that foreign exchange bankers are hesitating to offer exchange bills against future shipments of merchandise, owing to the knowledge that a large short interest already exists in exchange, on account of borrowings from abroad which mature during the fall.

Exports Show Decrease.

The July foreign trade statement explains the continued shortage in the exchange market, exports of domestic products having fallen more than $21,000,000 below those of the same month last year, over half the decrease occurring in breadstuffs.

Attention was also attracted by the estimate of the Canadian gold commissioner that the gold output of the Klondike for this season would probably not exceed $14,000,000, as compared with $21,-900,000 for last season. Call money rates rose above 3 per cent today as a result of these considerations on the part of lenders of money, and time money rates were also firmer.

During the final hour the pressure to sell became urgent and prices declined sharply throughout the list. St. Louis Southwestern preferred, Norfolk & Western and Western Union were conspicuously strong in the early dealings, but they lost most of their gains in the late reaction. St. Louis Southwestern preferred stiffened suddenly to the best at the last. The closing generally was irregular.

Selling to realize made the bond market easier. Total sales par value, $1,700,000.

WALL STREET FEATURES.

Total sales for the day were 610,-400 shares.

Failure to confirm rumors regarding readjustment caused a pause in speculation in southern and southwestern railroad stocks.

The promise of heavy fall trading is expected to cause a lively demand for cash in the bank reserves.

Exports of domestic products show a falling off of $21,000,000 below the same month last year.

Talked About in Wall Street

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Aug. 12.—The Herald will this (Tuesday) morning say:

Professional sentiment, made up entirely of the opinions of the trading element, was unfavorably influenced in Wall street yesterday. The position of bank resources, as shown by the statement of Saturday, had a deterrent effect on bullish enthusiasm, which was particularly emphasized when call money ran up to 4 per cent, and time funds hardened. Under the cover of some manipulative movements for the advance which appeared in a few of the southern and southwestern issues, there was considerable selling in the general list. The west was a heavy seller, but this was not absolutely new, for under the cover of the "deal" rumors and upbidding of prices of last week some excellent selling was in progress in Wall street.

Aside from the fears of monetary stringency, which was the dominant influence of the day, the news developments were highly favorable. The Herald's estimate of crop conditions, obtained from official sources in the various important crop-growing states, was highly satisfactory. The conclusions were well borne out by the reports of various railroads and by crop experts, and after the close of business by the government crop report giving the conditions. There is not a dissenting opinion this year as to the brilliant harvest prospects, and this is regarded as highly reassuring of a continuance of the country's business and industrial prosperity. Whether security prices have discounted the favorable reports can, however, only be determined when the money situation is more clearly defined.

London detected American selling in that market before the local opening and sent a lower range of quotations for Americans, accompanied by rather liberal selling orders. It was estimated that the sales for foreign account exceeded purchases by about 25,000 shares. The sales were quite generally distributed throughout the international list, and stocks were quite freely offered toward the close of the London cabling. Foreigners bought Norfolk & Western against their sales of options, made earlier in the month. The general London market was reported strong but dull, and in the later trading was somewhat influenced by New York.

Rock Island crossed St. Paul on the down track yesterday. Both issues declined, but Rock Island went faster, and for the first time in a long interval, Rock Island sold on the tape at a lower quotation than St. Paul. Rock Island is selling ex-rights, the rights which recently came off, so that the difference was more apparent than actual. The sharp decline in Rock Island was due to the reduction in the price of the buying order put in by the insiders. The controlling interests, after the first announcement of the recapitalization plan, took all the stock offered at 190, and got a great deal of it, 17,600 shares alone selling between 189 and 192 last week. The sales were believed to represent liquidation by holders who disliked the plan, and as the stock was coming rather rapidly at the high price, the big price was marked down.

Treasury Statement.

WASHINGTON, Aug. 11.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $204,205,672; gold, $104,440,-024; silver, $26,538,136; United States notes, $9,087,747; treasury notes of 1890, $75,696; national bank notes, $12,828,471; total receipts this day, $1,859,863; total receipts this month, $17,192,714; total receipts this year, $66,458,-400; total expenditures this day, $2,475,000; total expenditures this month, $18,515,000; total expenditures this year, $63,528,597, deposits in national banks, $127,410,727.

NEWS FROM THE MINES

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Aug. 11.—Leadville mines are showing greater activity. During July 77,000 tons of ore were mined, including 8,000 tons of zinc ore, the largest monthly output of zinc yet reported by the camp. New shippers are promised this month, and it is predicted that before the end of the year zinc production will reach 12,000 tons per month.

A rich chute of gold-bearing ore has been discovered on the fifty-foot level of shaft No. 2 of the Columbia, near Phoenix, Ariz.

Free gold has been encountered in the shaft of the Margaret at State Line, Utah. The rock resembles the higher grade ore found in the Johnny.

A new 20-stamp mill is to be installed on the Red Cross at Nevada City, Nev.

Recent samples from the Sheahan, Humboldt county, Nev., showed from $60 to $12 ounces of silver and $6 to $28 gold per ton. The old tunnel is now in 650 feet, or 280 feet beyond the cross fissure which assayed 700 ounces of silver and $6 gold.

Seven feet of ore running high in lead is exposed in the Ben Butler at Bingham, Utah. It has been stripped for 15 feet in the upraise.

A dispatch from Salmon, Ida., states that at a depth of 15 feet on the Liberty Pole a gold-bearing ledge assaying from $84 to $2,480 per ton has been opened up.

The Portland at Battle Lake, Wyo., has resumed operations with three shifts. The Hidden Treasure has driven its tunnel 600 feet, the last 10 feet being through a heavy copper sulphide ore that grows better with every foot of advance.

Eastern capitalists have bought the Terrible group on Brown Mountain, near Georgetown, Col. There are 42 claims in the group and the records of production aggregate $5,000,000. The price is not stated.

The Tehean at Lake City, Col., consisting of eight claims and a mill site, has been sold to a Massachusetts syndicate for $35,000.

The Belle and Last Chance at Lordsburg, N. M., are under extensive development. The Belle shaft is down 100 feet and an air shaft connecting with the Last Chance tunnel is being sunk. A 50-ton concentrator will be installed this fall.

The Metal Market.

In tin today the local demand was reported as fair and prices held steady at $28 50@29 60 for spot. The foreign market advanced 5s on spot and futures, closing at £127 2s 6d for the former and at £125 for futures. Copper commenced the week with a break of ¼ under daily offerings. The steady increase in supplies and heavy liquidation by holders anxious to realize on portion of their stocks. At the close standard spot was quoted at $11 00@11 50; lake, $11 10@11 20; electrolytic, $11 62½@11 75; casting, $11 00@11 50. London scored a slight advance for the day, spot selling is 3d up at £52 11s 3d and futures at £52 15s. A moderate jobbing business was noted in lead at unchanged prices and the market closed steady. London was unchanged at £11 2s 6d; spelter in the local market ruled firm and unchanged at $5 87½. English prices lost 2s 6d, spot closing at £18 12s 6d. Domestic iron was steady and unchanged. Warrants were nominal. No. 1 foundry, northern, $25 00@25 50; No. 2 foundry, northern, $22 00@23 00; No. 1 foundry, southern, $22 00@23 00; No. 1 foundry, southern soft, $22 00@23 00. English markets were unchanged, with Glasgow at 5s 1d and Middlesboro at 51s 6d.

Grain Market Closes at Low Point

SLIGHT RELIEF EXPERIENCED BY GRAIN TRADERS

Selling Pressure of Last Week Had Momentary Relaxation.

DEMAND AT THE OPENING

Bears, However, Held the Whip Hand in the Chicago Pit and Hammered Down Prices to Suit Themselves. Corn Dropped to 50 Cents.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Chicago, Aug. 11.—Grain traders had only momentary relief today from the selling pressure which put all markets on the toboggan slide last week. Following an early rally on frost reports from the northwest prices began sinking again and so general was the selling that covering for short accounts could not offset the declines. At the close September wheat was ¾c off, September corn ¾@⅞c lower and September oats 1¼c down. Provisions were erratic and closed 12½ to 45c lower.

There was some uncertainty at the start in wheat. Talk that there was a good short interest out, the cold weather in South Dakota and Minnesota, and fairly bullish week end statistics, started a good early demand. Sentiment more than news made the market weak and bears who held the whip hand simply hammered prices to suit themselves. One of the principal incentives was a bearish forecast of the government report that was due this afternoon.

Prices Slipped Off.

Cables were lower, commission houses sold and prices slipped off. Later there was a rally on good seaboard clearances and a fair export trade. Selling, however, set in again, and the close was near the bottom. September opened a shade lower to 1⅛@1¼c up at 67⅜c to 68⅛c and sold at 68½c, declined to 67¾c and closed weak ¾c off at 67⅛@67¼c. Local receipts were 121 cars, three of contract grade; Minneapolis and Duluth reported 177 cars, making a total for the three points of 598 cars against 673 last week and 649 a year ago. Primary receipts were 1,170,000 bushels, compared to 1,458,000 bushels last year. Seaboard clearances in wheat and flour equaled 707,000 bushels. Breadstuffs on passage increased 288,000 bushels. World's shipments were 5,996,000 bushels, against 10,-410,000 bushels a year ago. The visible supply decreased 193,000 bushels. New York reported 50 loads taken for export.

Corn Went Downward.

After opening firm and higher, corn turned weak and September sold down to a new low mark—50c. There was heavy stop-loss selling and considerable selling for short accounts. Crop reports were good, but receipts were still small. Frosts in Iowa and early covering helped prices up a trifle, but news that the corn in the southwest was ready for feeding and that shipping would soon follow started renewed depression. Expectations were for a very bearish government report. Toward the close a decrease in the visible supply and covering for shorts helped in a rally. September opened ¼@¾c to ⅝@⅞c up at 51¾c to 51⅞c, declined to 50c and closed weak, ¾@⅞

Local Stocks Fairly Active and the Market's Tone Quite Firm

WINDOW GLASS ADVANCED AND THEN REACTED

Pittsburgh Coal Common Was Firm and 1-8 Higher, but Preferred Reacted.

BREWING COMMON ACTIVE

Directors Declared Only the Regular Dividends—Crucible Steels Quite Firm—River Coals Easier—Fire Proofings Dull.

The market on the Pittsburgh stock exchange resumed yesterday after its two days' holiday in a quite active and generally firmer mood, the sales for the day being almost 6,000 shares. Toward the close some irregularity cropped out and the final figures in several issues were below the top, but the general tone finished about steady. The heaviest trading of the session was in Pittsburgh Coal common, which on sales of nearly 1,800 shares advanced to 20, the highest point of the year. The stock reacted to 28¾, but closed at 28⅞, a gain of ⅛ for the day. The preferred was dull and ¼ lower at 60¾ for 50 shares. The general belief is that the common will before long be given a dividend, but some insiders say such action is highly improbable. Next in point of activity was Pittsburgh Brewing common, which sold over 1,100 shares. The stock opened at 28¾, advanced ½ and at the close dropped back to 28⅝, a gain of but ⅛ for the day. The preferred was dull and unchanged at 47¼ for 50 shares. Despite hints of a fight for an increase in the dividend rate on the common stock the directors yesterday declared only the usual 1 per cent—50 cents a share. Bulls were of the opinion that the stock would at least be placed on a 3 per cent basis and possibly a 6 per cent one. It is understood, however, that a majority of the board is in favor of pursuing its heretofore very conservative course and of accumulating a big surplus, and also of retiring the company's bonds as soon as possible. The regular preferred dividend of 1¾ per cent was also declared. The third most active stock of the day was American Window Glass common, over 1,000 shares selling. The stock opened and closed at 63, a gain of ⅛ for the day, but in the interim advanced ½ to 63½. The close was less steady without either bids or offers. Much is hoped for from the Atlantic City harmony meeting to be held today, but one shrewd bull on the stock said: "You can't tell what they'll do. I look for a scrap—window glass manufacturers are like Democrats; they are always scrapping, and I wouldn't be surprised to see the 'harmony' plan smashed into atoms." Unlike the Democrats, however, it seems the window glass manufacturers of this country are generally prosperous. The steel stocks were quiet but steady to firm. Crucible common especially showing considerable strength on an advance to 21⅞. River Coal issues were dull and fractionally lower. Fire Proofing stocks were also dull and without material change. They are booked for some kind of a move between now and Thursday afternoon, the time when the directors are supposed to act on the common dividend. A feature of the market was a boom in Allegheny Valley Railroad preferred, which caused the price to reach 27, a gain of $1, and then sent it on up to 27⅜, with no offers under 28. There are reports that a prominent financier and steel magnate has been acquiring the stock, and there is a belief that the Pennsylvania Railroad Company intends doing "something" that will be of benefit to the stockholders. The cumulative dividend will amount to $15 to a share the first of September. There is a rumor that the Pennsylvania railroad may take the stock at one share of its stock for two of Allegheny Valley railroad. There was not much doing in the remainder of the list. Bonds were dull but firm.

PITTSBURGH FEATURES.

Bank exchanges decreased $152,778 50.

Sales Pittsburgh stock exchange 5,951 shares and $2,000 bonds.

Federal National bank was $2 lower at 139.

Allegheny Valley railroad preferred advanced $1 to $27 and closed ¾ higher bid.

Window Glass common reached 63½ and closed at 63.

Pittsburgh Coal common advanced to 29, but finished at 28⅞.

1,115 Pittsburgh Brewing common sold. High 28¾. Closed 28⅝.

Only the regular dividends were declared on Pittsburgh Brewing stocks.

River Coal issues declined fractionally.

Crucible Steel closed at 21⅞ and the preferred at 86¾.

United States Steel closed at 40 and the preferred at 90.

Bonds were dull but firm.

FINANCIAL DRIFT.

Lawrence turned buyer of Federal National bank.

The last sales of the day were in Brewing common at 28⅝.

R. C. Hall was a seller of Manufacturers Light and Heat.

Robinson Bros. were buyers of Philadelphia Company preferred.

During the last half hour 21⅝ was bid for 500 Crucible Steel common.

Near the close 184 was bid and 185 asked for 25 Westinghouse Airbrake.

Hoag & Grier, McMullin and Hill were sellers of Fire Proofing preferred.

Just before the close Wetsel bid 31 for 500 National Fire Proofing common.

Transfer books of the United States Glass Company closed for the annual meeting yesterday.

McFarlane was a liberal seller of Pittsburgh Coal common. McMullin was a buyer near the close.

Whitney & Stephenson were the largest buyers of Pittsburgh Brewing common. The seller, he was said, was Schmidt.

Near the opening 88⅛ was bid for 10 Railway Steel Spring preferred. These stocks are rarely quoted on the local exchange.

Sproul and Miller sold Allegheny Valley Railroad preferred; Whitney & Stephenson, Robinson Bros. and Holmes & Sons bought.

Miller was the principal buyer of Window Glass common. Long operated on both sides and Preston, Watt & Schoyer were large sellers.

The time for filing the amended answer and H. C. Frick affidavit in the United States Steel suit has been extended by agreement to Friday next.

Bank clearings in July for the whole United States show an increase of $810,981,048, or 8 per cent over 1901, and $3,924,712, or 28.5 per cent over 1900. All sections of the country showed increases.

The first sale of the day was 100 Pittsburgh Coal common at 28⅞. Hill & Co. bought and later sold 450 at the same price. Preston, Watt & Schoyer operated quite largely on both sides of the market, and Sproul & Co. were large buyers.

The Cripple Creek district maintains its phenominal production of $1,750,000 in gold month by month. The returns on the output for July have just been made up and show that the camp produced 54,000 tons, yielding a gross value of $1,880,500. This is at the rate of $20,000,000 a year, a remarkable production when it is remembered every dollar of it is entirely new wealth.

The Pittsburgh stock exchange listed the bonds of the Pittsburgh, McKeesport & Connellsville Street Railway Company and of the Pittsburgh, McKeesport & Greensburg Railway Company. In the application for the listing of the $1,000,000 bonds of the latter, a 5 per cent bonds the Pittsburgh, McKeesport & Connellsville railway, through President William H. Graham, states that the lines of the company will be united into a system when completed and will cover the Connellsville coke region and the valley of the Youghiogheny. Fifty-five miles of road now in operation show earnings of the rate of $440,000 per annum. About 80 per cent of the work necessary to complete the remainder of the system has been done. The capital stock of the company is $4,000,000, and it is divided into 40,000 shares of $50 each. The Pittsburgh, McKeesport & Greensburg Railway Company, whose $1,000,000 5 per cent bonds were listed, acquired by purchase the property and franchises of the Westmoreland Railway Company and the Greensburg & Hempfield Electric Street railway, comprising about 14 miles now in operation. These lines have been extended to 22 miles now operated and 9 miles are under construction, making a system of 29 miles in all. About three-fourths of the entire mileage is on private right-of-way owned by the company. The officers of the company are: John Huff, Richard Coulter, Jr., W. D. Chapman, J. F. McCabe, J. Edward Studley, E. C. Gibson and Edward Bailey.

Wall Street Brokers' "Tips."

It is understood that Atchison has already been obliged to cut stock rates to meet the competition and the effect of the Chicago Great Western rate disturbing factor in the western rate situation. It is thought it will be seriously felt later on.

I think the buying of Erie is coming from J. P. Morgan's office.

Sentiment is very mixed. I would rather sell than buy stocks at present.

The market is in strong hands and will not sell off much. I think stocks are a buy on recessions.

The move in Erie I have been talking about is on; the three stocks will sell higher; think Union Pacific the most conservative buy.

The prospect of an enormous grain crop and high prices for the product which the farmer will receive this year will undoubtedly show in increased railroad earnings, and the railroad stocks should be bought on dips as the foundation is solid.—Lounsbery.

Buy Manhattan and average on dips a point or so. Lower Wall street crowd continues very bullish on Sugar. Higher prices predicted for Tennessee Coal and Iron and Amalgamated Copper preferred. Norfolk & Western going to 80. Big bullish surprise impending in Louisville & Nashville.—Josephs.

Colorado Southern is one of the best stocks to buy for speculation. Colorado Southern second is a better buy than the common. Tennessee Coal and Iron is O. K.; also Amalgamated Copper preferred on any reaction. Buy Manhattan if there is a strike. It will sell at 150.

Unrecorded Quotations.

Colonial Trust Company offered at 391.

For Wilkinsburg bank 70 was bid near the close.

Florado Dollar Mining was offered at $1 50 a share.

Few Large Realty Deals Are Reported

SQUIRREL HILL PROPERTY WILL BE IMPROVED

Fine Building Site Exchanged for Allegheny Residence.

THE BUILDING OPERATIONS

Wabash Secures Deed for Robinson-Rea Property and Sixth United Presbyterian Church for Building Site—Beechwood Sales.

The United Realty Trust Company yesterday closed an exchange deal for two large residence properties valued at $20,000 each. The larger of them is a plot of vacant frontage, 235x239 feet, located at the corner of Beechwood boulevard and Dallas avenue. It is known as lot No. 11 in the Shaw boulevard plan and is situated across the boulevard from the Homewood cemetery. The plot adjoins the large holdings of the Forbes Land Company and is near the Frick property. The ownership of it was transferred from Dr. Harvey C. King to William S. George, C. Margaret Coleman and Sanford B. Evans and Mary E. Gilmer. In return for the Squirrel hill plot Dr. King received the property at No. 110 North avenue, Allegheny. This is a modern three-story brick house on lot 30x180 feet, extending back to Ellsworth avenue. A large brick stable occupies the rear of the lot. The Allegheny property will be held for an investment and the Squirrel hill frontage is to be improved.

Big Gain in July.

In spite of high prices and freight congestion the building up of Pittsburgh continues at a rate that is highly satisfactory to those interested in the city's growth. The report of building operations for July, issued yesterday by Capt. J. A. A. Brown, superintendent of the bureau of building inspection, shows a total of 317 permits issued which call for an estimated expenditure of $3,457,463. Of this number 194 were for new buildings which will cost $3,383,345. They were classified as follows: 58 brick, 96 frame, 30 brick veneered, 4 iron-clad and 6 of miscellaneous construction. Permits for additions numbered 47, amounting to $84,070, and for alterations and repairs 76, amounting to $40,048. Compared with July, 1901, the report shows a gain of $1,480,795, although four less permits were issued than in that month. July also shows a gain of 20 permits, amounting to $1,776,555 over June, 1901. When it is remembered that only one large permit was taken out, $2,000,000 for the Farmers Deposit National bank building, the month makes an excellent showing in general building. During the month 13 [illegible] of the building ordinances were [illegible] fires were visited and five complaints against dangerous buildings were received.

The Question Settled.

All doubt as to who bought the Robinson-Rea property on the South Side was stopped yesterday when the deed was delivered to the Commonwealth Real Estate and Trust Company to J. W. Patterson, chief engineer of the Pittsburgh, Carnegie & Western Railroad Company. The exact consideration for the property was $330,000. As the lot is 175x400 feet to the low water line the property brought about $485 a quare foot. Only one building, the old Westinghouse foundry, stands on the lot.

Through the agency of J. H. O'Donnell, C. B. Linderman has sold to Mary Coyle an improved property, 50x138 feet, in the southeast side of Homewood avenue, near Barnesdale avenue, Twenty-second ward, for $20,000. The property is improved with a modern brick house, and was bought by Mr. Linderman only last week.

The deed was registered yesterday conveying from Snowden G. Lennox to the Sixth United Presbyterian church a site 100x110 feet, at the northeast corner of Lincoln and Shetland avenues, Twenty-first ward. The consideration was $10,500.

Bought in Oakland.

Bouquet street: Henry Tener sold to Michael B. Cain an improved lot, 20x70 feet, on the west side of Bouquet street, Fourteenth ward, for $3,900.

Howe street: U. G. Jones sold to Lula A. Donley a lot, 35x85 feet, at the corner of Howe and Finley streets, Twentieth ward, and also two lots in Mellon's plan, Twenty-first ward, for $1,500.

Patterson street: Otis A. Hollis sold to James C. Moore an improved lot, 20x80 feet, on the south side of Patterson street, near Eleanor street, Twenty-seventh ward, for $2,700.

Amanda street: Thomas Evans sold to Louis Steding an improved lot, 20x62 feet, near Amanda street, Thirty-first ward, for $1,000.

Lemington avenue: The Chadwick Land Improvement Company sold to William J. McGannell and George A. Reedshaw, two lots, 37x102 feet each, in Lemington avenue, near Oberlin street, Twenty-first ward, for $637 50 each.

A Morningside Scheme.

Butler street: The Safe Deposit & Trust Company sold to Martin Coyne an improved lot, 40x100 feet, on the north side of Butler street, near Morningside avenue, Eighteenth ward, for $1,450.

Wabash avenue: Charles A. Schaner sold to John H. McKeever an improved lot, 26x67 feet, on the west side of Wabash avenue, Thirty-sixth ward, for $5,250.

Chaucer street: The Beechwood Improvement Company, Limited, has made the following plan of lots: John Boyce, 20x120 feet, on the north side of Chaucer street, near Lang avenue, $400; to William J. Goddard, 28x133 feet, at the southwest corner of Lang avenue and Chaucer street, $700; John C. Miller, 30x116 feet, at the southwest corner of Lang avenue and Spencer street, $450; Cassius E. McCrea, 24x100 feet, on the east side of Murtland avenue, $490; Charles L. Ruling, 20x93 feet, on the north side of Spencer street, $375.

Permits were issued yesterday as follows: To Peter Shields, for a two-story brick dwelling at Northumberland and Squirrel Hill avenues, to cost $21,000; to Frank Hess, for a two-story frame dwelling on Wightman street, to cost $1,400; to the American Foundry & Construction Company, for an ironclad foundry building in Kansas street, between Lytle street and Hazelwood avenue, to cost $10,000; to F. White, for a two-story frame dwelling in Blackadore avenue, near Perchment street, to cost $1,500.

CAMPMEETING SOCIETY FILES ANSWER TO SUIT

Valley Grounds, It Is Asserted, Were Used as Specified in Charter.

MEETINGS STILL HELD

The Use of Property for Campmeeting Purposes, According to Methodist Doctrines, Is Still Prevalent. Not an Undenominational Resort.

An answer was filed yesterday in common pleas court No. 1 in the suit of William J. Kountz, executor and trustee under the will of his wife, Peninah W. Kountz, deceased, against the Allegheny Valley Camp Meeting association and C. L. Flaccus, its president, and others.

The plaintiff asks for a dissolution of the association on the allegation that it is not being conducted for the purpose for which it was incorporated.

The defendant denies the allegation that the corporation has discontinued holding annual campmeetings or the grounds as required by the charter. It is also denied that the grounds have been used as an undenominational resort from which profits are derived. It is denied that the corporation has collected from the rental and sale of lots and other corporate property for other purposes than that set forth in its charter.

The answer further sets forth "that the association has held annually campmeetings according to the doctrines of the Methodist Episcopal church and has in all respects used the corporate property for the purposes intended." It is also set forth that the charter says: "Said ground may be used at any time for such other religious and social purposes as shall be deemed proper by the managers."

It is admitted that the plaintiff's estate has been assessed upon the stock belonging to it, and it is averred that the estate has been sued to recover $145, alleged to be owing on the assessments.

FILED BIG BOND.

T. R. Hostetter's Administrator Gave Surety in the Sum of $3,000,000 Yesterday.

Robert S. Robb, of the Hostetter Company, yesterday took out letters of administration on the estate of the late Theodore R. Hostetter. Mr. Robb, who is secretary and treasurer of the Hostetter Company, was chosen as administrator. Since the application for letters was filed last week the value of the personal estate has been increased from $1,000,000 to $1,500,000 and Mr. Robb was compelled to give a bond for $3,000,000. His sureties are D. Herbert Hostetter and Mrs. Rosetta R. Hostetter, mother of the deceased. D. Herbert Hostetter says he is worth more than $2,000,000 and Mrs. Hostetter says she is worth $6,000,000.

Robert Patterson, by his will filed in the register's office, leaves an estate valued at $6,500 to his widow, Nancy Patterson of Allegheny. Julia Culiy leaves a $900 estate to John F. Ingham.

Margaret Hogney's $6,000 estate goes to her children.

John Pall, late of Millvale, leaves his $10,500 estate to his widow, Barbara Pall. Robert Brody, late of Allegheny, gives his widow, Sarah Brody, his $9,300 estate. Annie Gillespie leaves a $2,200 estate to relatives and friends. Sarah H. Manown, of Forward township, leaves a $7,500 estate to relatives.

W. H. Dry, late of McKeesport, leaves a $2,000 estate to Mrs. Barbara Gibson and Miss Ada Gibson in equal shares. Mrs. Alice E. Best of Avalon took out letters of administration on the estate of E. K. Best, her husband. He left property valued at $1,500.

BYERS GAINS A POINT.

Injunction Is Secured Restraining Nephew and Trust Company from Opening Safe Deposit Box.

Jacob Byers, the aged and wealthy Greensburger, who has entered several suits against his nephew, Attorney William S. Byers, for alleged appropriation of moneys belonging to him, yesterday won a point in the local courts. Byers went into Common Pleas Court No. 2 and obtained a preliminary injunction against his nephew and the Fidelity Title and Trust Company, restraining the latter from opening a private box of Attorney Byers. It is believed the box contains many of the valuable securities old Mr. Byers alleges belong to him. Judge Robert S. Frazer granted the preliminary injunction and set Monday, August 18, as a time for a hearing.

One bill alleges that the plaintiff placed in the hands of the defendant $75 $1,000 Mt. Pleasant Coke Company bonds, $40,000 in cash and other sums aggregating $20,750, all of which are believed to be in the safety deposit box at the office of the trust company. The plaintiff asks that the box be opened in the presence of an officer of the court, who shall take charge of the contents until it is determined to whom it belongs.

FILED HIS ANSWER.

John V. McCormick Claims He Used Matgasovic's Money as Directed.

John V. McCormick yesterday filed an affidavit of defense to the suit for an alleged debt of John Matgasovics. McCormick avers that the plaintiff last February gave him $350 to give to a broker to invest in Crucible Steel Company stock. The money was to be used for margins required by the broker for 50 shares. The stock was carried in McCormick's name. The stock was bought at 28¾ and fell.

McCormick says he paid $100 for margins. The stock went lower and no margins being paid the broker sold it. McCormick says the plaintiff well knew what was going on, and that he was not being deceived.

ASKS $5,000 DAMAGES.

Loss of Cheap Umbrella Results in Damage Suit.

Frederick Buel, Jr., by his father, Frederick Buel, has sued Daniel A. Bergman for $5,000 for false arrest and prosecution. The litigation began over the loss of Bergman's $1.25 umbrella.

The plaintiff alleges that on August 5 he was arrested on a warrant sworn out by the defendant charging him with the larceny of an umbrella. The plaintiff avers that he was arrested and taken before Alderman Henry Grelle. He was unable to give bail and was sent to jail for two days. Bergman was unable to make out a case and Buel, Jr., was discharged.

ANXIOUS FOR DRILLING.

Ask the Court to Compel Lessees to Operate Land or Return Control.

A bill in equity was filed yesterday by R. P. Stevenson and Samuel M. Stevenson against W. C. Kennedy and M. Fitzgibbon to compel the defendants to continue operations for oil or gas on a lease of 191 acres in Washington county, or to give up a portion of the property on which they have not drilled.

The bill sets forth that about five years ago the defendants leased the property with the understanding that they drill for oil and gas and protect the lease from wells on adjoining property. Several wells were drilled, the plaintiffs aver, but for some time no wells have been put down. It is also claimed that the lease has not been protected and that operators are getting oil from under the plaintiffs' property. The plaintiffs claim they agreed to give the defendants five acres around each of two producing wells on the lease so that the other ground can be leased to other persons who are willing to drill. It is asked that the court declare the undeveloped part of the farm released from the lease and restrain the defendants from interfering with the plaintiffs in operating on the lease.

Witnesses Ordered to Pay Costs.

Herman Lawson, Bernard Costigan and John Duffy, witnesses who failed to appear in the Councilman John Upperman election contest hearing, were sentenced by Judge Samuel A. McClung to pay the sheriff's costs. They were not to again repeat the offense. Joseph Johnson, the other defaulting witness, has not yet been located.

Executions Issued.

Executions were issued as follows: George W. Blair vs. W. H. Tweedie, $1,439; J. L. Springer vs. John McCutcheon, $190.

CONGESTION'S CAUSE HAS BEEN REMEDIED

General Manager Potter of Baltimore & Ohio Thinks Troubles of His Road Are at an End.

General Manager George L. Potter of the Baltimore & Ohio spent yesterday in this city in conference with General Superintendent L. G. Haas, on official matters.

Speaking of the freight congestion that has been prevailing on the Baltimore & Ohio, as well as other lines in and about Pittsburgh, Mr. Potter said:

"We have practically overcome the troubles, which started with the washouts at Wheeling and on the Newark division over a month ago. General Superintendent Haas reports the condition of the yards about Pittsburgh as normal today, and everyone is much pleased with the good results of his work.

"The main trouble has been with engines. The unprecedented amount of rain in the region made the rivers so muddy that the boilers were rendered unserviceable in a very short while, and this required the shopping of the engines, lessening that much the available motive power."

Plans are under way now for adding still more to the size and capacity of the shops at Glenwood, by means of which any repairs whatever can be made to engines. The shops are now among the largest on the Baltimore & Ohio system, but when completed they will rival the great ones at Mt. Clare, Baltimore. The divisional shops at New Castle Junction and Connellsville also are to be enlarged, to enable them to do much more work than at present. With these completed, it is believed the troubles of the Baltimore & Ohio with engines about Pittsburgh will have ended. The work on the shops is going forward with all possible rapidity.

Our daily news is only an invitation to examine all classes of goods sold for less prices than anywhere else around us.

"Blue Stag" Kitchen Ware.

Another Special Sale Today.

The thousand or more women who purchased this ware last Tuesday were impressed with its general finish. There are no two ways about it, the German manufacturers know how to make culinary ware from A to Izzard. There is no ware in the whole world that can equal it.

Our personal representative selected this ware on his recent trip through Germany, and the large purchases to which we subscribed enables us to sell it for 20 per cent less than domestic enameled ware.

As it has two more coats of enamel than American-made ware of this class, we consider it 20 per cent better—so that in reality it is 40 per cent less in price.

The several lines have been replenished so that selection will be as satisfactory today as it was this day last week.

Special Sale of Bedding for Autumn To-Day.

No matter how warm the days now, you can depend upon it the nights will be refreshingly cool—so much so that a little heavier bed clothing than usual is necessary.

Opportunity today to buy some extra good bed clothing under usual prices. For instance—

At 75c each—sold for $1—A special lot of Bedspreads that are crocheted. The patterns are new.

At $1 each—sold for $1.25—100 large crocheted Bedspreads that are slightly soiled.

At $1.75 each—sold for $2.25—A special lot of satin finished Bedspreads. Single bed size only.

At $3.25 each—200 Merritt's Health Wool Comforts. New Fall patterns in beautiful designs.

$2 each—Special lot of extra quality silkoline covered Comforts—tufted and nicely finished with zephyr edge. All new patterns.

Mussed Muslin Underwear.

There is a table full of women's mussed undergarments—second floor.

We cannot give you the prices, neither can the garments be described.

Too many varieties—too great a range of prices.

In general we can say the reductions are a third and a half.

The major portion of the garments are of the finer grades.

Misses' King Shirtwaist Suits, $6.

Sold for $9 and $10.

Fine linen in pink, blue and green stripes.

One of the best suit bargains we have offered this Summer, and we don't expect to make such another offer again this season.

White Goods.

Such as these are staple—if you have no use for them now they will come handy some time. The urgency of the occasion is manifest in the fact that cottons have a tendency to take on much higher prices.

10c a yard—sold for 12½c, 15c and 18c—White striped and checked Nainsooks, Lawns, Oxfords, Dimities and Dotted Swisses.

20c a yard—sold for 25c and 30c—Such fine white goods as Madras, Oxfords and Dotted Mulls.

New Black Voiles, 75c Yd.

We must take you into our confidence. Early in the year we placed an order for these Voiles at a price that enabled us to sell for 75c the yard.

Recently we ordered several pieces delivered, and along with the delivery came a notification that no more would be sent at the contract price, owing to a general rise in the market.

In other words, the manufacturer jumped his contract.

We shall carry out our intention to sell at 75c, but as the shipment only contained a limited number of yards it will be wisdom to see these black Voiles at the earliest opportunity.

Special Prices on Table Napery.

Not all given here—just a mention. The department is full of like underpriced values.

$1 a yard—sold for $1.25 and $1.35—Bleached Damask in such widths as 72 and 81 inches.

$1 a dozen—sold for $1.25—Excellent Damask Napkins—18x18 inches.

$1.75 a dozen—sold for $2.25—A finer grade of Damask Napkins—22x22 inches.

50% Off On All Men's Suits.

That's the way we close the Summer Season in Men's Clothing. Could easily have done as other houses do—keep up the prices and pack away what's left till next year. But that isn't our way of doing business. We insist on opening each season with a brand new stock. Of course, in order to do so, we must accept the severe loss caused by selling Men's Suits for half the regular prices, but it pays in the long run. As our customers are the gainers by this sale, we not only hold the old ones but make many new ones, and they all will come back to us at some future time to buy clothes from us, when there will be some profit in it. Now—bear in mind—All Suits, with the exception of Full Dress and Uniforms, are included in this offering:

Only $3.50 for Suits Marked $ 7. | Only $ 9.00 for Suits Marked $ 18.
Only $5.00 for Suits Marked $ 10. | Only $10.00 for Suits Marked $20.
Only $6.00 for Suits Marked $ 12. | Only $12.50 for Suits Marked $25.
Only $7.50 for Suits Marked $ 15. | Only $15.00 for Suits Marked $30.
